Intent on his drawing, an engineering student practices the fundamentals of drafting.

One way to enjoy yourself in a large crowd is to be rowdy enough to be noticed. Two restless boys, perched on the shoulders of friends, display their enthusiasm at a pep rally

Members of the senior class attempt to catch the cheerleaders' attention by whistling and waving money.

A common sight during the day is guys and gets traveling to and from gym classes in their gymsuits. Usually they walk in packs where they can blend in with their other classmates

Orchesis, the modern dance club, is an opportunity for many girls to participate in putting on a production for the school.

Under the supervision of his father, junior Chuck Seidinfus works diligently to reconstruct a battered

York football fans are a loyal lot, cheering on the teams through many disappointing seasons.

Duke Power! The football learn railes their spirit before their first win in two seasons.

### The **Faces** Of York

Thespians preparing for an upcoming show ... a battle of the minds between two members of the chess team ... the band majorette leading the marching Dukes during their half-time performance ... students working during their free period as office assistants ... screaming and stomping fans at basketball games ... underclassmen cramming for exams in the cafe ... These faces are all pieces, fragments of our school.

Playing in the Chicago Youth Orchestra gives musically-inclined students invaluable experience in addition to that gained by participation in the school's music program.

#### Diverse And Distinct . .

The spirit of the sophomore class overwhelmed the rest of the school at soc-hops and football games.

ferent ways we spend our terests.

With a student population of time outside of class ... hit-3300, diversity is not hard to ting the books, cruising, workfind at York. The smoking ing at K-Mart, watching Gilliarea is as filled as the library gan's Island, practicing the during lunch periods. The dif- flute, all reflect our varying in-

Football season prompts an exchange of instruments for flags for these marching band members, as they take a break from playing and concentrate on providing entertainment for the fans.

Being a member of a group doesn't always mean being in on all of the action, it also means carrily about what happens and supporting the group in any way possible.

Craziness is characteristic of many York stu-dents. Marc Pinto displays his own form of insanity at the peanut eating contest during Homecoming

The high stepping pom-port squad awaits the Dedication and hard work are integral parts of any band members character, whether in the pracfor the third quarter, the half-time entertainment keeps school sprit alive.

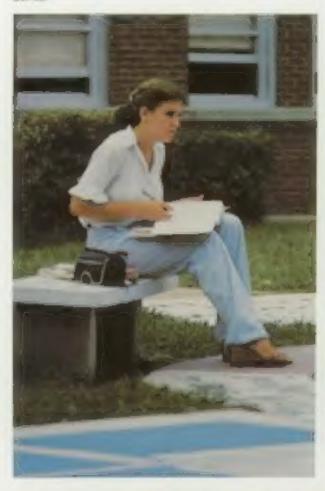

tics room, on the stage, or on the field.

#### Fragments Of Unity

Cramming in homework and studying every spare moment are common practices for many

We all share many of the same ups and downs .... laughing through Second City's performance, rushing onto the field after the football team's Homecoming victory, suffering through the inconvenience of reconstruction, and complaining about the stricter attendance rules. In the good times, in the ordinary times, and even in the worst times. we find ourselves unified. The faces of York, diverse and dictinct, are fragments of that unity.

The Advance Placement programs are taken advantage of by many students. Kevin Anetsberger participates in an AP Biology experiment by measuring hydrogen peroxide in a graduated cylinder.

The thrill of winning is evident on the faces of treshmen Dan Newman, Marty Frega, and Dale Madsen after their conference victory, Cross country has been the most successful sport at York in recent years.

Although during the day students may have many diverse interests, it only takes a little encouragement to get them all standing and cheering in support of our school.

Even though the sounds of reduction may reterrupt dinversation on a winty tax the masking and its still a favorite place to kink off the sking and telax

## A Surge Of Spring

It was in the air. It slowly crept through the hails of York, gaining momentum everyday until finally it could be ignored no longer. The symptoms: a general spacey feeling combined with frequent unex cused absences and a tendency to drift off during class. Does this all sound familiar? A classic case of spring fever had hit York

Probably the first sure sign to everyone that spring had finally arrived was or March 11th-The Spring Dance, During a night of "Springtime in Paris", spring fever reached epidemic proportions. As Eric Heisen commented, "The decora tions were so good, you could hardly fell that you were dancing in the gym. A true Parisian atmosphere was created with painted murals, a canopy over the gym and a street side cafe. The Ralph Berger Orchestra provided the music but it was the couples themselves who made the evening special. Following tradition, gir s were urged to do the inviting. Girls tried to get up enough nerve to ask the guy they'd had their eye on all winter, and guys, well they got to see what it's like to wait and wonder ... it gave both sides a taste of what the other goes through

Judging from the views of Tammy Houk, the evening was a success. "Every one had a really good time — the music was really nice and the decorations were fantast c."

The courlyard provides a wide speand design for the interested person. Between classes and during lunch periods students can study the creative thoughts of officer materials.

### Courtyard Craffiti

The bright colors of the first the f give it an inviting almosphere which is the from the pressure

The library is packed, the cafeteria is in pandemonium, and the main half is carefully guarded by numerous hall monitors. The only remaining spot is the courtyard. where students are able to relax and avoid pressures inside the school. The multi-colored courtyard is a result of the creativity of the students, giving it a personal touch

June rolls around and the tradition of painting the courtyard becomes a plan mapped out in the minds of all seniors Vice principal Fischer does not favor this yearly ritual, but with permission and enough organization, seniors are allowed to get out their paint brushes

The real joy of painting the courtyard is in sneaking in after school hours. Seniors. leave their mark on York with such stogans as "Wasted Days & Wasted Nights", "Dooble — Wah", "Go for althe gusto you can get", "Be a Horny Toad", "Wild & Crazy 77 78 Pom Pons", and "Dust in the Wind, Skip's Square, 43"

Some of the slogans painted in the

The most colorful pa yied been to the state of the s and descriptor with a fact of the work

courtyard are more cryptic and their true meanings remain a mystery to the under classmen. Some of them are: "Join the C.T. Club", "C'mon Biff", "Y.I.G.", Grambo Gang", and "Ivan Putski Fan

One square that everyone can under stand is "To All Frosh, beware of frivia relationships -- they may end up as eter nal loves

Besides the colorful sidewarks, the courtyard is liked for its vast amount of open space to sit and converse, "It has a relaxing atmosphere — it's a good place to just go and talk," commented Julie Swenson

The courtyard is always occupied Some students are hunched over books while frisbees whiz by over their heads. In the fall several apple lights break out, and in the spring squirt guns rule the court yard. The constant student activity adds to the painted sidewalks and benches, making the courtyard the most pictur esque spot in the school

Goofing off is not a lost art to the rowdies of the courtyard Squirt gun lights, apple lights, and games of hisbee are some of the more constructivity ways they spend their tree I me there

#### Did You Know

In 1955, the members of the Round Table Club (Debate) discussed the topics: Army-McCarthy Jasue, the Yalta Conference, the Far East situation, and the possibilities of a peaceful co-existence with Russia and China.

There are 32,778 books in the York library and 3,669 half lockers.

The caleteria orders: 26 dozen doughnuts, 15 cases of white and 30 cases of chocolate milk per day, and 35 cases of french fries (30 lbs. each) twice a week. The cafe takes in \$1400 a day.

The first "Y's Tales" was published in 1922 by the first class to graduate from the "new" high school. It consisted of 64 pages bound in an imitation leather cover.

"Mariboro Country" or the emoking area has been in existence only since 1973. It was created to stop students from smoking in the washrooms. The administration is considering closing or restricting the area when the campus is closed.

The Clarence D. East field, across the street from school, was named after none other than Clarence D East. Mr. East was athletic director from 1920- 1954 coaching basketball, baseball, track, swimming and football. He also taught girls' and boys' P.E. and mechanical drawing and algebra.

In the twenties, girls athletics was a big part of York. Girls had teams in basketball, field hockey, swimming, volleyball, golf, football, dancing, and pyramid building. However, tilinois law prohibited interscholastic sports for girls, therefore making it impossible for them to compete in games other than those between the classes.

A pep band was first formed to play in an assembly on November 23, 1928 and thereafter it played at all home basketball games.

In 1938 there was a Historical Society Club whose purpose was "to bring to the attention of its members many facts not learned in regular history courses." The club sponsored dances, assemblies, and had several yearly field trips.

The art department was created in 1926 with an Art Club forming the following year.

The York-Hi newspaper began in the September of 1921 and was in publication until 1930 when it was discontinued because of the Depression. Seven years later, a group of students asked Mr. Story, a teacher, to be their advisor and then in 1938 the York-Hi was functioning again. In 1943 they won the International Honor ranking in Quill and Scroll and in 1951 they won the George H. Gallup Award for the fourth year in a row.

The 1953 Christmas Edition was printed entirely in red and green.

The first principal of York was J.H. Crann, who served from 1918-1924. The first graduating class, in 1922, had 18 members.

The Future Teachers of America was founded in 1950.

There was a fencing team that was introduced in 1943. According to the 1942 Y's Teles, "Fencing is a healthful recreation which develops most of the muscles, and improves posture."

The honor roll plaque hanging on the wall opposite the Health Office recognizes York students who served in World War II. A gold star next to a name indicates a fatality. The plaque was donated by the classes of 1940, 1941, and 1942

York Graduate Fred Snite, whose family owned the Elmhurst Country Club and the Ovaltine Company, was stricken with polio at the age of twenty. He traveled all over the world in one of the first iron lungs. He later married his nurse and had two children.

The monument in front of the school designates that field as the Lithgow Memorial Field, it is named in memory of senior Richard E. Lithgow, class of '36. He was a halfback on the football team and died of injuries suffered while playing football.

The Chess Club was founded in 1951.

For those of you who know Mr. Nelson, head of the Math Department, you may wonder why his nickname is Tucker. This is the story: He was born in a very, very, very small town. His mother, Mrs. Effic Nelson, knew everyone in the town. There was only one doctor and after delivering Mr. Nelson he went home and said to his 3 year old daughter,

"Effie had a baby boy!"

His daughter then responded, "What did she name him? Tommy Tucker?"

This spread through the town, and soon everyone called him I'il Tommy Tucker, even though his name was actually Douglas. Effic decided to change his legal name to Thomas, thinking that people would eventually drop the "Tucker." But it was not so. People dropped the Thomas, and they called him Tucker.

When John F Kennedy was a candidate for the Democratic primary, he spoke in the York gym in November of 1959 before 5,000 people. After explaining to York English teacher, Miss Betty Bingham, that it was his tenth speech that day, he said, "Sometimes I wonder if it's all worth it."

Charles Henninger, a York teacher, flew Air Force I, the presidential plane, to Dallas the day John F. Kennedy was shot. He then flew the new President, Lyndon Baines Johnson, out of Dallas and back to Washington.

An interesting addition to Mrs. Dorsey's classroom is the tarantula she received as a gift from a student. For her students' protection, Harry is confined to a five gallon glass aquarium.

"I started teaching because I love kids, and I still do", commented Miss Graham who's been teaching at York for twenty- seven years. The teacher that's been at York the longest, thirty-one years, is Mr. Delbert Meitz. When he was in the service he realized how much he missed the kids. "I'm going to teach 'till the building burns down!" he said as he lit his pipe.

The old swimming pool, which was located in the Girls 126 locker room is reputed to have been covered up because a student drowned. Actually the pool became too expensive to maintain during the depression and therefore was sealed up.

York once had an Equestrian club beginning in the fall of 1950 and lasting through 1955. It was organized "to increase interest in riding and the love of the outdoors among York students."

#### A Forgotten Beginning

Our school was constructed in several different parts. The original building, nomposed of what is now the 126 gym, and the locker room, rooms 138 W and E, room 134 (the health room), and the bookstore. The front of the school opened into the courtyard near the bookstore. This was dedicated in 1919. The present bookstore was the principal's office and the swimming pool was in what is now the girls' locker room.

The next section was dedicated in 1926, and included all rooms in the E-W hallway running under the big clock. The principal's office was then moved to what is now the health service, and the bookstore was established. The front of the

school faced south. The football field was located only a few feet south of the front doors, in what is now rooms 106 A-D, the library, and the foyer

The third addition was the auditorium and the 139 gym. It was completed in 1929. The auditorium stage had previously been located in the 126 gym. The next revision came in 1942, when the cafeteria and the shop were enlarged. At that time the cafeteria was located directly east of the 126 gym locker room doors, which is now the maintenance department and auto shop

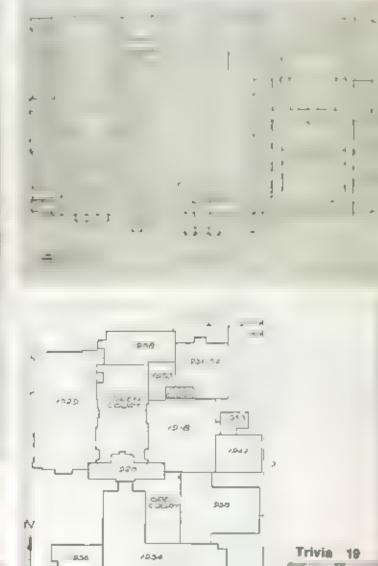

In 1951 and continuing until 1953, a few additions were made, such as the boiler room, rooms 140, 142, 144, and

the present caleteria. 1954 brought many changes to the early building. New additions included rooms 106 A-D, the library, the principal's office, and the main gym. By this time the front of the school was where it is now, and the football field moved across the street to the Clarence D. East field.

In 1956 the guidance, general, and counselor's offices were added, and two years later the band hall, Yorkshire Hall, and the industrial arts rooms were completed. Additional renovations, including re-modeling the auditorium and adding to the library, are part of York's latest face iff

#### VANIEDE

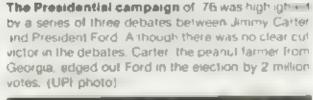

Newspaper heirees Patty Hearst was kidnapped by the Symbionese Liberation Army in Febru. 1974 as incidents of political ferrorism rose. Patty liter became a member of the terrorist group and participated in a bank robbery. She was convicted but later pardoned by President Carter. (UPI photo)

Concern about religious cults and their annual branches are to a him I when over 900 members of the People's Temple committed mass surfer in Guyana November 1978. In members of the group, apparently some by choice and some by lorde drank a soft drink laced with cyanidi. They lived in a settlement called Jonestown in a ned after their leader Rev. Immy Jones. (UP) photo)

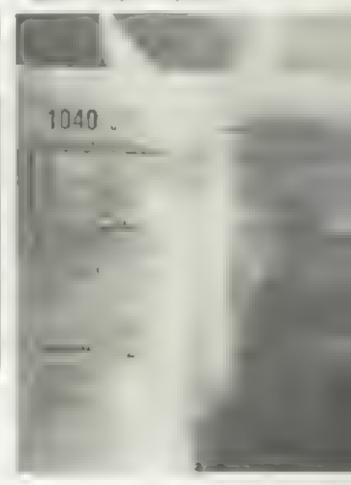

#### A Glimpse

The economy was the number one problem for him presidents and a critical issue in the presidential campaigns. Despite freezes on prices and wage price guidlines, the war on inflation seemed to be a losing battle as double digit inflation tacked the economy the entire decade.

Riving taxes caused voter fury in California in June 76 where Proposition 13, a taxpayer referendum cutting property taxes was present overwhelming vote the idea caught fire and soon limiter propositions were being proposed across the nation including lines. Thompson Proposition

Agreemente between nations balanced the shaky world nuclear and political situations. Seeking mitations on weapons in an attempt to brill the growing arms race was a major goal of three Prodents. Another consistent foreign policy goal was normalization of relations with China. What Nixon brigan with his China trip in 1973, Carter completed early in 1979 when the USA established diplomatic earlings with main and China.

The Committee to impeach the President de monstrats in front of the White House October 2 1973. When the Watergate scandal was revealed to the public by the press, the people were inturiated. They sought integrity in government and impeach ment of the President, whom they had elected by a landslide just two years earlier. Under president discussion of the President upon the resignation of Spiro Agnew. The first President of the US not to be elected. (UP)

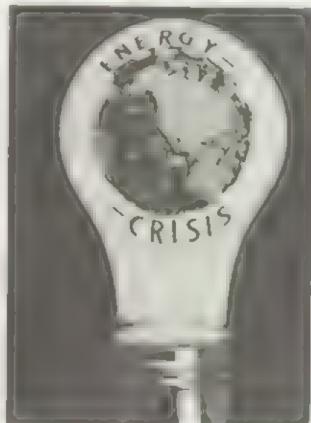

The Vietnam war, which had split the nation, end ad for the U.S. when a cease fire was signaled January 27, 1973. Soom after that the prison of war returned home. The war didn to this ally and until 1975, when the South Vietnam government collapsed under the advances of the Communists.

#### Of The

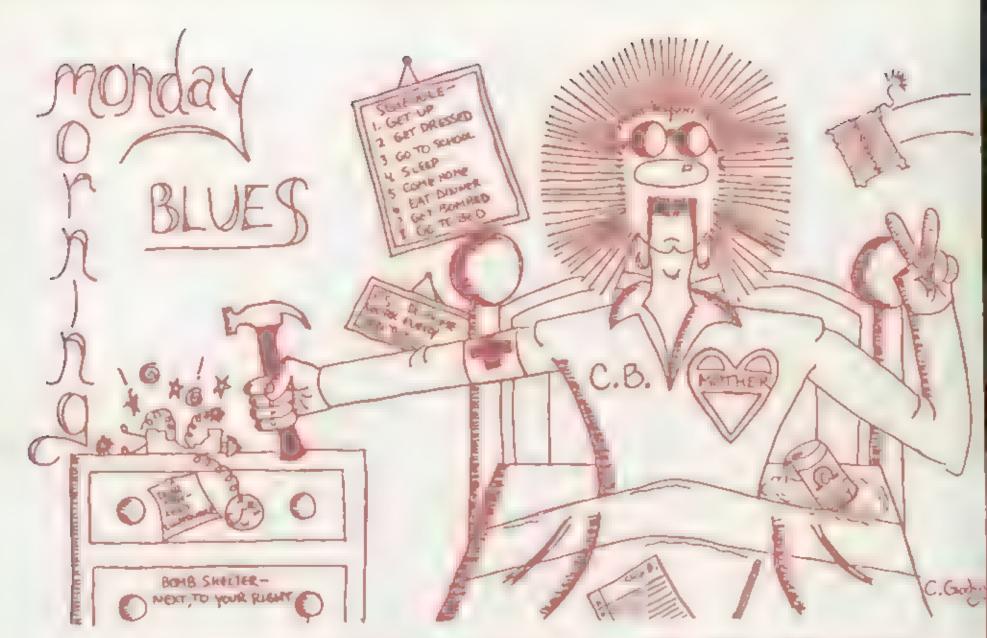

The earth rises over the moon in a picture taken by the Apollo 11 crew. Space flights during reached far beyond the moon however manned Pioneer Venus spin craft sent proback to earth and the Voyager I spacecraft traveled to Jupiler. Both trips yielded unexpected divaling the battled scientists and which might lead to new theories about the nature of these heavenly bodies and their creation. (NASA photo.)

Cecreasing oil supplies and a Middle East oil embargo created an energy crisis early in the '70's No one was sure how to solve the problem but all the Presidents urged voluntary restraints. Industry did manage to cut back on their energy usa memory sources of energy such as the sun particle for the future. Nevertheless, by 1979 the energy situation still looked dim

Medical science rapidly advanced in many tierds, particularly genetics. Undocumented research in England in 1978 resulted in the first test tube baby, born to a woman unable to conceive the experiment was applicated by some, viewed with suspicion by others, and raised serious mora questions all around.

BUZZZZ. The alarm goes off You make a stab for the clock, turn it off, and tune in some music. One eye opens at a time - Good Lord its only 6 00 am Those confounded numbers are staring you in the face; who ever invented digital

"I usually don't remember what's going on because I'm sleeping through the whole day."

clocks anyway? "Just five more minutes and I'll get up," you say to yourself. And so starts the most dreaded day of the week - Monday Five minutes turns into ten, ten into twenty, and pretty soon you're catching the second period bus for a first period class. As you drag into the Guidance Office and run into three other kids in the same condition, you ask yourself why God invented Mondays anyway Those Monday morning blues have hit

What happens on Monday's? Not a some of your classes. Pretty sad, huh? As ever, has a good attitude toward Wednes-

senior Kathleen Mueller commented, "I usually don't remember what's going on because I'm sleeping through the whole day."

The weekend hangover plays a large part in Monday blahs. Monday is a definite low after two consecutive highs spanning only forty-eight hours. Let's face it, no matter what kind of highs you've had, Monday is a rockbottom letdown. It doesn't have to be, though, Sue Eckert found one bright spot, "I like Mondays because I get to see my friends that I didn't get to see over the weekend "

It's finally Wednesday. You've man-

'Let's face it, no matter what kind of highs you've had, Monday is a rockbottom letdown."

aged to survive Tuesday, but now you're barely hanging on. Minutes seem like hours and classes drag on an on. Upcoming tests form ahead forbodingly, and the whole lot. Next Monday, look around in homework piles up. Jean Schwass, howdays. As she explained, "It's the high alert during alert during to the whereabouts of parties start circulating

'On Mondays I can't wait till Wednesdays, on Wednesdays I can't wait til Fridays, and on Fridays I've waited too long '

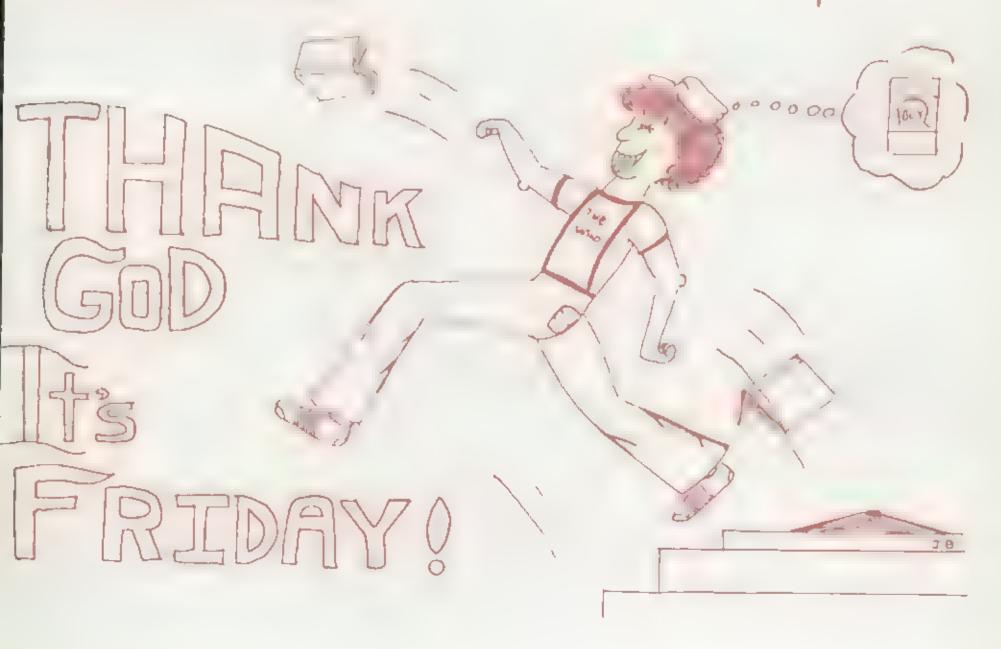

The bloodstream of York is temporarily revved up. As suphomore Laura Martinek pointed out, "Only two more days to go."

Wednesday drifts on to Thursday, and then finally, its Friday. Who cares about tests or clothes. Jeans and general rowdiness dress the school — TGIF! Uninterested students nod yes to teachers' unending questions while they ponder the pressing questions of who can get the car and what excuse hasn't been used lately? The main hall clamors with excitement while the hall monitors try to maintain

some resemblance of order Discipline goes to pot and students and teachers alike begin to fray at the ends as the day wears on. Pat Schlesser summed up Friday the best, "It's just a wild-n-crazy kind of day."

Friday is the climax of another long week Senior Cheryl Leoni commented, "I love it. No more fests, no more pressure no more planning — it's finally here."

Freshman Jeff Baasch explained his view "On Mondays I can't wait til Wednesday, on Wednesdays I can't wait til Fridays, and on Fridays I have waited too long "And so begins another giorious weekend How do York students spell relief after a long, hard week? F-R-I-D-A-Y.

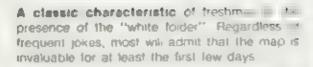

Some freehmen students / how and chaye the ... mother or father accompany them to reach the from This practice has its advantages 1 (-----can be very helpful when it comes to finding lockers and carrying heavy books

Freshmen take time to compare their sched utes after finishing registration. However, the difrooms still awaits them.

Registration is the start of the new school year and the cost can be high. As cashiers add up the price of books, students watch in amazement as the total soars.

## Registration:

## A Shaky Start

Excitement to mixed with mild uncertainty as these freshmen approach the all important step in the registration process — getting their schedules.

Mountains of books dwarf students now but the piles actually dwindle rapidly in the space of four registration days.

What, me nervous? Just because I'm a "dumb frosh" who registers at this gigantic school of about 3300 kids and I don't even know where the cate is? Ha, are you kidding?

You bet I'm nervous!

But I play it cool for the benefit of all the other kids in my shift. About thirty of us stand around in the auditorium lobby waiting to hear the introductory speech A few kids laugh and joke around, but the rest just stand there looking petrified Pretty soon a teacher comes out and starts collecting our dean's cards. We enter the auditorium and fill up the first several rows. Some big guy talks for a few minutes about rules and policies and how much fun this year will be. No one really listens to that, but they all snap to attention when he gives the directions for registering. After all, who needs to get lost the first day?

But as we leave the auditorium to go to another classroom I realize that I don't have to worry. There are signs all over pointing the way and tables blocking halfs we're not supposed to go down. Welt that's a relief!

In the girl's gym I pick up my schedule and bus route. I have second through ninth periods and three free periods. Is that good or bad? I'm also given a brown envelope and warned, "Don't you dare lose this!" I guess it's pretty important!

We go in a little office just off the gym to get our yearbook pictures taken. I'm so busy watching the photographer make everyone laugh that I forget to comb my hair. When it's my turn for a picture he makes me laugh too, so my eyes are closed when they snap the picture

Then I join a line for an I.D. card that seems to be moving a lot faster than any other I've stood in today, I soon figure out why when I'm grabbed by this mean-looking kid, slammed against a cork board, and ordered, "Look at that orange dot."

After a long summer, freshman students get a brief rundown on the rules and regulations of York before beginning the registration process.

After registering, a routine trip to the school map is made and an endless search for the right classroom begins.

I'm about to tell him off when CLICK the machine takes my picture in mid-word. When the card is processed and they give it to me, I see my mouth is hanging wide open, of course. I'm having really great luck with pictures today!

After that ordeal I find myself in a huge room filled with tables and it dawns on me that THIS MUST BE THE CAFE! I'm feeing pretty proud of myself for figuring that out when suddenly sales pitches bombard me from all sides

"You're signing up for yearbook RIGHT?"

"Everyone buys the newspaper, you've got to have a subscription!"

"What? You mean you're not buying insurance?"

Before I know it I've signed up for everything. Boy, what a sucker I am

I feel pretty low by the time I get in line for my books. It's all I can do to hand over my brown envelope to the student helpers and receive ten tons of books in return When I hear the total \$87.50-1 almost faint. Think what you could buy with that kind of money!

I lug my stack of new books away with hall and gym locks stuffed in my pockets At last, registration is over. So how do I feel now that I've gotten through my first experience as a student of York?

Don't ask! I can't find my locker

It paralyzed Chicago, the "city that works", as well as most of northern Illinois. It shut down O'Hare, the busiest airport in the world, for two days, as wellas schools, churches, sports events, conventions, business and public transportation. And it created many unusual memories for those who survived it. It was the Biizzard of 179

It began innocently enough Fnday evening, January 12, with snow flurnes that accumulated into only 1½ inches of new snow by midnight. (A storm on the

9 inches on the ground already). The big news of the day had been John Wayne's cancer surgery; most of us were planning our weekend and gave little thought to the snow outside. Little did we know!

It snowed all night. By 6 a.m. Saturday the 13th, the total accumulation was 6.8 inches, but it was business as usual in most places. The trouble didn't really begin until Saturday afternoon, when over a foot of snow had fallen --- and it was still coming down. One of the first crisises to emerge was stuck cars. "I'll never forget New Year's Eve weekend before had left imy experience with that," said senior Lisa

Geannopolus, "That Saturday we had had an I.E. meet and my teammate Henry. French was driving three of us girls home. We got stuck in this drift and I'll never forget standing there in a skirt and heeis in knee-deep snow, trying to push the car out. It was pretty funny, actually!"

By Saturday night 17 inches of snow had failen, and by then we knew we had a bonafide blizzard on our hands. O'Hare Airport shut down officially for only the sixth time in its history. Public transportation was at a virtual standstill in Chicago

Continued on page 27.

Stient and untouched, the courtyard is transformed under a blanket of snow

As the inches of enow become feet, the danger of collapsing roofs was a problem for many Emhurst residents

Getting to achool took a little extra effort during the week of the blizzard. Sidesfreets often proved to be too much for the lumbering buses which were constantly gelting stuck

Foot after foot of snow fell until the countyard hecame desolate. A few brave students did venture out into the cold though, in order to reach classes

Nothing was left untouched — even wildlife suffered from the snowy onslaught. Stranded animals such as this bug were abandoned by the road

A slow moving procession of cars head down York Road, led by the most indispensable vehicle during "The Week" - a snowplow

and the suburbs, and everyone was thankful that the blizzard had not occurred on a weekday

Finally, very early Sunday morning, January 14, the snow stopped for the first time in 30 hours. Over twenty inches had fallen, just three inches short of the record set by the Great Snow of '67. We awoke that bright, sunny morning to drifts that were anywhere from knee-deep to headhigh. After the initial shock of all that snow wore off, we began to attack it with a vengence. It had to be cleared from expected snow never materialized streets, sidewalks, and even roofs. Reports of collapsing roofs drove anxious homeowners and storeowners up on their own roofs to relieve the burden of nearly rector Jack Tosh was coming down a lad- and Monday. der after trying to clean snow off his roof when the ladder slipped and he broke his inconvenienced in one way or another, ankle.

day night was whether or not school would be called off the following day. It was the first time we had two days off for snow in a single year

But it was back to school Tuesday, for those whose bus came, or who had a working car. A normal school day was returned to for a brief period, Wednesday and Thursday, but the threat of another big snow, and concern about the schools roof collapsing caused the cancellation of classes on Friday. As it turned out, the

Exams were pushed back to Wednesday because of the missed snow days, but the carefully laid plan of the department heads and administration was two feet of snow. This proved to be dan-ruined by yet another snow on Tuesday gerous in some cases. York Athletic Dr. Exams were set back to Thursday, Friday,

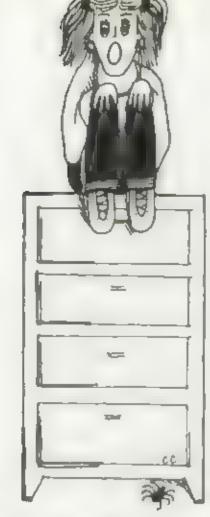

But even though nearly everyone was there were some pleasant things about The question in everyone's mind Sun- the snow. Shovel and snow-blower deal-

ers were ecstatic, crime was way down, (in Chicago, at one point it was down 30 %), new car pools created new friends and people learned to laugh at their trouble and go on with life. "One of the things I'll remember about the blizzard was the night a few of my friends and I were walking on Spring Road and we saw all these couples walking, cross-country skiing, and snowmobiling to get to the Spring road bar," commented Carrie Mahler

But AFS student Ana Marie Miro of Venezula, who had the dubious pleasure of spending her first winter with snow in Elmhurst, had the best outlook of anyone about the snow. "Some people never take the time to look at it, but it's so prettyl it sparkles so much! I love it!"

Well, maybe we didn't love it, but somehow we did survive the Blizzard of

  - a.) Cheryl Tiegs
- b.) Chris Evert
- c.) Linda Ronstadt
- d ) Jane Byrne
- 25. What is the last book he read?

#### A Week To Remember

Another Homecoming, another parade and the Merching Dukes take a rest from their musical con-Intuition to the fest vities

The Week. It was a perfect week Splashes of red and gold brightened the streets and the crisp October days were sunny. When school started Tuesday. (there was no school Monday because of Columbus Day), everyone was in a great mood and the excitement began to build Hand painted signs declaring "Get A Date Before It's Too Late" and "Come See The Dukes Kill The Panthers", decorated the main hall. The Art Staff's posters for the soc-hop and the dance were found in every classroom

Craziness reached its height during the lunch periods when the class competition took place. On Tuesday there was some confusion because of the lack of publicity about the games, but by Wednesday they

were better organized. Craig Neison apologized, saying, "Standing on the lables is a good attention getter, but signs would have been better publicity." Nevertheless, all turned out well. The peanuteating contest and the tug of war were bigsuccesses. Overall in class competition the seniors took first place, with the sophomores second, and the juniors third

Probably the most fun had during Homecoming week was at night working. on the floats. Homework was foresaken for chicken wire, crepe paper, and paper napkins and the students dreamed up ingenious ways of litting the theme, "Chicago - Our Kind of Town", to their floats.

Atthough seniors worked till early morning on their float. Mrs. O'Leary and her bern didn't light the judges fancy, taking 2nd in the class competition.

**Baldom does the occasion arise** to shift peanware down a friend's throat, so when it does. Deneen Simoneth enthusiartically takes advantage of it with Lisa Leyden amused permission

Newspapers in hand, the sophomore team closes in on a helpless victim during the homecoming sochop games

At the Homecoming soc-hop the crowd waits anxiously for the start of class games and the royalty to be announced.

With time running out, seniors work feverishly into the night to put the finishing touches on their Chicago Fire float. Saturday morning there will be many fired workers, but it will all be worth it when the winners are announced

Senior nominees for Homecoming queen pul a determined effort into the race for royalty in each class. The effort payed off and the seniors tri-

#### A Week To Remember

The Pep Rally. Streamers brightened the halls on Friday along with decorated ockers of the football players. Red roses and carnations were sold by HERO in the cafeteria. The halfs buzzed with talk of weekend plans. Eighth period classes were dismissed so that everyone could attend the pep relly. And what a pep rally it was! Contrary to the constant talk about student apathy, the gym was packed. Everyone knew something was different this year - this just wasn't the typical hohum pep raily we were used to The excitement was contagious and soon the whole school was caught up in the spirit

ment", the name given to the soc-hop by the Student Council, featured M&R Rush as the band. Although a few student danced, most just listened to the band or screamed in each other's ears. The floor was cleared around 9 00 and games were played. Everything was just building up to the highlight of the evening — the announcement of the royalty. The gym hushed before each name was an-

nounced Cheers and screams of surprise came from scattered places in the bleachers as each name was announced

"It was enough just being nominated," exclaimed Cheryl Leoni, senior Homecoming queen. "Winning is ... unbelievable." When the excitement of the Royalty being crowned died down, students began to drift off Many went to the floats in a last ditch effort to finish them before the morning parade. Others went home to catch a few hours of sleep before the big day ahead

The Parade. "I feel that the parade went very well. We made some majors changes this year, such as adding a bandstand and having the judges ride in the parade. We were trying to generate more interest by including Sandi Freeman as the grand marchal and by having prominent judges," commented Sharon Hecox, parade chairman. The parade, which marched through downtown Elmhurst, consisted primarily of Pom-pons, floats, and the band. It drew many early risers out to see it

The Game. Packed in the stadium and wrapped in blankets, the excited York lans sat through a scoreless first half against the Panthers of Proviso West Talk of "Gee, wouldn't it be great to win?" and "That'd make Homecoming just perfect " ran through the crowd. The lootball game generates the most excitement during Homecoming and rowdiness pervaded the football fans this day

After the half-time performance of the Marching Dukes, which included and alumni jazz ensemble, the football team was back on the field and the fans were fired up

Something must have clicked, because before anyone could realize it, we were ahead 3-0. Soon the score was 10-0 and the fans went wild. Crys of "Were gonna win! We're really gonna win!" went up from the crowds. Despite a 4th quarter scare in which Proviso intercepted and scored, the football team won their first game in over a year — and it was Homecoming. What a perfect day

(continued dri page 15)

KONGEGIOWN STRONYALITY

# TAKING

"Bus driving may seem like a strange occupation," admitted one driver with a laugh, "and in some ways it is. But overall it's just a job, no different from any other. We like some things about our work and hate others, and I know sometimes I'd like to gult. But mostly it's fun, and bus drivers are some of the nicest people you'd ever want to meet." Another driver simply said, "I'm not sure why, but I really love my job."

The workday of a bus driver is far from easy. "I get my bus rolling at about 6.30 a.m.," said one driver. "Maybe a little earlier if the weather looks bad. But I can't be too early, or there'll be complaints from kids who missed the bus." Another driver added, "Most of the kids are ready for me when I come, but this one girl, now she's another story! Every morning, it's like a game — will she catch

the bus, or won't she?" He laughed, "She sure keeps us quessing!"

When the drivers have a few moments between pick ups, they do several different things to help them relax. "Some drivers get coffee or a bite to eat in the school," explained a driver, "It all de-

' ... Every morning it's like a game — will she catch the bus or won't she?'

pends on your route; different drivers have different times between runs." Another added, "I like to read in the time I'm not driving, or talk to friends who also drive a bus for York."

Because of York's staggered schedule, the buses start bringing students home beginning sixth period, and some drivers

# CARE

remain until 6:15 p.m., when the late, late bus leaves. "The hours are probably the worst part of this job," pointed out one driver. This is a common feeling among drivers when listing bad points of the job. Another is the monotonous nature of the job. "Driving the same route day after day, that's what gets to me," sighed one driver. Another said, "One of my biggest hassies is the weather, when the streets get lcy, driving takes every bit of my concentration."

The biggest headache of all can sometimes be the kids themselves, "Most of the passengers are wonderful, real nice kids," said one lady who is a grandmother and has been driving a bus for about ten years. "But there always seems to be one or two who like to make trouble. Of course," she added with a smile, "it's nothing I can't handle myself!" Different

The only exceptions to obeying the "No Parking and "No Entrance" signs around school are the buses, which have exclusive free run of the front drive for the online day.

# OF

# BUSINESS

drivers deal with problem passengers in different ways. "The way I take care of goof-olfs is to talk to them," said one man. "I just calm them down." One passenger related how her driver deals with very obnoxious passengers. "She's really cooll If kids are causing trouble, she stops the bus and goes right up to them and says, 'One more word out of you and I m turning this bus around and going back to school and then you can walk home! That really makes them settle down, beheve met" If a driver can't control a rider with just talk, the student's bus pass can

'The hours are probably the worst part of the job."

be taken away, he can be thrown off the bus, or the driver can submit a report on the student's behavior to Mr. Fisher, Butthese extreme measures usually are avoided with a little patience on the part of the driver

With the bad hours, monotony, and trouble-making kids that the drivers have to put up with, not to mention a lot of responsibility for the safety of hundreds of

Some people think I'm crazy because I've been driving a bus for so long and I still love it."

kids, the good things about bus driving may seem, at first glance, few and far between. As one driver put it, "A fondness for the kids that I drive is one of the major reasons for staying on the job When they get on and off the bus, they say 'hello' and 'good-bye' and that makes me happy," said one driver. An other added, "When my kids are happy, it

spreads to me and I'm happy." Drivers also take pleasure from just the driving itself, "I love to drive," stated one worman, "and driving around is a nice way for me to spend the day " One driver concluded, "It's a job, and you find things to like about it to make the day go by enjoyably."

Despite the bad days when the bus won't start, or the driver is behind schedule, or there's a bizzard, or the kids are a little too wordy, bus drivers seem to be satisfied with their job. As one old man who has driven a bus in, among other places, Holland, Belguim and East Germany put it, "Most drivers stay on the job for 10 or 20 years, I have stayed more than 30. If you don't like something, you stop, right? You can see, I love my job!"

And no one could argue with that kind of testimony!

Lack of experience is no problem for driver Arthur. Menzel, who drove in Holland, Reiguim, and Fast permany before coming to Anima.

The question "Why do you drive a bus?" is Ire. quently asked of bus drivers. The reasons vary, but to Joy Effer the reason is that she really likes kids.

A sympathetic car is lent by many drivers to the problems of their passengers, proving the genuine londness they feel for "their kids

# CURTAIN

# 

### The Showoff

The time was the early 1920's. The setting was west Philadelphia. The curtain rose and the audience became caught up in the Drama Department's Spring presentation, "The Showoff". Written by George Kelly, this comedy dispelled many ideas of what a comedy "should be like" - a lot of trivia often found in comedies was missing. "The Showoff" was really moreof a character study, doing an excellent job of portraying human personality in it's many facets and moods

The play centered around the Fisher family - Mr. and Mrs. Fisher and their two daughters, Clara and Arny. The elder daughter, Clara, is not quite-so-happily marned to Frank Hyland, while the younger daughter, Amy, is seeing and obnoxious man, Aubrey Piper, quite appropriately known as "the showoff". Because "The Showoff" is a very detailed play. Mr Les Zunkel, director, decided to double cast four of the main roles. This also gave more students a chance to participate in the production. Although "The Showoff" was a little different from the type of plays usually presented, it was still quite warmly received and enjoyed by all of its audi-

While the audience is absorbed in the scene going on an front of the curtain, there's another scene equally important going on backstage. Platforms are moved, walls are raised, and propa are set air with the smooth efficiency of people who know exactly what must be done

# CURTAIN

Intense fear of her husband has caused Mrs. Minimigram to be at an it everyone but he in question aboutes her that he has not her her uscape her meracing hirsted di-

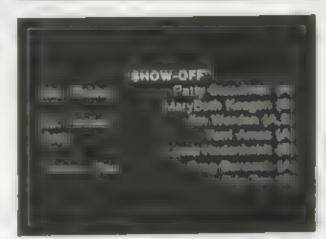

Because her husband has decided to take her to the theater. Mrs. Manningham (Terri Ames) for once feels secure enough to speak to the insolent maid Nancy (Laura Kudenholdt) in a confident manner

It is an eerie frightening image of something which happened many years ago. A handsome debonair young man is in a frenzy growing more and more frus trated as he frantically rips apart a man sion in search of jewes - the jewes of an old woman whom he has just mur dered. With the jewels still undiscovered at daybreak he thally leaves the ran sacked house still fied with an overwheiming obsession to return and find the jewels

This is the image which is presented to a beautiful young woman in the thirter Gaslight, a play set in 1880 London as an explanation to the strange occurences in her house. The drama, presented February 8-10, deals with Bella Manningham, who is convinced that she is going insane and the kindly retired inspector, who proceeds to inform her that she is most definitely not going mad.

Inspector Rough explains that the odd occurences designed to drive her insane are all being done by her husband, who is also the frustrated murderer from so many years back. After marrying Bella for

Gaslight

The faithful housekeeper, Ekzabeth (Lynn West coat), comforts Mrs. Manningham after devious Mr. Manningham is taken away by they police

her money, the devious Mr. Manningham purchased their present home - the mansion containing the jewels. Since he now owns the mansion he no onger has any use for his wife and is trying his hardest to dispose of her by drying her crazy while at the same time searching for the jeweis. His evil plans are eventually thwarted when the Inspector reveals all to Berra, has Mr. Manningam arrested and finds the lewels himself

"Gaslight" is a very complex play containing ail of the intrigues of a good thriller Cast member Anna Kasted comment ed, "At every rehearsal you could see the play improve you found a new meaning to something, no matter how small "

The two casts and stagecrew had only a month to put the show together, but all three performances were polished and well executed

The hours and hours devoted by alinvolved in "Gaslight" were at parent and appreciated by the audiences. Everyone seemed to enjoy the production, aithough attendance at the performances was not overwhelming. As Lynn Westcoat (house) keeper Elizabeth) remarked " don't regret one minute of the time I spent on the play and I was sorry to see it end

The diabolical Mr. Menningham violently at le , is to force in 1 imat . I out o his wie Be , He leas she has been fold of the dreadful murdo he committed years as a that his kow his try in to 1 spice of he by system stickly dry by he o

## **Elect An Elective**

Have you ever been on a prarie burn? Did you ever wonder about African Tribal life? Do you wish you lived in the Stone Age? How much do you know about crime in the Eskimo culture? If your answers were "no " "yes", "yes" and "nothing", perhaps one of the electives courses is

the thing for you

Whether taken in preparation for a career, for knowledge, or just for fun, electives can be a relief from required courses. Two of the most popular electives are Anthropology and Archaeology. "Both are one semester courses, with mostly freshmen in them, though anyone can take them," commented Mr. Hill, Social Studies department head. Both courses can be useful for museum related careers.

Another extremely popular course, according to Mr. Hill, is criminology

This one semester course looks at crime and punishment in various countries. The class also studies new concepts of crime delinquency, punishment and correction

There are many electives available to students with careers in mind-Among them are Data Processing. Advertising, Television Production, and Probability and Statistics. Students interested in data processing or computer knowledge might want to take Data Processing. All department. store employees or employers to be would be helped by the Advertising class. This covers the elements and the creating of layouts and displays Some of the projects are writing an ad campaign for a company, filming a TV commercial and recording a radio commercial. For the star-struck, there is the Television Production course, in which students write, direct and perform programs, and operate cameras and the production console A practical and extremely useful course is Probability and Statistics. According to Mr. Petersen, "There isn't any field really that you don't use probability and statistics in Even teachers use it in making curves and seeing if a test is good."

Three other electives are World Geography, Man's Story: A Survey of World History, and Cultural Geography. In World Geography, students learn to think geographically about world problems and the political and economic geography of nations Man's Story: A Survey of World History deals with the great moments of man through the ages. In Cultural Geography Survey, students gain an understanding of the geography of and why man engages in certain activities to earn a living in the United States

Continued on page 59.

An introduction to all the details that go into a lelevision production is the offering of a course appropriatly called Television Production. Phil Culbert takes a turn at being a cameraman, while other students are the actors.

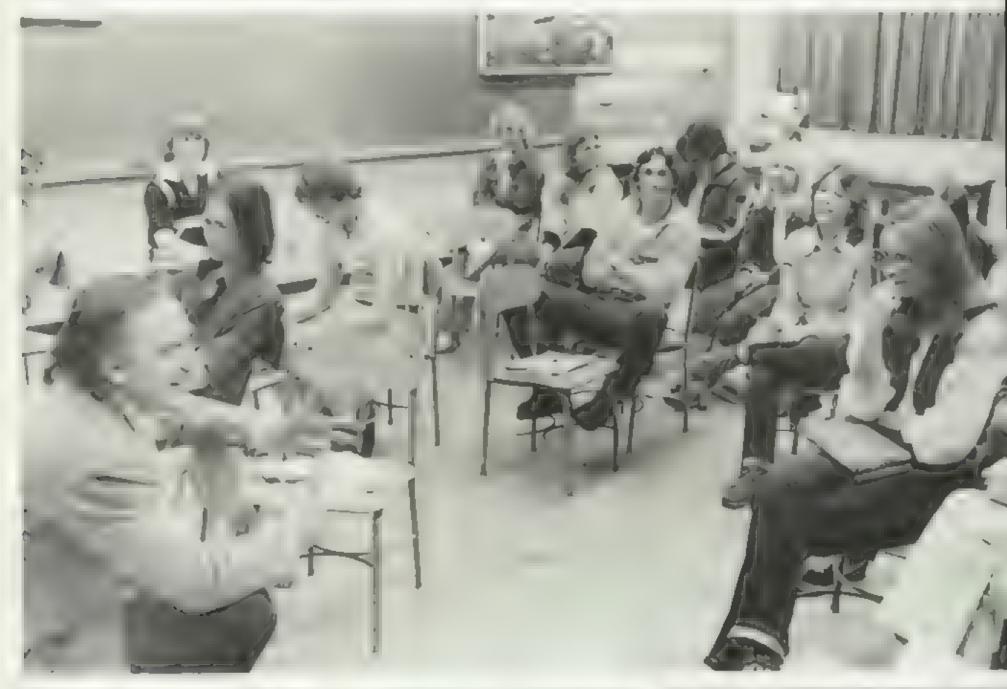

Pinpointing the exact location of countries in World History is easy with the help of an atlas

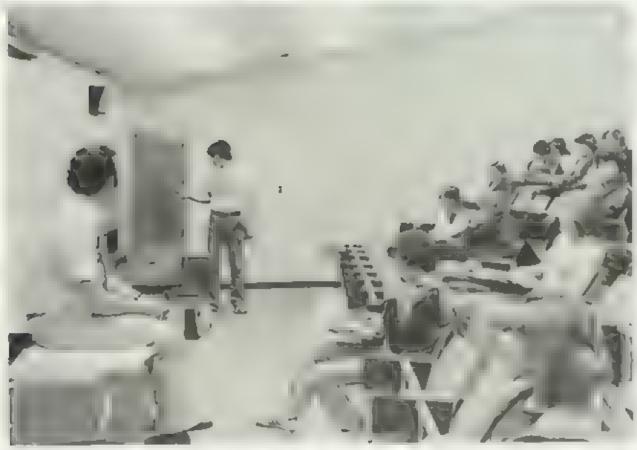

Learning through experience is the idea behind the one period field trips taken by the Fig. 1.1. Studies course. Mr. Oisen explains the ecosystem to his students along the Illinois Prane Path.

### **Elect An Elective**

and around the world

The English department offers the Creative Writing Class, a one semester course open to juniors and seniors. "The students write poetry, short stories, descriptive passages, and papers reacting to situations," stated Mr. Brown, English Department head. Much emphasis is placed on imagery. "We try to get the students to write in specific detail rather than generally," he explained. Modern American Poetry or Modern World Literature are two possibilities for students who don't want to take regular English senior year. The students examine poetry as a channel for American thoughts of today. and are encouraged to develop preferences through writing and researching poetry. The reading of bestsellers and books from all over the world is done in Modern World Literature

Students who are Interested in newspaper-writing can take Journalism in place of English sophomore year. The students read the same books as regular English classes, but much emphasis is placed on interviews, writing, and vocabulary

Two electives that involve a lot of Individual work are Sociology and Contemporary Problems. In Comtemporary Problems students study current issues in our society with their own research and information from a textbook. An emphasis is placed on thinking and speaking logically and effectively

A semester of Economics can be taken to fulfill half of the Senior Social Studies requirement. "We can't take field trips because of our budget, so instead we bring speakers and candidates to the school to speak," remarked Mr. Hill

For those with a flair for languages, Foreign Languages including French, German, Italian, Latin, Spanish, and English as a second language can be taken as a fourth or fifth subject

Two courses along the same lines are Humanities and The Movies, Humanities helps students to enjoy and understand the fine arts to a fuller degree. The Movies helps students to enjoy, understand and talk about films that they see here at York and at theatres. Movies are viewed daily in this course

The Environmental Studies class studies different problems in the environment Many field trips are taken and students must watch an hour of lelevision on an environmental issue per semester. In the spring, the students have a prairie burn They burn trees on the prairie path so that there is room for the plants to grow. The students learn by actually doing projects rather than listening to lectures.

Electives allow students to explore interesting courses outside the realm of the basic required classes and they give students an opportunity to make some choices in their education. With all of the elective courses offered, what are you waiting for? Elect an electivel

instead of a final exam, the students in Advertising class must do an ad or commercial from each of the three subjects studied during the semester course radio, television, and magazines

Creative Writing is taken by students who desire a more creative approach to writing than offered by regular English classes. Mrs. Couser's class involves. much practice with descriptive informal writing

Sophomores line up at the board and await a chance to show their skills. Even a routine English. class come alive when students are all-wed to acfively participate

College Prep Math gives students a chance to review the previous years of math in order to pre-pere them for college. Sharon Allison and Mike Frega draw a circuit a besic mathematical concept.

Unified studies is a combination of junior Englishand history. With another project underway. Cher. Smith prepares early for her quarter project with a unique "ziggy" illustrations of the progression of the

## The Bare Essentials

Although a "back to basics" movement is sweeping the country, teachers at York are using novel and creative approaches to supplement their curriculum

Students are beginning to look forward to classes like English, math, Consumer Ed, and history because extra activities are being used in addition to textbook work. Mr. Brown, head of the English Department, supports such activities wholeheartedly. "The use of projects allows the students to be creative and should encourage students to take the course." Such projects include outside readings, field trips, drama presentations, and debates. During sophomore year, one semester of speech is taken in place of English. Laura Martinek commented on her

speech class, "Speech teaches me how to face other people. The topics are interesting and it's fun to try diffrent types of speeches,"

One of the most difficult classes for many students is math. Unfortunately two years of math are needed to graduate. These years are spent struggling with theorems, equations, and angles. Without a head for numbers, these can be two very long years. But York math teachers feel it is time well spent

Mr. Nelson, head of the Math Department, believes that math is one of the necessities in life. "Everything, whether it be an academic major, college career, or a profession requires math."

(Continued on page 69)

One of the sims of Honors English is to enable the student to interpret literary works. In Honora English 12, Jeff Grothendick, Anna Kasten, and Jim Libo vicz read poems aloud, adding their interpretations to those of the class.

### The Bare Essentials

The material learned in the first two years of math is applied in Consumer Ed. which is taken Junior or Senior year. The class is designed to show students how to manage money, balance a checkbook, take out loans, and other money-related skills. "It is essential that students are aware of this information to be economically literate in the business world," stated Mr. Randa

in the Social Studies Department, headed by Mr. Hill, projects are used to add interest and enrich historical background. "All the teachers find opportunities to add interesting aspects to their class," he said. One of the major branches of the department is American History, a course which the state requires all high school students to pass. Mr. Wilkerson includes films book reports, class discussions, and simulations of all the major wars. "The old fashioned way of teaching by the book alone is pretty much on the way out," he commented

There is no way to get around required classes if you plan on graduating. But with the help of York's creative faculty, the courses are far more interesting than they once were

Listening Intentity, junior Maurean Garataio Iollows a lecture in her Law in American Society class Open to juniors and seniors, one semester of gov. ernment is required for graduation

A game show format is one feaching technique used in Mr. Torney's history class. In one game, students such as larry Pat Revane compete against each other by trying to inswer trivia questions concerning events in history

Psychology is the study of the mind and its functions. In Mrs. Miner's Psychology class, students break-up into groups to discuss such topics as education, relationships and shyness.

If a polit were to be taken of students interest in Consumer Education, the results would be low, but not in Mr. Gitmer's Consumer Ed. Class. Mr. Gitmer adds "mood music" to make the class more appearing to the students, it's also an effective way to keep the class awake.

Backetball is one of the most popular gym r asses among the boys. With a look of anticipation on his lace, sophomore Brian Breisemester attempts a very professional looking layup

The administrators were elated with the hiring of Mr. Bassett. Not only was he a new electronics. teacher, but the first official one in two years. In past years, other industrial technology teachers had to double up to teach electronics classes, giving some feachers seven classes.

Without her red cape Superwings is deten leiess to the earns how to prect herself harehar ded in a cored karate liaks

Driver's Ed. serves as the six week replacement for sophomere health. The course is the high girt. of the second year gymic asses because drive is liscences are I naily within the student's grasp

# No Dozers In These Classes

The room is brightly lit with disco music playing loudly from an old record player Thirty or so kids are lined up and boogying down with the latest Saturday Night Fever line dance. This familiar scene is taking place in York's own dance studio during an eighth period gym class. It is one of the many classes in which the students themselves participate. If you walk into a class such as the disco dance class, you will find students awake and contributing instead of dozing off in the back row or passing notes across the room while the teacher lectures on and on. By participating, students often better understand and enjoy the class; their direct involvement helps to make the ideas being taught us "come alive."

Besides the disco dance class, the P.E. department offers more than twenty different classes. These include badminton.

Learning how a car is put together, what makes it tick, and how to repair it are all intriguing subjects for auto class students. The class can help to prepare a person for a career in automotives or just teach him how to maintain his own car

which Linda Cottone finds exciting, "I like the action", gymnastics, which John Fabris feels is ridiculous, "All we do is lift weights and develop our bodies so we can become macho men", and ski conditioning, which is well-liked because of the half-day ski trip to Villa Olivia offered to members of the class

Freshman and sophomore gym classes went co-ed this year for the first time in accordance with Title Nine. Sophomore Gregg Young doesn't favor this change He comments, "The guys don't get to do as much now as when the girls weren't there."

Home Economics is another department in which student involvement is an integral part of the learning process. Courses dealing with foods and clothing are only part of this department, Vivian Campbell finds her Interior Design class "Intriguing," The students make floor plans, design rooms and "all kinds of stuff "

The Child Life and Literature class spends one semester in an English classroom and one in a Home Ec. classroom They learn about the behavior and development of children as well as reading widely in the field of children's literature

The Industrial Technology department offers courses dealing with woods, drafting, electronics, auto mechanics, metals, and graphic arts. Perry Morris commented on his graphics course, "It can take you as far as you want to go."

foorthuid on page 66

Seeing is believing when trying to visualize exactly what the teacher expects. Mrs. Dick demonstrates the stitches that will be included on the next test in her sewing class

Students in the Child Development class gain valuable experience by working directly with young children. The children's participation in the class was rewarded by the presentation of diplomas.

### No Dozers In These Classes

Students taking courses offered by the Art department also have the opportunity to work with woods and metals. The jewelry classes work with different metals to create pins, pendants, and rings. Materials used in 3-D classes include wood, plaster, and clay. Other areas of art covered by this department include ceramics, sculpture, drawing, printmaking, painting, and commercial art

Unlike what many people seem to think, the Band, Orchestra, and choral groups are not the full extent of the music department. Four other courses are available to let students with different levels of musical ability participate. Music Unlimited exposes the student with little musical experience to many different styles of music. Two courses are offered which give instruction in quitar - Guitar I for beginners and Guitar II for the more advanced player. Students who are already able to read music and have experience on an instrument can take the more advanced Harmony and Theory course, going indepth into many facets of music

American History Seminar is a class which is essentially taught by the students themselves. Besides simply history, stu-

dents learn research skills, basic study skills, how to take notes simply and efficiently, and how to visualize ideas. The students pick topics every nine weeks and gives a seminar on their chosen topic Karen Schaub commented about the class, "It's good because we get the opportunity to express our opinions, and with all the students fecturing we don't get bored of one lecture."

Labs are the major element in the Science department's goal for student participation. In IPS, the student east is an introductory lab in which the student evaluates an unknown substance by testing properties such as density, volume, and mass. Biology is an investigation into life and physical sciences. The course includes the dissection of a variety of plants and animals. Students also learn and apply microscope technique. Chemistry and Physics emphasize the application of math concepts and theories

All of these courses enable the student to become involved and participate. In many of the classes, the student can get up and express his own ideas or try things out for himself, whether it's in a lab, a seminar, a painting, or a song

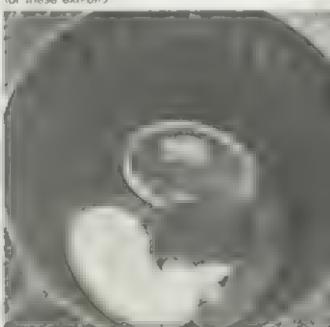

One of the newer additions to the music department, guitar class instructs students in the fundamentals of playing, theory, and composition. Taught by Mr. Wells, the course enables students to learn guitar in school for credit instead of having to take lessons outside of school

The Art Department encourages talent by organizing several major projects including its art show twice a year, painting of murals for various class rooms, and setting up display cases. The work of outstanding students such as Julie Nuter are chosen for these exhibits

A presentation was given to art students by Bob Carlson, a professional potter, on the Racu method. The glazed plates are heated to 1800 degrees tarenheit and placed in sawdust to create the blackening of the design.

SCRENCE LAS ASSISTANTS Front Row T. Rezhuse ich ieder J. O'Rourke, R. Park, S. Eckert, C. Hazekamp, K. O'Rourke, Beck Rows R. Board, D. Hock, M. Liey, C. Webber, J. Keegan, T. Micoli B. Michaella, M. Clure

A typical day in American History Seminar consists: of a presentation delivered by a student followed by class discussion. Using visuals and quotes junior Rene Stratton reports on the Southern defense of

A gueh here, some smoothing out there, and Hyun joo YI has almost finished her clay sculpture. Forming a human figure is considered one of the most difficult concepts taught in the 3-D art class

In Mr. Forte's Biology class, one lab is set aside primarily for building molecules. Although this is a good way to learn about molecular structure, most students find putting the little balls on the springs very frustrating

A monster-like imaginary animal was created by Steve Henry as an independent project for art The most difficult part of the project was transporting the life size body of chicken wire and news. paper to Steve's house

One of the work progr

# Working II Out For Themselves

How many kids do you know who get stuck with a 1st thru 6th schedule go home after 6th and then just by around the house watching T.V., raiding the refrigerator and sleeping? Not everyone spends their afternoons, ke this there is a percentage of students who are members of a work program and spend their afternoons more productively, earning money of credit.

The work study programs are designed for students who have an interest around which they might want to build a career. These programs offer training in an occupation on a part time basis while the student also attends school fulf-ling requirements for graduation. The purpose of these programs is to make the transition from high school to a full-time job easier.

Cosmetology, HERO, and ICE (VICA) are three work-study programs that are supervised by a teacher coordinator who counsels the student and evaluates his progress in the program. Each program has a different occupational area with a major emphasis on developing skills related to that particular program.

Cosmetology supervised by Mrs. Adams, is offered to juniors and seniors from different schools in our district. The program is a two year procedure worth four credits a year — eight credits for the whole program. Seniors who join Cosmetology can finish their second year over the summer.

The beauty instruction class is held at Tricoci's School of Beauty Culture from 1 P.M. to 5 P.M. on Tuesdays thru Fridays and on Saturdays from 8.30 A.M. to about 4 P.M. The state requires that each girl in the program complete 1.500 hours over the two year period this includes a requirement of a few hundred hours of class work.

Each git is dispatched to different areas of the clinic to "work on" people

They do everything that's done in a beauty shop — - wash and set hair and give permanents, fints, and out-.

Since Cosmetology is a crass, the students are graded. These grades involve pratical work which covers their performance, and theory which includes written tests once a week.

Upon completion of this program the students can apply for their beauty license. Yet some of the girls want more expenience. Liz. Hida go comments. "After high school ( plan to attend a corege for cosmetology."

HERO is both a class and a club. Juniors and seniors enrolled in a home occourse related to HERO's work program are automatically members of the HERO club. Membership in this work-study program, full lis, the consumer Ed, requirenie it.

The class covers consumer demands such as leases, income tax returns and tips on how to buy a used car. Sen or Peggy Abbott considers HERO as a reprocement for a management class.

A home-ec class plus required classes occupies time in the morning while a home-ec related job occupies the atternoon. Some of the places where HERO members work are restaurants, clothing stores, and as cashiers.

HERO members receive two credits for their job and two credits for the HERO class. They receive one grade from the class and one grade from their employer. The employer grades them on punctuality, amount of work completed, and how well the student forlows directions.

After high school quite a few of the HERO members go to college, since some students are eligible for scholarships. Yet some divergible into the business world by either continuing their jobs in the hope of receiving a promotion or by working in specific home-ec areas like buying and selling.

The Industrial Cooperative Education program (I C F) is for seniors who are interested in pursuing careers in auto, electronics, woodwork, architectural drawing, and graphics. When the sinior signs up for I C E, he automatically becomes a member of the V I C A, club

Four credits are earned in the work-study program — two for the class and two for the job. The jobs range from weld-ins and wood workers to auto mechanics. Employers grade the boys in appearance, attendance, and how well they work. The president of VICA, Call Swanson, also grades each member of the club.

Being a member of LCE work-study program aids the student in linding a job and also gives him a sample of unions and apprenticeship.

Believe it or not there are a number of students who belong to work-study programs instead of laying around after school watching "The Three Stooges" and "the Brady Bunch" Cosmetology HERO, ICE and the other work programs benefit the student both during high school and afterwards, whether the goal is to go to colinge or to work

#### **Preparing For The Big Step**

Each year, approximately 68% of York's graduating seniors go on to college. To help prepare these students, many college preparatory and advanced placement courses are offered. The preparatory courses enable students to obtain additional help in many of the essential skills necessary in college. In the advanced placement courses, it is possible to receive college credit depending on how well the student does on the placement test

Two popular courses which greatly aid the college bound student are College Reading Skills and College Writing Skills College Reading Skills gives instruction in speed reading, vocabulary development, study skills, and critical reading. It also stresses skills in developmental reading College Writing Skills, which deals with expository writing, is similar to a college freshman course in composition or rhetoric. Both courses make the transition from high school to college a lot easier

Mr. Brown, head of the English department, stated, "Only the year courses are required, but the department highly recommends such semester courses as College Reading Skills and College Writing Skills for those anticipating college and Business English, Debate, Creative Writing, and Modern American Poetry for all students with those particular interests or needs."

Many colleges are reinstating foreign tanguage as a pre-requisite to entering their school. With three or four years of experience, York students can usually test out of this foreign language requirement As Mr. Berger, head of the Foreign Language department, explained, "In a world that is becoming increasingly smaller, students take a foreign language to better understand other people and their cultures. The fringe benefits from this study could be in the area of job opportunities and opting out of a foreign language requirement in college."

With the countless papers required in college, the ability to type is invaluable Mom's not available to type that paper at 2 00 A.M. like she used to be. A course Inshorthand is also useful. Because accurate notes are important, shorthand teaches the student how to gather clear, concise notes quickly. Advanced Accounting, also offered by the Business Department, is invaluable to the student planning on a business administration major in college

recontinued on page 73.

The main goals of a College Reading Skills class are to increase the students vocabulary, reading speed, and comprehension. As part of vocabulary, students learn the meanings of many foreign phrases frequently used in English

"Knowing a second language offers you a more exciting career." Senor Syobods emphasizes the importance and advantages of a second language to his freshman Spanish class

As part of a special unexpected dramatization, Warner Brown delivered the sermon from Murder in the Cathedral to a Senior Honors English class. Corlege bound students need not be surprised if their professors use similar techniques in addressing their students

To elmulate a typical business situation, Advanced Shorthand students receive a tape-recorded dictation. The use of recordings also provides a welcome break from the regular Shorthand text-

Advanced placement chemistry offers students the benefit of tabs comparable to those of college. freshman. Through this experience, Carl Palmer may earn college cerdit or honor's placement in college

Although College Writing Skills involves about four times as much writing as a regular English class there is less emphasis on grades. Mr Cloud focuses on the students awareness of contemporary issues and their preparedness for college

One of the most important objectives in a for-eign language class is to "think" in the language you are studying. Junior Sue Shea attempts to put her feelings into words and her words into French

Although it is a deed language, four years of Latin is offered at York. The course attracts many students, particularily those with ambitions of being doctors or lawyers

#### **Preparing For The Big Step**

The Math Department offers three courses which are particularly good for students who want a well-rounded background in math. Elementary College Preparatory is for college bound seniors who do not plan on majoring in either math or science. The idea of the course is to acquaint the student with the mathematical notations, terms, and concepts used in their required math courses — the necessary basics. Probability and Statistics deals with the fundamentals of probability from a modern point of view. A College Algebra course is also offered

A variety of courses are available for the student who wants to do college-level work with the possibility of receiving advanced placement in college and/or college credit.

In most cases, students with four years of high school foreign language fulfill college entrance and graduation requirements. Accelerated courses are offered in French, Spanish, and German, preparing students for the A.P. exam.

Calculus, taught on the college level, will meet the needs of the student who is following the advanced placement program in math. An incentive to students tackling this course is that up to six semester hours of undergraduate college credit can be obtained through high performance on the AP exam

In Psychology Honors Seminar, students use an introductory text. Emphasis is placed on oral reporting, group discussions, independent study, and experimentation. In the past, students who have taken this course have had good success in testing-out of freshman college courses

Two rigorous A.P. courses are also offered by the Science Department, A P Chemistry deals with essentially the same material that is customarily covered in a freshman college course. In A.P. Biology, college textbooks and lab materials are used. Certain colleges and universities grant college credit and/or advanced placement to those Chemistry or Biology

students who pass a qualifying exam. Chris Stuart, now a freshman in college, took A.P. Biology his Senior year, He commented, "A.P Biology is a lot harder than most people think, but if you stick it out you learn more about the subject at high school than at college."

Seniors Honors English also has a reputation for being difficult. Mrs. McKinney teaches half the year as a freshman college class to prepare the students for the A.P. test in the spring.

Taking college preparatory and advanced placement courses has many benefits for the college bound students, including re-enforcing basic skills, preparing them for college-level work, getting them placed in honors classes, and giving them college credit for scoring high on the A.P. test. In some cases a student who has taken several A.P. courses can receive college credit for all of them and enter college as a sophomore

Although calculus is one of the most difficult courses offered, students can shit have a good time. in class. They are reprimanded in a curious way by

their teacher, Mr. Benson.

Students in AP Biology deal primarily with the examination of animals. Dave Ebeling uses a dissecting microscope to examine the anatomy of a leach.

#### A Chance To Learn

"Everyone has the right to an education, no matter what their capabilities are to learn." This is the whole philosophy of the Special Education Program, which consists of several divisions that deal with physical, emotional, or intellectual problems. There are approximately 150 students enrolled in this program, plus an extensive staff that includes a sociaworker and a teacher for special math and English classes. Department Chaltperson Len Bewersdorf said, "Someone enrolled in a Special Ed class could have any of a lot of different types of problems, ranging from an Iron lung to a chronic class-cutting problem. The purpose of the program is to help the kids stand on their own feet so they can learn responsibility for themselves, and so that they-can return to regular classes, if possible."

The largest branch of Special Ed is the Individual Achievement Program (IAP). Mr. Bewersdorf explained, "This program is for the student who is, for one reason or another 'turned-off' to school. He may have the intelligence, but he refuses to take the responsibility to schieve. The IAP focuses on the causes and cures for

this kind of attitude and offers an opportunity for a more structured day."

Those who have a normal IQ, but whose physical disabilities prevent them from participating in regular classes can be enrolled in the Learning Disabilities Program (LD). "An extreme illustration of this might be a person who sees the letters backwards when he reads. Most disabilities are much more subtle — there is really no clear-cut definition for learning disabilities — but whatever the degree of disability, the program gives the students the added help they need to adequately read, write and compute."

Another branch of Special Ed, Educable Handicapped (EH) is designed for the person who has an intelligence level very much below the average high school student. The program is tailored to the Individual, with a large emphasis on pre-vocational education. EH students meet for classes in the basics of reading and math, as well as gym and Home Ec classes

The central feature of the final program, the Alternative Learning Program (ALP), is a group counseling class which meets one period a day. ALP has students who Creations which come out of the Home Ec department take on some very strange forms. This particular dish is known as the "adible mudple"

primarily have emotional adjustment problems and who may be enrolled in regular as well as Special Ed classes. The counseling class enables the student to look at himself and his behavior to help him get along in everday classes.

When every possible measure has been taken to help a student and he still is not able to adjust, the school makes arrangements to send him to a more structured institute. Special Education pays for tuition and transportation to and from the school, and keeps tabs on the student's progress while he is there

Students in Special Education classes receive letter grades or a satisfactory/unsatisfactory, the same as other students. The only difference is that these grades do not count towards honor roll standing

The Special Education Program gives students whose problems were formerly ignored a chance to get an education that will help them when they graduate from high school. In the course of learning the basics, they also acquire self-respect and confidence in themselves that is invauable in later life

Long columns of numbers are computed by Bob Lewis as he learns the fine points of banking. A solid background in business math is one of the things that is stressed in the Special Ed Program

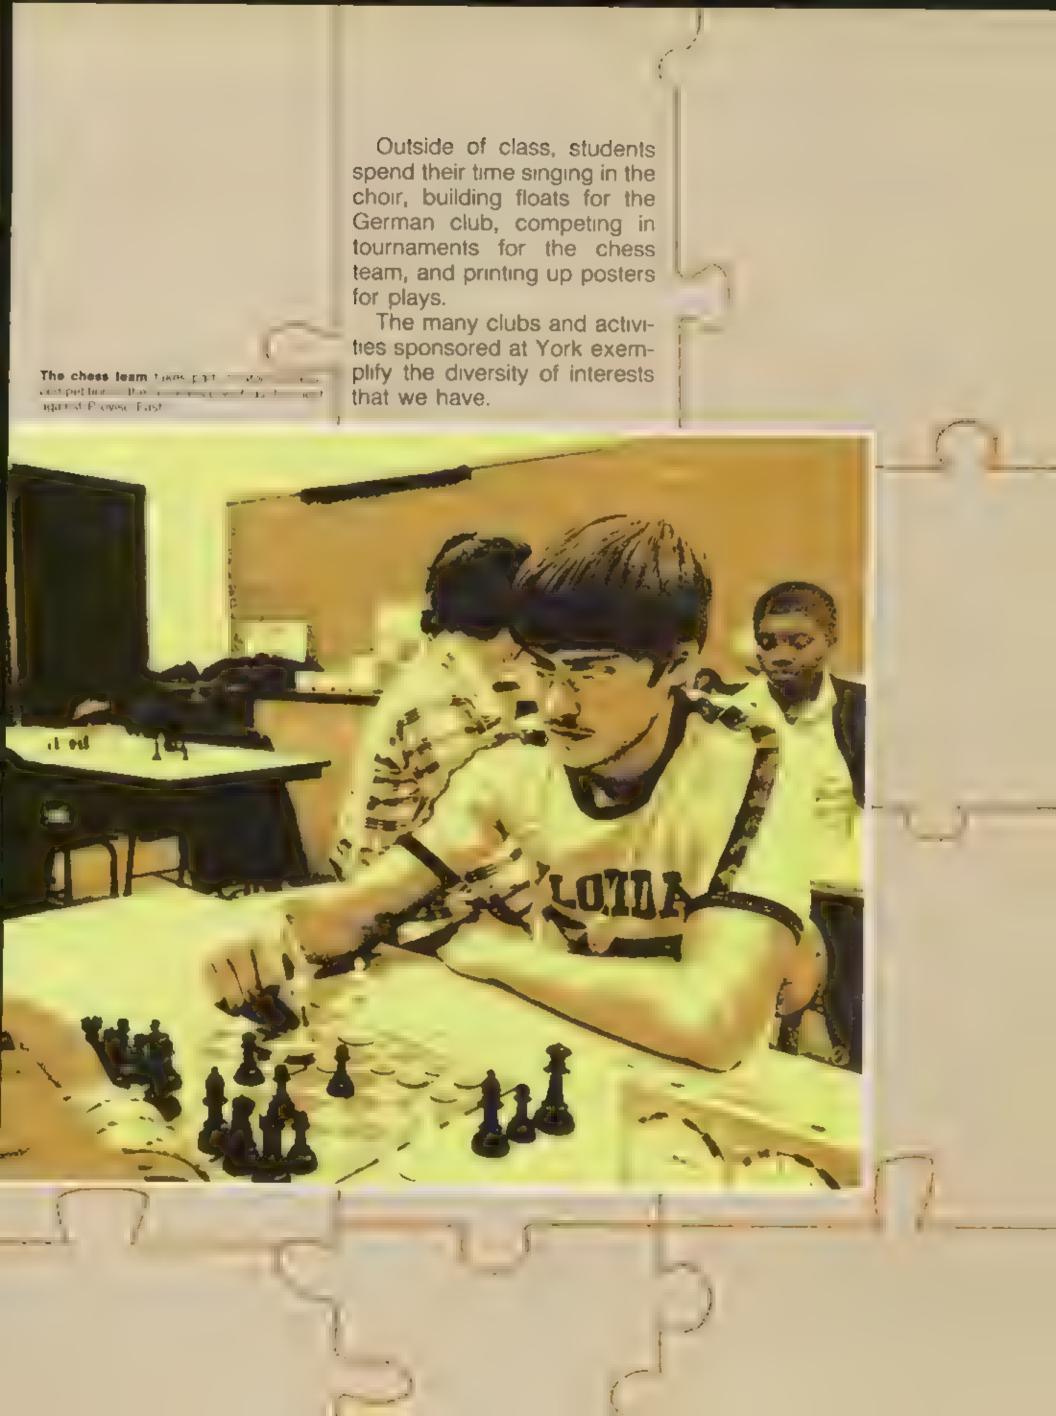

A small class situation the this Special Ed math class enables Mrs. Gwendolyn Tveter to work more closely with her students

A secluded work area offers Ed Shepit and Ron Thermos a chance for quiet study in one of the Special Ed classrooms

#### On A High Note

The group is still, anticipating the first cue from the baton that is held delicately between the director's fingertips. As the baton lifts, bows are placed, breaths are inhaled, and throats are tightened. Musical sounds are ready to begin

These sweet sounds come from members in the band, choir, and orchestra-Students participating in the music program are given the opportunity to develop their own attitudes and approaches to music. "I think I've gained more of an appreciation for various kinds of music than that of the average person at school," said Nancy Leemis, an oboe player

Mr. Piondke, the orchestra director and new head of the music department, believes in the unique experience students receive when learning the chailenging music set before them, "Playing music is an accomplishment that cannot be duplicated anywhere else," he commented

Hearing the delightful sounds of the strings as a whole convinces one of the dedication and seriousness each individual has, Mr. Plondke tries to instill this seriousness as soon as one enters into the freshman Cadet Orchestra. A main goal is to teach the new members how to be sensitive to the music they are playing Their music classes begin in the summer before freshman year. These students are drilled with the basics of scales and etudes before stepping up to the high caliber music of the Concert Orchestra

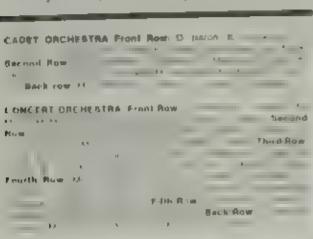

The Concert Orchestra is comprised mostly of sophomores, juniors, and sensecond semester after having the opportunity of trying out for the higher position When wind and brass players are added, the Symphonic Orchestra is formed. The music repetoire of this group is the same as the repetoire of a famous symphony orchestra's. At their holidays concert, the orchestra played such pieces as "Fingai's Cave" by Mendelssohn, depicting the eerie and excited feelings Fingal had going through an unexplored cave, and "Morning Music" by Lawrence Widdoes, a modern piece with many clashing sounds Jane Bagge, first chair violist in the Concert Orchestra, performed a solo, "Concerto in B Minor" by Handel, with the orchestra accompanying. Jane found quite a difference when playing with orchestration. "The orchestra fills out all the rests I have. The solo makes more sense when it is completed," she explained

iors. There are some freshman who enter

The quality of the Concert Orchestra is known in the circles of music education. One of the biggest honors the orchestra receives is being invited to a university to perform. In February the group went on a weekend trip to the University of Illinois where they played in the acoustically perfect Krannert Hall. The Chamber Orchestra, composed of the higher positioned players in the Concert Orchestra, went on a four day trip to Minnesota in March. staying at the homes of high school students in the area

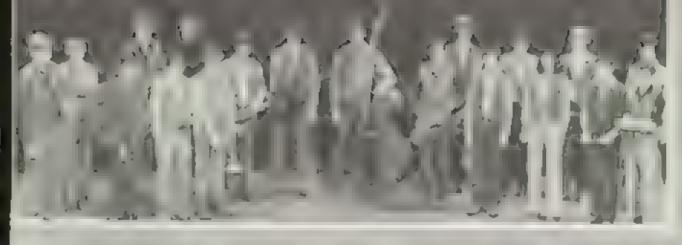

The orchestra also benefits the drama department each year by providing the necessary element for the annual musical It was especially vital in the fall production, "The Sound of Music". The whole group is divided into PROrch A and PROrch B, with PROrch standing for public relations orchestra. For a two weekend. performance, each orchestra rehearses one week with the cast and then plays in the orchestra pit at following performances. This different function of the orchestra is considered one of the necessary requirements of being a member and no extra credit is received

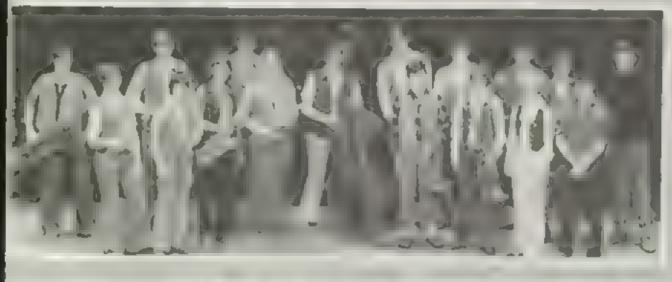

, continued on page 61.

The Pit Orchestre, now called the PROrch. changed its name when it became a requirement for the Concert Orchestra members. Mr. Moss conducts a reheavals preparing the orchestra for its performance as part of the fall musican-

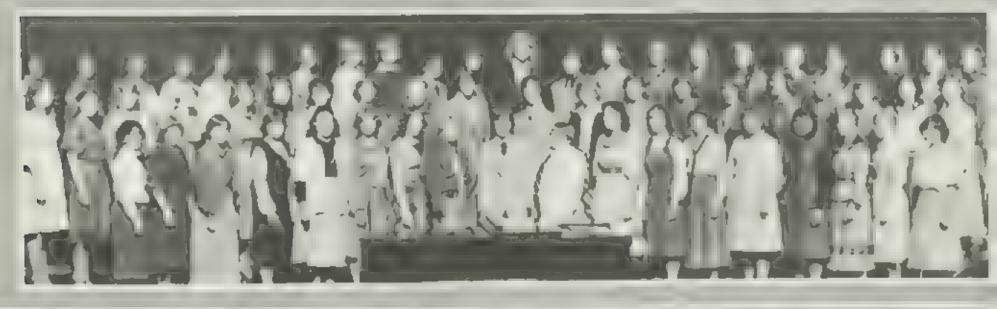

Cadet Orchestra focuses on musical technique and theory as well as on concert pieces. Mr. Plondke directs a daily practice as his students strive for the excellent calibiar of the Concert Orchest a

individuals must work diligently if the band as a whole is to be successful. These Cadel Band members are striving to enter the Varsity or Concert Range.

#### On A High Note

re-partment-

Recognized just as much as the two previous groups is the band. Whether it be marching on crisp fall Saturdays during a football game, pepping up the spirit of fans at basketball games, or sharing some classic pieces at annual concerts in the auditorium, the dedication of the band department is strong

This branch of the music department has kept strong despite the changes of band directors in the last three years. Mr. Moss' third year at the school has given him the position of head director of the bands, and Mr. David Wells was chosen. fresh from the University of Illinois to take Mr. Moss' last job as assistant band director. He shares direction of the Cadel. Band, which is a freshman band, is solely in charge of the two jazz bands, and teaches guitar classes and Harmony and Theory, a class for those showing exceptional talent in music. Mr. Moss heads the Varsity Band and the Concert Band, Concert Band tryouts are held in the fall and the people who do not make it are placed in the Varsity Band

During football season, the instrumentalists march out to the football field during their band period and practice a half time show for an upcoming game. When the Saturday game comes, the Marching Dukes file out to the field dressed in hats, spats, and overlays, ready to put on the half-time show featuring popular tunes like Carly Simon's "Nobody Does It Better", the Bee Gee's "Night Fever", and a baton twirler feature, "Saber Dance"

Pepping up the crowds and cheering the team does not stop after football season. As soon as basketball season starts,

one can view the band up in the south balcony of the gymnasium and listen to music such as "Light My Fire", "Theme From 'Rocky", and "Saturday in the Park" as well as the school song and I ght song. The Concert and Varsity Bands are combined and then split into the green band and the white band, which are two separate bands alternating the performances at home games. These smaller pep bands are directed by student directors who try out for their position. Student directors are juniors George Sainer, Diane Spradiin, and Laurie Waters, and seniors Melissa Roy and Brian Swan.

Being involved in the music depart ment for four years not only brings students logether live days of the week, but also creates many bonds of friendship. Said Carol Laine, first chair clarinetist "Besides having fun performing, it is also a chance to have a good time with my friends " Last spring vacation, the band and orchestra were able to have memorable times with their friends when they went on a tour of southern Caufornia They traveled from San Diego to Los Angelos, visiting such places as the San Diego Zoo, Sea World, Universal Studios and Disneyland, "It's really different to be with friends so far from home " remarked cellist Rhonda Dalias. The groups visited various high schools in California and performed concerts for them. To show their appreciation, families of the California bands and orchestras acted as hosts and provided the traveling musicians with places to sleep

After practicing eight hours a day for three days turing registration, the marching band was able to all a late the house toofball crowd with highly powered perfore.

#### On A High Note

Among extra highlights of the year are the selling of Christmas greens and the money raising spaghetti day. On Christmas greens, each student gets 25% of his sellings. "It helps to pay for our trips, like to California, so we can continue to take trips," said Diane Spradlin, a French. horn player in Concert Band. The spaghetti day is held on a Saturday each spring in the caletena. The bare tables are covered with red and white checked tableclothes and topped with a candle Music is provided by the various orchestras.

In order for the players to always remember what their high school band sounded like, a record is made of each Concert Band concert, which are held at Christmas time, in mid-winter, and in the spring. Most selections performed are included on the recordings. The Cadet and Varsity Bands have their Holiday Concert. recorded and the jazz band records their Spring Concert

The Concert Choir has some extrasduring the year, including recordings and a citrus fruit drive. Like the Concert Band, the Concert Choir records each of their concerts. The citrus fruit drive has the singers selling grapefruits and oranges by twenty and forty pound boxes. Money raised goes toward summer vocal music scholarships at the University of Illinois and Western Illinois University

Performing, recording, and selling are all part of being involved in the music department. Whether it be in the school auditorium, church sanctuar es, hoter lobbies, or across the United States, the young musicians carry their taient to the many who come to enjoy beauty to the

At the annual Holiday Concert, trst soprano Jean-Schutz contributes to the performance of traditional. Christmas songs - some lighthearled some solemn, and even some sung in Latin.

With standing foom only, the auditorium was pricing for the December holiday concert. The boys of the Intermediate Mixed Choir sang their part in a special Christmas rendition

"Six geese a-laying," the traditional gift for the sixth day of Christmas, would cost a fortune today. explains apphomore Tony Champagne. This was a part of the Concert Choir's unique rend tion of "The Twelve Days of Christmas," where different memprices

Much of the Concert Band's music car's for both trumpets and coronels, two instruments similar in appearance but different in sound. Senior John Cordoba can attest to that, as he and the other players in the section must master the subtle differ ences between playing the two, and be able to switch readily from one instrument to the other

The strict attention that the boy's section of the concert choir gives to Mr. Stone is an indication of their rear respect for the music

Bringing music into the hearts of students who Mess crashes" a College Writing Skills class

Every portion of the Concert Band, no matter how small, is none the less important. The basic clarinet section, consisting of three people, helps to supply the vital underlying elements of the missic

The chair director, Mr. Robert Stone, works to maintain proper tempo and dynamics. Thus insuring that the annual Holiday record of the concert will be of high quality.

Charges of not being worthwhile to the school and of not involving the student body, but of being an exclusive social organization have been made to the student council in the last few years. Answering the call for change, the council instituted, with the help of their new advisor,

#### The New Approach

What do Thursdays in the auditorium, the Homecoming events, and a proposal to renumber classrooms all have in common? Each was a part of the variety of Student Council's activities, and each one marked a change from the past. Among such changes, Student Council has a new advisor, a new meeting place, and a new approach

Under Mr. Belmonte's system, the whole council now meets only on Thursday's, rather than every day, and most of the work is done in committees which meet another day of the week. Mr. Belmonte and his two assistant supervisors, Mrs. Haizman and Mrs. McCarthy, feel that dividing the work helps council to be more efficient.

One of the highlights of the year was Homecoming week. According to Rich

McLaughlin, "It was the best Homecoming we've seen in a long time." Mark Carlson felt that the break from tradition when the Senior float passed up the rest of the parade was one of its most outstanding successes. Work on Homecoming began in the summer, and for the first two months of school there was no time for individual committee projects. The effort involved everyone on student council and many others, including Cindy Hilliard who designed the skyline mural for the dance. Afterwards, on a scale of 1-10, Mr. Belmonte rated Homecoming a conservative 9.5.

Although student council may receive a lot of notoriety for big projects and social events, Mr. Belmonte feels that it is more important to serve for the benefit of others. The council sponsored the Thanks-

giving food drive for the needy, went Christmas caroling at a nursing home, and raised money for the Salvation Army Money made by the Faculty-Intramural All-Star basketball game is donated to either the Kurt Atlas Leukemia Fund or the DuPage County Mental Health Association's suicide hotline, in memory of last year's Student Council president, Skip Skarzynski. The annual blood drive, in cooperation with the Chicago Regional Blood Association, can receive enough student participation to provide blood, If needed to the entire student body and their families Kest Jugge 89

A good way to bring out ideas is through group discussion. The 80 members of Student Counc contribute thoughts during a routine meeting.

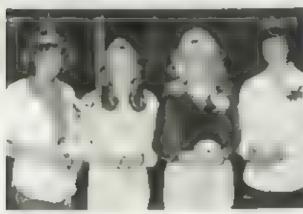

Before donors can give blood, several pieca, horizone are taken incoding a check. If there is no blood pressure and sampling. The bin 1

#### The New Approach

President Brian Kinsella said, "I believe that Student Council is not only an extremely worthwhile organization, but a necessary one. Most importantly, it provides a direct and open line of communication between students and the administration." This essential function of the council is responsible for the fact that odd and even numbered classes may someday no longer be on opposite sides of the building. In order to make finding classes easier, especially for freshmen, members have been devising a new system to number rooms

Student Council consists of about 80 people, including the executive board, and operates under Mr. Belmonte's supervision. As the advisor, he assists in any monetary deals, but tries to keep his involvement minimal. As he explained "Council runs on the energies of the students". Mr. Waite, the director of operations, helps coordinate the calender for social events and has the last say on any actions

Committees are the basis of student council's new approach. There are regu lar standing committees and special or floating committees for temporary projects. Each one is expected to organize a monthly project. The social committee plans social events such as the Spring Dance, Prom, and most of the soc hops The Rules and Service committee sponsors food and blood drives and communily service projects. Ways and Means raises money through fund raising efforts like bake sales. It is the Publicity committee's responsibility to inform the student body of council activities. Elections are carried out by the Elections committee which also worked on other types of projects such as renumbering the classrooms. There is an Exchange committee

which plans student exchanges with other schools in order to learn more about them and their councils. The Awareness committee, in charge of informing students and encouraging interest, was responsible for the showcase bulletin board and the athlete of the week honor. Last there is an Evaluations Committee to evaluate all projects and keep a record on file for vears to come

There are several ways to become involved with student council. Committee chairpersons are chosen from the student body rather than by election. Many projects require outside help. Student Council has opportunities for students who wish to run for office, head a committee, or just help out

Student Council meets 8th period to discuss mat lers concerning student altairs. President Brian Kin. sella and Recording Secretary Lauren Schultheis begin each meeting by laking altendance and mak ing other important announcements

One requirement for giving blood is that the donor be seventeen or older Seniors Eric Cedergran and Mary Crock recover from the loss of one pint of blood that their bodies will replenish in six weeks

#### The Fine Arts

Having your own story or poem in print or seeing a poster you designed hanging up all around school can give you a tremendous feeling of exhitaration and pride Mirrors magazine and the art staff give students a chance to have these experiences

Mirrors comes out twice a year and consists mainly of contributions from the student body. Under the guidance of Mr. Dominic Belmonte, the staff of fitteen sophomores, juniors, and seniors reviews. analyzes, and selects work for publication in the areas of poetry, prose, humorous and satirical pieces, art, cartoons, and photography. The staff also writes indepth articles for the magazine and contribute their own work. "The work comes in spurts through the year; teachers give us most of the material," commented staff member Florence Giannola

Mirrors not only entertains the students with their two issues that come out in early February and late May, but they also bring the popular comedy group "Second City" to the school in January, "Second City", which inspired Saturday Night Live and has a show on T V. Saturday nights, is the major money making project. Originally scheduled to perform January 19th, snow caused the cancelation of school and "The Return of Second City" was rescheduled for February 3rd

Another group for creative students is the Art Staff, which provides services for various school organizations by printing up posters, making T-shirt iron-ons, and making banners for school events such as homecoming, "Art Staff is made up of some of the most talented students in the school," commented Mr. Randle, director of the staff. The Art Staff meets daily 6th period and besides making t-shirts for Aviation and Flashettes, designing and printing posters for the plays and dances they also mat all the artwork and set up the showcases of student artwork in the

# Behind The Scenes Of

A mass of students congregated Bround a table in the front foyer on a Friday or in front of tables set up in the 126 gym in late May are signs of only one thing: a school publication has put out a new edition. Whether it is the newspaper or the yearbook a lot of hours are put in behind the scenes before the finished product reaches the students.

The York-Hi staff of 35 juniors and seniors is divided into two separate staffs The juniors are the reporters, writing and typing their own sotires as well as contributing their own ideas. The seniors fill the positions of sports, copy, news, managing, business, circulation, and page edi-

Besides news, feature, and sports articles in the paper, there is also a column in each monthly issue. There were two coiumnists this year, Neil Fick and Alison De Boest, who traded off issues. Neil's column was titled "Words of Big N" while Alison's was "Alison's Wonderland"

Alison is also a member of the York Byliners. The Byliners write articles for the Elmhurst Press. The purpose of this organization is for the community to gain insight into the school events through a student's point of view. The members are alon the York-Hi staff and meet weekly

"The paper is needed at school be-

cause it gives the opportunity for the students to express their feelings," explained co-editors Anna Kasten and Julie Fabris. "The staff itself gets a chance to do something worthwhile for the school."

Upstairs in crowded room 216, thirtytwo students meet 8th period to put out a vearbook

The sophomores, juniors, and seniors who comprise the Y's Tales staff have varied interests. Ken French remarked "Artists, sports lans, photographers, or just the average student interested in journalism find something to do on our staff "

(Continued on page 93)

# York-Hi And Y's Tales

(Continued from page 92)

Although the entire staff meets 8th period everyday and all editors stay ninth period also, yearbook work often extends rate into the night as the monthly deadlines draw near. "We order pizza and play "Animal House" music until about 10 00, when the janitors kick us out," laughed co-editor Tracy Gorman

But, as faculty-editor Jane Easterly noted, "It takes a lot of work to put out just a mediocre book, if you want a really good book you must be willing to spend countless hours to add the extra touches that make it special."

There are monthly deadlines for the

staff to meet beginning in November and the whole book is sent to the publisher by early March

"Our biggest problem with deadlines comes from the fact that we had only three photographers when we really need at least five," commented co-editor Margie Huebner "It caused a lot of difficulties and the photographers had to work extra hard and long this year."

Having a new advisor, one with little experience with yearbooks, also presented problems for the staff. But in the end everything worked out well. "Mr. Torney brought a lot of fresh new ideas," remarked Karen Ahlberg, "along with a de-

The latest copy of the York-Hi is hot off the press and seniors Erika Naimann and Judy Weberling can I wait to check out their work sire to make us work hard to put out a quality book."

Mr. Torney was happy with his new job despite the relative chaos of the room during eighth period and the sleepless nights before deadlines. "This staff is great," he said, "They stick together in and out of class. They have fun in everything they do from ice skating to toga parties to Saturday workdays."

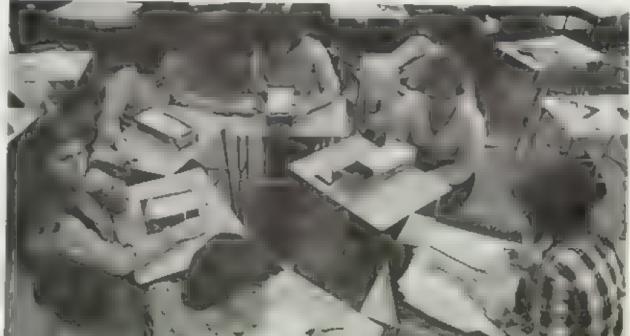

Producing a newspaper and a year-book involves a lot more than the finished projects relate. Besides long hours, missed homework, and test minute copies, they involve a lot of tun

Before the day's work begins, co-editors Margle Huebner and Tracy Gorman, and advisor Mr. Mike Torney make announcements and brief the Year book staff on the work that needs to be done

An important but monotonous task in Yearbook is filling names for the index. One person goes through the proof book looking for names, while the others do the recording of page numbers.

#### **Country Clubs**

Weihnachtsfest, Mardi Gras, a trip to Marguinta — the list is endless. These are just a few of the activities available from the foreign language clubs at York. AFS German, Spanish, French, and Latin clubs are formed from students who want to learn more about a foreign language than what's available in the classroom

The German club, sponsored by Mrs Smulkstep, takes field trips to Glenbard West, where a program of German dances and folk customs is sometimes held An annual event is the Weihnachts-

lest, a festival of German folk customs As club president Larry Browne explained, "We hold a program of dances and sell crafts and bakery goods." German club also plans activities for the members. During the summer, for example, the club goes to the Warren Dunes in Michigan and in the winter they go to Wilmont for a ski trip

For students with the interest, Spanish Club offers a chance to learn more about Spanish customs. Their annual Christmas dinner at the club president's house is just

one opportunity that members have to get together and discover more about these customs. Another popular activity that the club sponsors is a trip to a Mexican restaurant. This year, the invitation was extended to all Spanish students to go to La Marguarita in Schaumburg. This trip is also a way in which the club attracts new members. But, as the sponsor, Mr. Jacobson commented, "Membership is open all year long "

Daffodil sales and the Mardi Gras festival in February are just two activities that the French Club sponsors. Like the other clubs, French club, sponsored by Mrs. Walace, attempts to extend French customs to French members. "We have freshman orientations to attract new club members." commented president Joyce Boyko, "And we hold Mardi Gras and a Christmas party for the club," she added

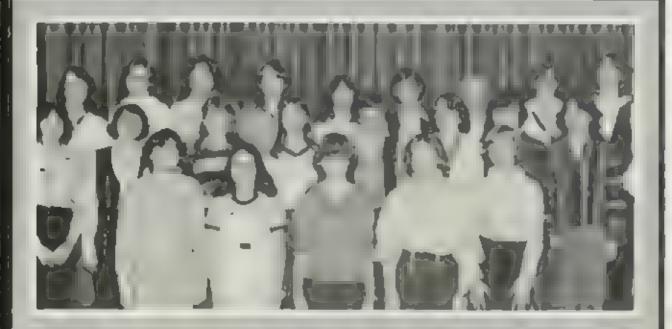

The Latin club offers a unique way to learn more about the little-known world of Rome and its Latin heritage. Under the direction of Mr. Countryman and president Al Javois, the club has taken several field trips, including a trip to the Pompeii exhibit at the Art Institute in Chicago. At their regular meetings the club plans everything from informal club parties to the Homecoming float

The Latin Club banquet is considered the climax of the club's planning. The banquet takes around the ides of March. marking the death of Julius Caesar According to Al Javois, "At one time the festival was continued for fifty years. It was dropped for a while, but we started it again last year." The festival is centered around a Greek play, or a parody of one

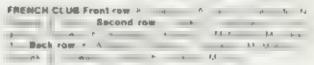

One Foreign language club which includes aspects of all foreign language clubs is American Field Service, or AFS Mrs. Goes, who along with Mr. Forte sponsors AFS, explained, "The purpose of AFS is to raise money to be able to bring students to other countries. There-

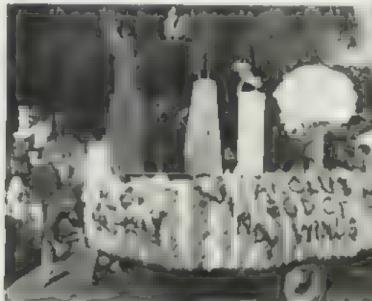

by exchanging cultures." This idea of exchanging cultures is continued throughout the year by AFS-sponsored programs (for other AFS students). At their club meetings, for example, foreign students present programs about their countries and their customs. York AFS also sponsors area picnics and an annual AFS "weekend" in which students are invited to come to Elmhurst, stay with a host lamily and talk to foreign language classes and other students

Parties, banquets, and a new knowledge of a foreign language and a foreign country are all adventures to the student who joins a foreign language club

## Of Clouds, And Wings, And Numbers, And Kings

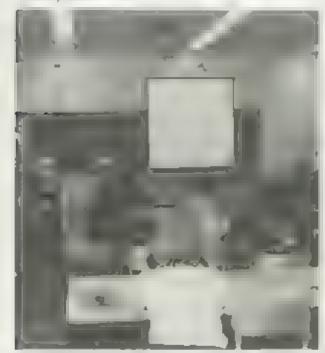

Four special interest clubs which involve small groups of York students give challenging training for careers or hobbies. The clubs include Chess Club, Math Club, Weatherman's Club and Aviation Club.

"We play chess in the same conference as the football team," Mr. Horace Greene, sponsor of the Chess Club stated. The Chess Club, which involves about twelve members, also has a team that is made up of the best eight players in the club. One big problem which the club faces is that seven of the eight Chess Team members are graduating seniors. Prospects for next year will be bleak unless other students with interest and even the slightest ability come out and play chess. Chess, they may find, is a skill which can give life-long enjoyment.

Math Club, headed by Mrs. Linda Venture, changed its basic plan this year Previously the club had a team, the Mathletes, which, like the Chess Team, competed against other schools. This year club time was used to practice for the annual math contest. Mr. Nelson held practice sessions in the math lab, beginning each meeting by reading a problem or a set of problems. Students used the time provided to solve and discuss the problems.

The Weatherman's Club, under the direction of Mr. William Johnson, Includes seven members who are learning the aspects of meteorology and how to operate and maintain the weather station which they own. These amateur forecasters use various instruments in room 238 to predict weather. Appropriate field trips have been take to weather stations such as WGN and Northern Illinois University, one of the most outstanding schools for meteorology in this area. The club has had seventy-five to eighty members in the five years since its founding by Greg Storey,

Aviation club is the extension of the practical knowledge taught in aviation class. Students with an interest in flying attend the monthly meetings to hear tectures on gliders, sylation careers, and other related subjects.

Although there is only one correct way of spelling Mr Wrzeszcz, the math lab assistants thought up 25 different ways of spelling it

who now works professionally as a weatherman

Meeting the second Wednesday of every month in room 244, the Aviation Club, ted by Mr. Charles Henninger, consists of approximately fifteen members, four of whom are girls. One of the main purposes of the club is to give students who can't be in aviation class a chance to learn more about aviation as well as career possibilities, that are either commercial or military.

Throughout the year, Mr. Henninger turns over the wheel to each student on orientation flights, each student receiving about fifteen minutes flying time. At the end of the year, Mr. Henninger takes his students on their big trip to Ray Patterson Airport in Dayton, Ohio. Both of these events improve the amateur flyers' skills and give them invaluable experience, which is especially important when they begin looking for jobs

#### **Room Service**

It looks innocent enough on the schedule - one period a day, a half-credit a semester, and no homework. Being an assistant sounds very tempting. What does an assistant really do anyway? Deliver a couple of passes, check out books — it doesn't sound very difficult. Well, maybe it's not quite that easy ...

It all begins when the unsuspecting student requests the job of assistant on her schedule, accepting a half-credit a semester in exchange for the challenge of delivering notes to the four corners of the school. Day after day, a familiar scene takes place. After an endless search for the right room, the assistant gathers all of her courage and knocks forcefully on the door. As she walks into a packed classroom, all eyes turn to stare. After the teacher finally locates the student in question, the assistant can make a quick exit from the hostile stares and whispers With a sigh of relief, the assistant heads for home, be It the Guidance, Health, or General Office

Seven students spend their free periods within the confines of the Health Service tooms. When not running notes, they are required to straighten the waiting rooms and often make beds. The assistants help students who come to the Health Office by checking in those who are well enough to walk in and assisting others who need to be escorted by wheelchair. When a student leaves school ill, the assistant retrieves books from his locker and helps in any way possible.

The tifty Guidance Office assistants are skilled in filing, stuffing envelopes, and other office duties. Another responsibility of a Guidance assistant is to escort new students to their classes. The assistants are also partly responsible for the attendance records since the attendance office is part of the Guidance Office.

The General Office has nineteen student assistants, including boys, who aid in delivering passes and sorting mail for the faculty. Occasionally the General Office has too many assistants in one period so the extras are sent to the Guidance Office, where there is always work to be done.

The students that help out in the library remain basically in one place. They might

file a book or two, but usually they can be found behind the front desks on each floor. Sixteen students work here checking books in and out. They also prepare books for circulation and alphabetize cards that aid students in finding a specific book.

Approximately ninety-two students find spending their free periods as aides worthwhile and rewarding Laura Dolores and Margery Bailey agree that working as a library assistant is a great experience "It's worthwhile because we can see what it would be like to work in a library and we can help the kids and the librarians."

The advise of library assistants is not only he pful but triendly. Margery Bailey gives service with a smile as she performs her daily tasks.

Working in the bookstore is the perfect solution. for those who don't have transportation to a lob or just don't have the time after school. Students are able to pick up some differ money by working just one period a day at any of the various jobs offered throughout the school

#### Greasepaint, Cameras, And Competitive Speaking

In room 106C, students thumb through writes a news program), original comedy. books and plays. In room 159, other students thumb through pamphlets on "Energy". The students in 106C then begin oral interpretations of the literature while the students in 159 begin arguing a resolved issue. In 106C the students are practicing for an I.E. meet and the ones in 159 are preparing for a debate

I.E., Individualized Events in speech, is a club which trains students in events concerning acting, reading, and speaking. Each event has several categories For example, acting includes dramatic and humorous duets along with dramatic and humorous interpretations of a scene or scenes from a play. This year two people who have done especially well in humorous duets are John Fabris and Lisa Geannopolus. Reading Involves reciting prose and verse, while speaking includes radio speaking (in which a competitor

oratorical declamation, and original oratory Ellen Baker, Julie Swenson, Julie Fabris, and Dave Koropp are four students who deserve mention in these speaking categories

Some students tend to shy away from I.E. because they are atraid to speak, especially creatively, in public But, according to the sponsor, Mrs. Campbell, I.E. is "very worthwhile because it develops poise." She also explained that clubs such as I.E. are "good for developing skills in communication "

The Debate Team is another club which aids in the development of speech skills But as Mr. Cloud, the sponsor, pointed out, "Debate requires more learning." Team members compete at the novice (sophomore), Jr. Varsity, and Varsity levels. Two varsity level debators, Paul Mahon and Mary Tripsas, have debated well

throughout the year. The team researches the national topic for the year which is chosen by high school debate coaches. This year the topic is energy

Like I.E., Debate members are trained in different speaking techniques. For example, I.E. members are trained in delivering comical, dramatic, and "newsy" presentations, and Debate members are taught straight persuasive speeching. As Martin Sabelli commented, "I like Debate because you learn how to speak, and different speaking styles."

For those students who aren't interested in speaking clubs, stagecrew and Audio-Visual have a lot to offer. Both groups contain some form of manual labor, although Stagecrew more so then Audio-Visual

An unstructured, relaxed atmosphere prevers when the debate team meets in Mr. Cloud's room to prepare for an upcoming match

# Greasepaint, Cameras, And Competitive Speaking

The job of Stagecrew is mainly construction, painting, props, and lighting These elements all add up to a well produced play. Mrs. Lamon, Stagecrew head explained, "One of the most important aspects of a play is the setting. The setting communicates the theme and establishes a relationship between the actors and their environment." Working on Stagecrew can be very time consuming Many students work as much as 120-200 hours per show. Although the work is hard, the results are well worth the effort

Unlike Stagecrew, Audio-Visual members are seen while doing their job. They wheel films from room to room and set up

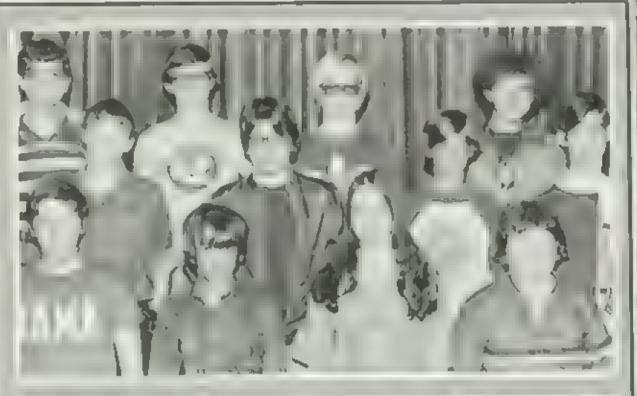

films in the Auditorium. Some of the projects they do are audio-tapes, video-tapes, and occasionally an animated movie. Students involved in Audio-Visual receive ½ credit per semester for their work. Members consist mostly of freshmen and sophomores, with one or two juniors. Although most of the group is made up of mostly boys, girls are welcome

wastened.

These four organizations, I.E., Debate Stagecrew, and Audio-Visual, give students a chance to express themselves in the way that they like best. Whether it be speaking or physical work, there's something for everyone

A trial run with the video equipment gives A.V. assistant Don Jamski a chance to perfect his techniques before it's time for the "real thing."

Pitching problems plagued the varsity baseball team, while the bullpen salvaged the sophomores, the freshmen were conference champs and girls softball had one of its best seasons ever. All in all, it was a year of

### Highs, Lows, And Ball Four

Two major problems held the varsity baseball team to a sixth place finish in conference in 1978. One was pitching and the other was team unity

"Everybody seemed to question our pitching right from the very start," reflected Coach Ellingson. As any baseball fan knows, a ball club is dependent on strong pitching. Despite being tough in hitting and fielding, the team couldn't overcome their deficiency in the bull pen. Dan Cardea led the team in fielding while John Rodgers headed the hitting attack.

"Just about everyone played to their ability." continued Filingson, "But it just didn't amount to much in such a tough conference. Our pitching just couldn't carry us through."

Besides the pitching problems, a lack of team unity hurt the ball club. As one senior player said, "Some of those guys are in the game only for their statistics and they could care less about the outcome of the game so long as they themselves played good." Ettingson lectured about team unity, but obviously to no avail

In their season however. A pair of close losses to powerhouse Proviso West and a two-hit victory over Glenbard West stood out in Ellingson's mind

The state tournament ended quickly for the troubled ballplayers. After soundly defeating Hinsdale South 15-1, the Dukes blew a four-run lead to Willowbrook in a shocking extra-inning loss. The team was expected to go farther with their ticket of good hitting and fielding, but these dreams were dashed by a highly competitive Willowbrook team.

pronimina on page 1151

#### **Ball Four**

When the baseball season rolled around in the spring, sophomore coach Trayser was confident he had a strong ball club in all aspects except priching But as the season progressed, their priching kept them in many games that would have been lost earlier. "Our priching did a great job of keeping us close and this made our losses less painful," commented Trayser. The hurling staff was headlined by Brian McCarthy and ace reliever Leif Lenberg. Their hitting attack was strong also, led by Pat McDermand, who had a 431 average.

"Our pitching did a great job of keeping us close and this made our losses less painful."

Many of the team's losses were a result of their poor detensive games. The Barons committed 76 errors in 18 games. "Those errors brought on a lot of unnecessary deteats," said Trayser. According to him, the fielders tacked the use of simple detensive fundamentals which hurt them badly. A three hit win over Glenbard West and a 6-1 victory over conference champs Oak Park highlighted the otherwise dismal season.

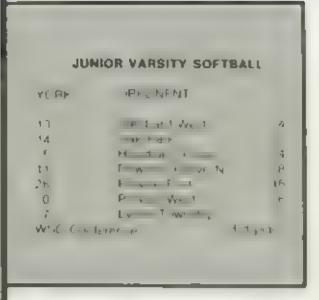

The freshmen season started out gloomily when the Seris lost two of their lirst three games in a schedule of only sixteen games. They couldn't afford to tose too many more

"After the boys got over the jitters, we lurned things around," commented Coach Aggen. "We started to play good defense and in freshmen ball that's how you beat the other teams," The team won 13 of their last 14 games.

The club was strong all around. Detensively infielders Marty Gregor and Larry Steizner and outfielders John Purdom led the club. Most-valuable Scott Metz, Marc Kapsalis, and Jim Minor dominated the over-powering defense and Mike Breaker led the pitching, throwing the only two shut-outs of the season.

Compiling a ten game winning streak and beating runner-up Oak Park twice were important accomplishments for the freshmen

(continued aid page 117).

First baseman Tommy Houk makes a line play as she snags a high throw from the shortstop to get the out against Glenbard East. York won the game.

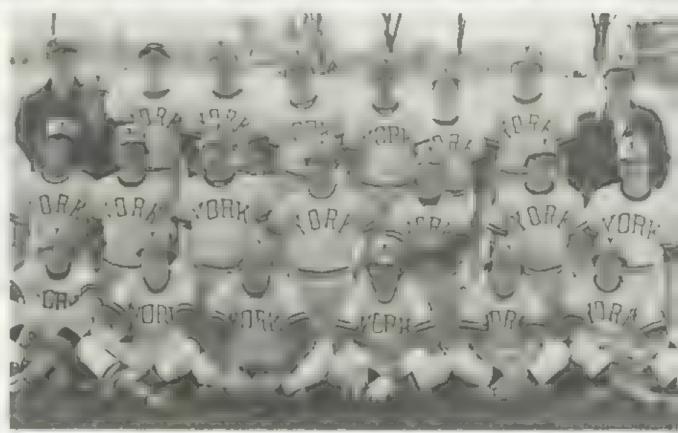

With a little luck and some fancy footwork John Hermanson makes it safely to second and went on to score the winning run in a close match against Downers Grove North. The score was 4-3.

A close play at second that will be a first and the transfer of the will be a first and the will be a

#### **Ball Four**

After ending up at the bottom of the conference in 1977, the girls varsity softball team bounced back to have their best season in years. "We really started out fantastic," commented Coach Damratowski. "I was proud of how all the girls. played "

The team's offense was productive as the club slashed a 362 mark for the team. average. The hitters were led by Barb Sawicki who hit 429 and Eleen Cronin who slugged at 523

The defense was strong also. With a 864 fielding average. The top players in the field were first baseman Leslie Walsh and letthelder Mary Eilen Mech Damratowski concluded, "A well-rounded clubis what will win and it's good to know wehave that. This is the best team we've had in the last four or five years."

"We really started out fantastic This was the best team we've had in four or five years."

The junior varsity softball team had a successful season also. "We had a really fine season," commented Coach Lacey "The team had fun and we played well on top of it "

Balance is a good word to describe the J V. team, The offensive attack was led by Ann Saboe and Annette Baten who helped bring the team's batting average to .481. Smart baserunning also helped the club's offense. The defense was strong with freshmen outlielders Katie Jaske and Janet Kane. The pitching staff was headed by Debbie Woldman and Kelly Spaulding

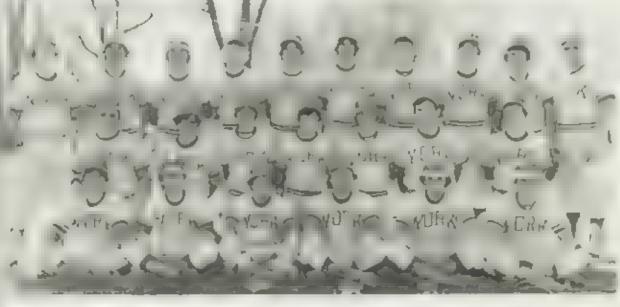

A big victory for the girls was beating first place Proviso West. But according to Coach Lacey the biggest event of the season was finishing third in conference The well-balanced team was the reason for such a rewarding season.

At an intermission on the infield, sophomore Dan-Slavin takes a break from his score keeping dulies to blow a bubble which was popped by fearmale Steve Salvatore

Photo finish . This is the type of play that make: an umpire's job impossible. Sophomore Par McDe. mand makes the play close with a good stretch.

The Girls' **Gymnastics Team** Captures 1st In Conference Once Again.

This was their day, Months of herd work and determination paid off when for lhe fourth straight year in a row the girli gymnastics team was no. I in the conferenceil

Shining sters appeared on the scene Sue Carlson captured first on the optional level Senior Liss Jongsblood won the compulsory level with a 31.00 score. Others had their share of the limelight too. On bars Linda Magnesen received first and Anne Heur vaulted her way to a first place finish: "Mith: the frome testift advantage; the York gymnasts were as unstoppable is they had been all season. Coach Wehat «bannsented):((1777-e-girit) «ivere» (teal)) looking for this victory. If was the highlight of the season."

Constantly up against tough complitiition such as Oak-Park River Forest, the team pulled through with a flewiess 9-0 conference record. Besides Carlson, the team got top rate performances from Kethy Browni Lynn Bione and Bourie Gooch on the optional level. The computliory level showed oil with Jongebloed Magnesen, Heuer, and Sarah Larson

After taking second place in the distric∛ meet, the optional level proceeded to sectionals. The girls faced Maine East and eventual state champion Addison Traili This time the York girls only managed a third place on their home turf. Carlson qualified for state on the uneven bars and (the beam. Hampered by a knee injury) Sue made the finals but seriously injured her knee on her dismount off the unever bars. Her final score on the bars, 8.2, placed her in a tie for sixth. Although quite à disappointment, Sue looked at her Injury philosophically, "What happened happened, but I tried my hardest and so did everyone else."

#### Fish Out Of Water

Despite the bath tub size pool, nonexistent lockeroom, and daily 5:30 am and 3:15 p.m. practice times, the Boys Swim Team had their best season ever in their six years of existence

In the Riverside-Brookfield Invitational. they placed third and received their first trophy. The team then placed third in conference and districts, close behind Lyons Township and Hinsdale, the state champions. Another victory for the team was the fact that all the records for the sophomore and varsity level were broken

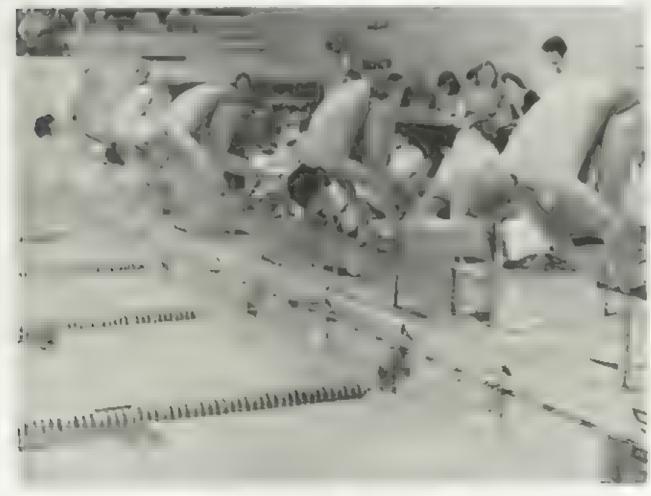

Breaststroker John Sullivan continued

his success by not only being the first York swimmer to go to the state meet in 1976, but by placing twelfth in the state finals this year. Senior freestylers Ted Soltys and Fred Leadbetter also qualified for state and helped Sullivan place York at 48 out of 200 schools

To give support to the team, fan buses were provided. As Fan Debbie Gramer stated, "It was an honor to be the team's manager, it's great when we win because I can brag that we don't have a pool. I know that they will do even better in the future "

With a churning wake behind him, Junior Tim-Soltys plows through the water, hoping to qualify for the state meet. Unfortunately he fell short of his

As the gun signals the start of the 100-yard freestyle, the swimmers shoot out of the blocks. York placed third in the district meet

Controlling the center of gravity is the secret to performing a good backflip. Senior Cliff Kennedy, by tucking in his legs and keeping a smooth rotation, executes this dive to near perfection.

In the third leg of the 200-yard medley relay, butterliyer Tim Sollys flys off the blocks with a good

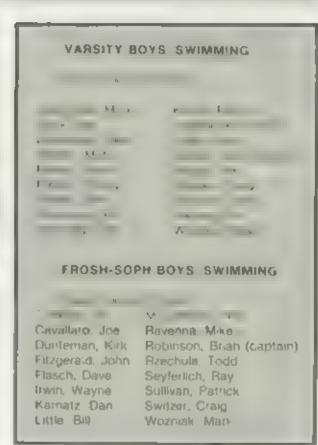

All around swimmers are among the best conditioned athletes in any field of sports. In the heat of competition Fred Leadbetter exhibits the intense strength and determination required of the freestyle.

Payching up for a race is important to build confidence. Ted Sollys concentrates on his start while listering for his name to be announced

# Running On R Dream

The dream of competing in the state track meet sustains many runners. through tough workouts and a long season. In the spring of 1978, thirteen members of the boys' and girls' track squads realized this

Fight of the athletes who made the trip day meet to Charleston to compete in the state meet were members of boys varsity team They posted an impressive dual meet record of 10-1, not being beaten until the final meet of the season against Proviso East, but they only finished fifth in the conference meet. Hurdler Chuck Chicoine, who was voted most valuable, felt the team had the talent to do better but it was a case of not putting out. However, the following weekend the team regrouped and qualified eight boys for state competition. Senior Warren Frey threw the discus 152'6" to qualify and Kurt Hoffman won the two mile in a 9 32 4. A surprise qualifier was the mile relay team consisting of seniors Brett Terbush and Bill Webb, junior John Kalomiris, and sophomore Jim Carroll, Senior Al Strunk qualified in the half mile. At Charleston he ran a 1:54.7 for a sixth place finish, which gave the team their only points of the two

dream.

The sophomore team ended their season by tying with Proviso East for the conference crown. Back-to-back victories set the pace for the day. In the twomile relay Al Taira, Dave Schuyler, Steve Reid, and Mike Custer combined efforts to break the conference record with an 8 32 6. Just minutes later Tim Krull fended off Glenbard West challenger Brad Rutherford to win the two mile with a 9:49 7. Later in the afternoon Doug Horn broke the tape with a 201.1 to bring home the half mile laurels. In the field events Scott Morrison placed in three events: fourth in the long jump and the triple jump, and second in the high jump with a six foot jump. Marty Larsen took first in pole vault at twelve feet. In the sprint department Jim Kurotsuchi finished second in the 220-yard dash with a 23.5.

Stopwatches in hand, Coach Joe Newton surveys the action in a dual meet against the Pirates of

Proviso East. The varsity Dukes were defeated 78 to

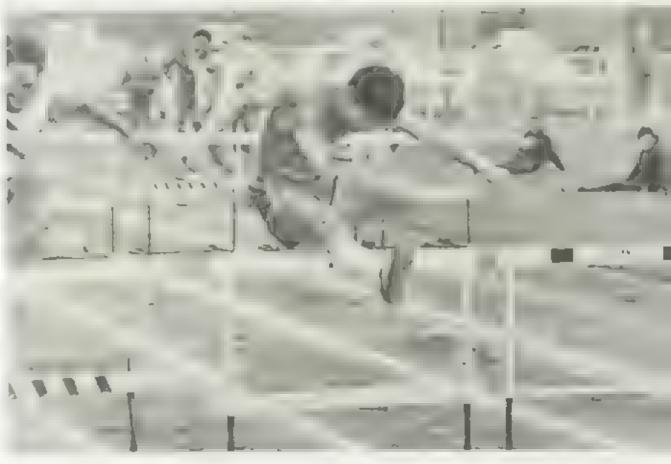

61, their only dual meet loss of the season

(continued on page 125)

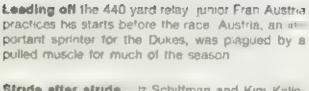

In the dual between Proviso East and York, the Pirales dominated the sprints, but the Dukes were leaders in the distance department. A member of the two-mile relay, senior Kevin Kopp, brings home the baton for a victory

A dual between Frank Yang and his Proviso East opponent draws to a linish with Yang in the lead Despite their valiant performances, the varsity team fell short of victory by 17 points.

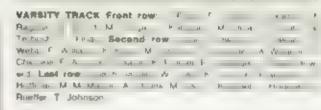

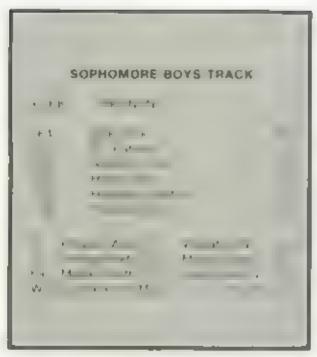

Stride after stride, iz Schiffman and Kim Kalinowsk- keep on removing at a triangular meet against Downers and Glenbard West

Even a tremendous effort by discus thrower Carl Palmer couldn't stop the Panthers as Proviso East 16feated York

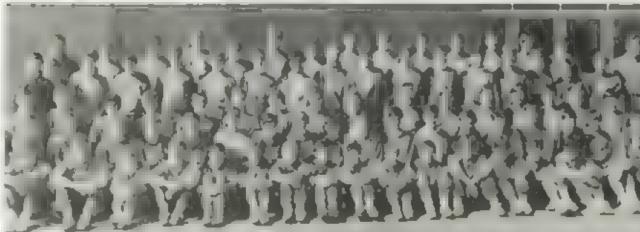

A 13'6" jump by junior Kris Pedersen was helpful to the team in overcoming Glenbard West in a conference triangular meet. This late season victory was avenged in the conference meet where second place Glenbard West triumphed over York by 17 points.

An expert in the jumping field, sophomore Scott Morrison displays his talents in the long jump in the Proviso East dual. The sophomores won by 3 points Morrison also competed in the triple jump and the high jump, placing in all three events in the conference meet.

Captured in mid-air, freshman Roger Kanther exhibits his ability to hurdle in the third heat of the 110 high hurdles at Proviso East. The eventual outcome was in tayor of Proviso East.

Warming up is an essential part of a high jumper si performance. Junior Denise Gresens clears the bar in 4'2" in preparation for a meet against Glenbard Fast

continued.

The freshman squad was hit late in the season by the loss of Doug Martin who suffered an appendicitis attack. Had Martin been healthy. Coach Newton fees they might have placed better in the conference meet where they ended up fifth in the conference meet. Al Taira finished second in the two mile with a time of 10.38.1. He was followed closely by Len Paladino. In the mile run, Rich Seyferlich ran a 4.52, barely edging out teammate Dave Schuyler for first place.

The boys' teams are known for their distance runners, but the girls are turning out a crop of sprinters who Coach Cannon believes are unbeatable. The fleetfooted females were led by junior Barb Crean, conference champion and state qualifier in the 100 yard dash. Crean was also a member of the state qualifying 440 yard relay which included Kim Reedy Vicky Valancius, and Peggy Berger Due to an oversight by the coach, the girls were placed in the slowest heats in the district meet, making it harder for them to qualify for the state meet. Nonetheless, Reedy qualified in the long jump and treshman Chris Gorman qualified in the mile run along with Crean in the 100 yard dash and the 440 yard relay team. As Coach Cannon said, "Great athletes don't give up and they don't make excuses. They perform "

The 440 yard relay team dropped the baton and none of the individual qualifiers made the finals. But competing in the state meet was, to five girls and eight boys, at least in part a dream come true

The last log of the 880 relay was run by junior Barb Crean in 27.5 seconds to help secure the team victory. The triangular meet with Glenbard West and Downers Grove North was won by the York girls by a slim margin of two points.

# Causing A Racket

In the past few years, high school tennis has improved immensely. The reason for this is the young age at which the players are starting. Coach Grote stated "The quality of this team has greatly improved, but so has the rest of the conference."

One example of young athletic prowess can be found in sophomore Tom Wanglin, the undisputed number one singles prayer on the team. He competed in the districts, doubting up with Marty French to win After districts they went on to state, but didn't place. The other players who were the main strength of the team were Paul Yusem, who won the conference meet, Rich Fredericks, the most improved player, and Ed Rohn and Mike Zimmer-

man, who played first doubles

The conference meet for the sophomore tennis team promised to be a repeat of their disappointing season. With a 2-7 record, no one expected them to finish in the top three, but surprisingly enough, they did. Their third place finish gave them fifth in the conference. Sophomore Bob Penrod was the main reason for the team's success, finishing third in the singles competition. Coach Thompson attributed this late season success to the tact that the team was very close knit. He evaluated them as being, "strong in singles play with a slight weakness in doubles play. However they were all aggressive and liked to attack."

(Continued on page 129)

Deep in his back court, junior Ed Rohn gets ready to smash a cross-court volley to his opponent from Hinsdale. York lost the match 5 to 0

Corch Williams.

Following through on a smash, senior Tessie Lopez, uses her skills to beat her Hinsdale Central foe 11-6, 11-7. Unfortunately, highly developed skills didn't pay off for the team as they lost 5 to 6.

For the second year in a row, Anne Franch placed 1st in singles at the state badminton meet at New Trier East. Anne is also highly ranked in the national badminton competition.

A successful season for junior Colleen Madigan, playing first doubles, greatly contributed to the badminton teams' 3rd place conference finsih behind Oak Park and Lyons Township

#### Racket

"Strength in numbers," was the motto which Coach Williams used in his first season as the girls' tennis coach. At the beginning of the season, 63 girls tried out for the team. All of them made it; but this number was later trimmed by the girls own choosing

Non-conterence meets gave each girl a chance to play and gain experience. Apparently William's strategy paid off since the team sent six girls to state competition.

During the season, matches were characterized by come from behind victories which were decided in the third set. Several girls who contributed to the winning season were Marivic Maglasang and Linda French, who played number one and two singles respectively Jennifer Cloud, Myrrha Maglasang, Julie West and Georgie Westerdahl played in the doubles competition, compiling a joint conference record of 22 wins and 6 losses

Unknown to most York students, the badminton team has been fortunate to have one of the top badminton players in the country — Ann French. For the second year in a row, Ann won the state title for singles. Later she teamed up with a partner and won the national crown in doubles

Ann wasn't the only one on the team grabbing awards. In the conference meet Suzanne Kieth grabbed a second place finish in singles, and Nancy Canpabello and Cindy Baldwin took third in doubles Mrs. Adams commented, "Even without Ann, the team still would have been strong."

When Fall descended upon York, it seemed as if the football team would do an encore to last year's winless season. It came down to battling the last place team in the conference, but ...

# They Won One For The Gipper

It was Homecoming and Seniors Day, and the stands were all filled. The Dukes were playing the Proviso West Panthers, the only other team in the conference who had yet to win a game. Uptown, the thermometer on York State Bank registered a 32 degree temperature, but the varsity tootball didn't mind the chilling wind — for once they were hot. Although the first half went by scoreless, with key plays by Mike Fitzmaurice, the Dukes scored a field goal and touchdown. Final score — 10-7. And so the varsity Dukes ended their 13-game losing streak. They couldn't have picked a better day.

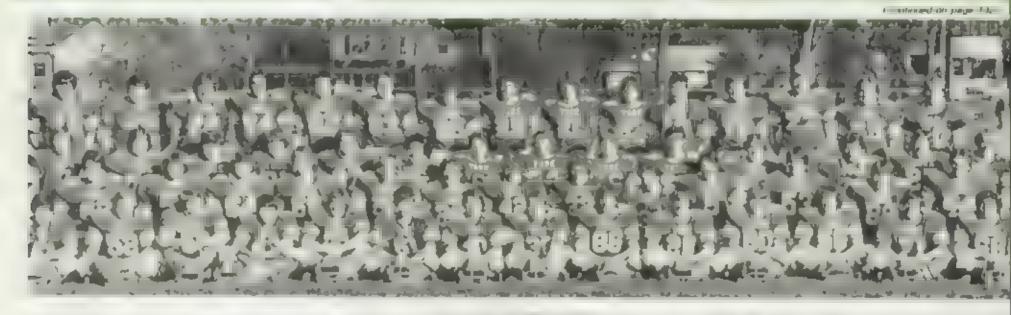

Despite not winning any other games during the season, there were a few silver linings in the dark clouds of defeat. They

lost to detending conference champion Glenoard West by only one point and they out-played state ranked Hinsdale South, although they lost that contest too

"I'm not sure our seniors really knew how to win," admitted Coach Howard "The concentration needed to win was rarely there. The players worked hard, but when it came time for the game, they would beat themselves with lapses of concentration, bringing about horrendous results such as the 41-0 beating from Oak Park-River Forest."

With the exception of the Oak Park diaster, the varsity defense was fairly consistent. The defenders were led Tom Klatt and all-conference stars Jim Dyorak and Dan Spaeth. The offense was a bit more erratic with the exceptions of back Mike Fitzmaurice and captain Don Hobbs Fitzmaurice led the club on total offense with 600 yards and won the team's offensive MVP award.

Coach Howard feels a gradual improvement of the team's record is eminent. "We haven't had success for quite awhile and that makes it harder to turn things around," he commented But with such junior standouts as Tom Roberts, Gary Vance, Brian Goebel, and Kent Sinson, and the respectable success the junior-varsity had, its obvious that better days are ahead for the Dukes

VARSITY FOOTBALL Front com P. S. S. Tuline S. P. H.

A good take pays off as halfback sophomore Paul Regole takes a screen pass and, after a brillient run scores as time runs out in the 1st half

On an Important 3rd down from the three yard line, quarterback Mike Breaker powers the ball into the endzone for the score. This touchdown helped the Barons overcome Oak Park River Forest 28-6

After a short gain, junior Tim Polk is met by a strong Trojan defense. The loss to Downers Grovs in the season opener set the precedent for the remainder of the year

#### They Won One For The Gipper

When they lost their opening game 30-7 to Downers Grove North, the sophomore football team also lost their confidence It wasn't until the end of the season when they won three of the last five games that they recovered from that first beating. In the last game against Riverside-Brookfield the team finally got everything together offensively and defensively and romped them 27-6

The offensive unit, headed by guarterback Mike Breaker and fullback Marc Kapsalis, was very strong, but the defen-Sive unit was not as dominant as it should have been. Standouts in that squad were Marty Gregor and Jack Statells

Part of the problem with the team lay with the new strategies that were instituted. "By the last couple of games we had everything together pretty well, but before then it was a real learning experience for the teams," said Coach Grider

Despite their slow start, the sophomores did show promise. "I think we have a lot of good football talent in these guys," commented Coach Grider

Not all the football squads at York had such dismal seasons. Both the "A" and "B" freshman teams played respectably as their 4-4 and 7-1 seasons showed

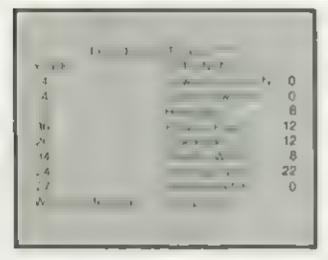

"With as many players that came out (120), we were sure we'd find some talent," commented Coach Campbell, "It takes a little doing with freshman though, because you have no idea who the standout players are."

Campbell insisted that the "A" team was a better club than the 500 season

indicated. The team lost two games in the last few minutes, which showed a lack of concentration. A big win for them was the 10-9 victory over R-B. The leading players for the Serfs were captain Bob Frantz at quarterback, linebacker Tom Belskis and leading receiver Jeff Zec, who caught seven touchdown passes

The "B" team's 7-1 record spoke for itself as it was hard for Coach Campbell to point out any weaknesses, "They had the consistency that the "A" team did not have," he commented. The team was lead by star quarterback George Acosta "The guys are just fine football players and some of them still have a bit of physical growing to do, which makes me believe that better days are coming soon to the varsity," Campbell concluded

The offense takes a breather and intently watches their defensive counterparts tear apart the Hinsdaie Central ball carriers

#### **Goal Oriented**

Scoring points was the specialty of the varsity soccer team. They averaged almost 2 goals a game, a vast improvement over last year

Coach Janulis was very pleased with this team's performance, "We were looking to improve our record from last year. In the beginning we had several key injuries that hurt us. But when these people returned, our defense tightened and we began to score more."

"The high point in our season," he commented, "had to be when we beat Hinsdale 4-1. There is a keen rivalry between the two schools, and this was the first time in our history that we beat them." The annual soccer tournament hosted by York was another bright spot. There were two divisions, sophomore and varsity, and between the two the Dukes managed a tie for first with Naperville Central. This was the best they had ever done.

The varsity was led by senior

"The high point of our season had to be when we beat Hinsdale. There is a keen rivalry between the two schools and this was the first time in our history that we beat them,"

Dave Pflum, who was voted Most Valuable Player by his team-mates and selected to the all-conference team Pflum scored 12 goals, breaking the varsity individual scoring record and managed 2 hat tricks, scoring 3 goals in a single game,

including 1 against Hinsdale Other standouts included seniors Mark Cherry and Todd Porter who were both named to the all-sectiona team, which is the level above all-conference. "I was very happy," said Cherry "I really didn't expect to make all-sectional." Junior Phil Soregel was also picked for the all-conference team.

Coach Janulis feels that the sophomore team, which he calls "one of the best ever at York", together with the juniors will be "a team to be reckoned with." This year the sophomores enjoyed a sensational season. They were 6-4 in their conference and 15-5 overall, which is the best sophomore record in the history of York

"There is no question that the highlight of our season was our game against Oak Park," reflected Coach Larsen. The conference champion this year, Oak Park had 23 game winning streak coming into the contest. Not only that, "Their goalie hadn't allowed a score in almost 2 years." Nevertheless, the Barons pulled off a 2-1 victory. The sophomores also managed to go undefeated throughout the tournament hosted by York.

Coach Larsen was very happy with the performance of his team, especially in passing "We had more than just 3 or 4 stars out there. We had 11 good individuals with a good bench to back them up"

Individual standouts included cocaptains Mike Wyllie and Bill Mc-Donnell Wyllie managed 8 goals and was a good control player while McDonnell set an all-time sophomore scoring record of 13 goals. The MVP was Tim Schmiecher who played "fantastic defense" in the words of Coach Larsen. Ken Grabenhoffer was named the most improved player

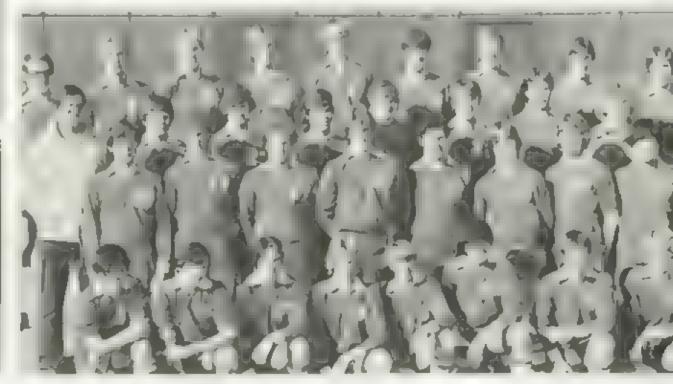

Struggling through a very dismal season, the freshman team compled an 0-5-3 conference record

"Sure, winning is important But the development of character is just as important."

and were 0-8-3 overall. However, despite their record, Coach Sibley was not discouraged. He feels that people often put too much emphasis on winning and look past other accomplishments. "Sure, winning is important. But the development of character is just as important."

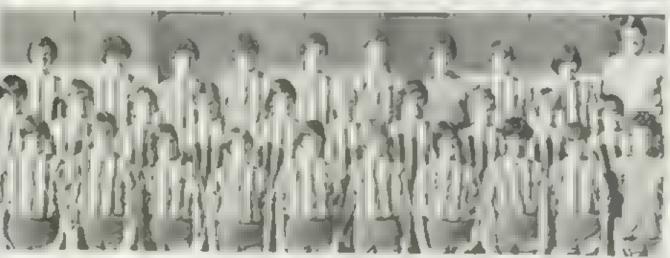

In the beginning of the year Coach Sibley believed he had the material to win the conference; a good group of athletes and a good group of people "We had the basis for a tremendous team. However, the lack of skills and of experience is what cost us."

Coach Sibley believe that this group will have a bright future ahead of it. "They are a fremendous group of kids. With a little more desire, experience, and understanding, along with some work on fundamental skills, they could win everything next year."

"We got it?" Coach Newton exaits over his team's victory with alumnus Dr. Mark Schmelz, who piaced 10th in the 1969 state meet. Only fer utes after the race was completed. Newton knew for certain that his men had won.

Although the girls placed fourth in the conference meet a moral victory was work as they handly boot rival Oak Park-River Forest who had deleated the harries earlier in the season. Tammy Timmer's Chris Barne's and Peggy Burger's great improvement were the key to the girls revenge.

Placing first and second in the conference meet, sophomores Al Taira and Rich Seylerlich put far ahead of their opponents

#### The Year Everything Fell Into Place

It wasn't until the week of the state meet, though, that they were ranked first For most of the season they had been underdogs, working their way up from being ranked seventh. That was all right with Newton though, who felt everything worked out perfectly. Being underdogs kept the boys working hard all season and gave them confidence at just the right moment — the week before the state

"We were lucky," reflected Newton "Everything just fell into place."

All but two of the runners who ran at state were seniors, but the harriers have a lot of talent to look forward to. At the

conference meet which was held on York's home course, East End Park, the Dukes swept all the races except the

The day started out with the freshmen race. Led by Glenn Campbell, Pete Dunham, Tom Wartinbee, and Joe Gleason. the serfs packed up and took the first four places. They were only one point away from a perfect score. The conference meet topped off the freshman's undefeated season. They won all their dual meets with perfect scores except one, against Oak Park

The sophomore team also was undefeated in all their meets including the Du-

Page County meet and the York Sophomore invite. Led by the one-two punch of Rich Seylerlich and Al Taira, the harriers dominated their race. Tony Yang, Dave Schuyler, and Marty Frega placed 4th, 7th, and 8th respectively. "It was just an outstanding season on the frosh-soph level," praised Newton

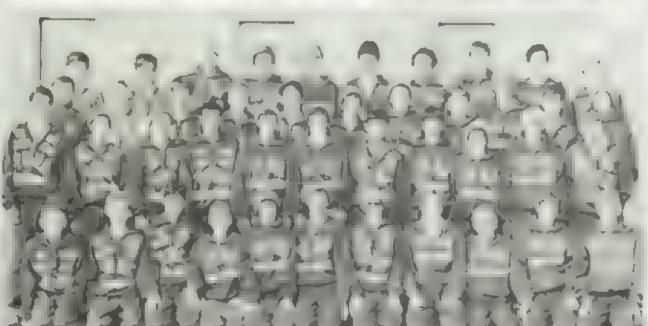

The varsity was just as successful in dual meets, the only team that gave them any problem was Glenbard West. The conference meet was sweet revenge for the Dukes after losing to Glenbard West a year ago. "Our goals were to win state and to win back conference from Gienbard," explained Phil Williams

GIRLS: CROSS-COUNTRY Front Row U Second Row Third Row

Leader of the team throughout the season, Captain Phil Williams triumphed at Peoria and placed

a gin D Git K Holdefauch D Alessus D White

The pack was strong at the conference meet as they lap a lagging Proviso East runner

The frosh team tell one point short of having a perfect score at the conference meet, but still capfured the season crown. Gien Campbell, Pete Dunham Tom Wertinbee, Joe Gleason pack up and move into the top positions.

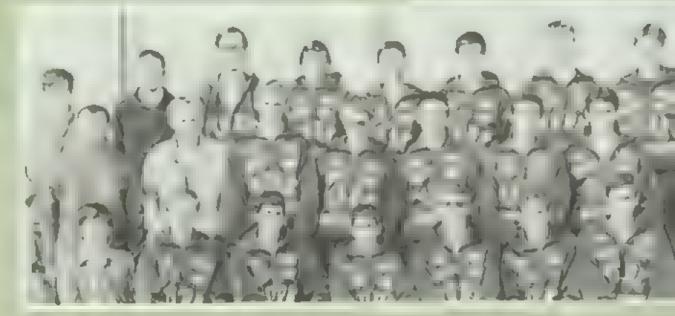

Coming off the line, senior Kali Kidler looked to take the lead in a non-conference meet with Birth South and Paratine

VARBITY CROSS COUNTRY Front row J. O Routke, S. Boyd, R. Regulate R. Regulate, M. Fragie, D. Haller S. Reid Second Row The William II 1000

The depth of the varsity team showed up in the juntor-varsity race, where senors Mark Lisy and Pat McCarty took first and second for an easy victory. The majority of the runners in the race were from York

The girls cross country team, only in their third season, has yet to build up a program comparable to the boys. But as coach Mark Cannon commented, "I hope we can establish a winning program as quickly as possible."

The girls came to the conference meet knowing they had no chance of winning The top two teams in the state, Downers Grove North and Glenbard West, are in their conference. Despite having been beated handly by Oak Park earlier in the

season, their goal was to beat the Huskies this time. The York harriers were successful as they slipped by the Oak Park girls on the efforts of several of their runners who ran their best race. Sophomore Chris Gorman, who led the team all season and was voted Most-Valuable, placed seventh. She was followed by a pack of three girls: Tracy Gorman in 20th, Tammy Timmer in 21st, and captain Kali Kiefer in 23rd. Fifth runner Peggy Berger placed 29th. Berger's success was a surprise to Cannon; She is a track sprinter out for cross country just to get into shape

"I was very pleased with beating Oak Park in conference. The girls had their best efforts of the season, but I would have like to have beaten Hinsdale Central also "

For the third year in a row, Downers Grove held the "mythical state meet" for the girls, since there was no sanctioned state meet. Nevertheless, the Downers Grove Invite attracted most of the top teams in the state. Forty teams compet-

The course was very hilly, something the York girls were unused to Chris Gorman placed thirteenth, but second runner Kalı Kiefer was far behind in 72nd Tracy Gorman and Chris Barnes were still farther back. The team took sixteenth

The girls cross country team is long way from the program that Mr. Newton has developed. But Rome wasn't built in a day and neither are cross country teams.

With the fane cheering them on, seniors Rob Ragustn and Jim Hedman kick hard into the chute. The Dukes regained their conference title from the Grenbard West Hilltoppers in the meet held at East End Park

There were several long hitters on the Variety team and Bob Szyper was one of them. They had an advantage over their opponents on the long par 4 south as this hole, the first at St. Andrews Golf Course.

#### On The Edge Of The Hole

At the end of the day, every player and coach who had participated in the conference meet were gathered around the leader board. When the final results were tallied, York had stolen a third place finish from Lyons Township and finished just three strokes behind Glenbard West

The site of the conference meet was Cog Hill, which has a combination of long open holes and short tight ones. Because of this, both long hitters and finesse players have an equal chance. The varsity golf team was able to tear this course apart Rounds of 79, 79, 79, 80, and 82 by Todd Beja, Greg Selig, Mike Donoven, Dave Rylowicz, and Jon Carlson gave them a total of 399, with which Coach Thompson was very happy

The rest of the season was marred by inconsistency and psychological problems. Each player experienced meets in which shots just missed the green and putts would not drop. Coach Thompson

commented, "The varsity was intimidated by power houses such as Hinsdale Central, Glenbard West, and Lyons Township." So despite their great talent, they just missed putting it all together and having the ball drop in the hole

In every meet during the season at least five freshmen played on the sophomore team. "The purpose of a sophomore team is to gain experience," said coach Thompson. By their freshmen year the golfers had a sound knowledge of the basics, but needed work on the intricacies of the game. Putting, strokes, distance judgement, and shot accuracy were a few of the things the team worked on. Unlike their varsity counterparts, the freshmen were not intimidated by their opponents even though they won only two meets Several golfers who played consistently were Greg Maxon, Kevin Kriete, and Tim-Schultheis, all freshmen

On the first hole, a par 4 dogleg left at St. Andrews Golf Course, Senior Jon Carlson chooses a three wood and hits a solid 200 yard drive in a meet against. Willowbrook. York won the meet hands down despite the inciement weather.

With poor showings in a tough conference and a disqualification in the district tournament, it was a dismal season for both the varsity and junior-varsity volleyball teams. But, as Coach McBroom contends

#### **Consistency Counts**

"We had tremendous team spirit and effort this year," enthused varsity voiley-ball coach Nance McBroom, "Volleyball is a team sport, so everyone must work together in order for the team to be successful." Although the record shows a poor standing, Coach McBroom believes that this is only because of the difficulty of play in the conference. "Hinsdale, Oak Park, Lyons Township — they all are extremely good teams. Next year I hope to develop the kind of power-hitting it takes to beat these teams. But I was very pleased with the consistency of play by my team."

Two seniors were cited as outstanding players: "Betty Beckman has been an excellent scorer throughout her four years of playing and they chose her as their captain this year. Shella McGuire, who was a transfer student from I.C., always gave 180% effort to the team," stated McBroom. Other top players included freshman Bonnie Moskovitz and junior Elleen Cronin. "Eileen and Betty Beckman are my two setters," explained McBroom. "I feel setting is one of the most important aspects of the game — the setter can make the spikers look like All-Stars."

The most exciting game of the season was against long-time rival Oak Park. "I feel we played our best at that game,

even though we only scored 11 points," said McBroom

One unfortunate incident occured at the district finals in a game against Addison Trail. York was favored to take second place in the tournament, and they had a good chance for first place. Although York did beat Addison Trail, they were disqualified for suiting up one too many players. "It was a District Championship down the drain," moaned Coach McBroom. "Next year I hope I won't let that happen, so we can end the season much more happily." With twelve of fourteen players returning, the prospects of this seem good.

The Junior Varsity team's season went much the same way: poor conference showing, with most of the wins occurring in non-conference play. The most valuable player was Margie Maloney; Joan Smith and Mary Cihiar also contributed much to the efforts of the team. Said Margie, "We had some disappointments, but for the most part it was a fun season When the team works together it makes the game fun." Sophomora Joan Smith summed it all up when she said, "If you want to learn how to play a sport well with other people, try out for the volleyball team!"

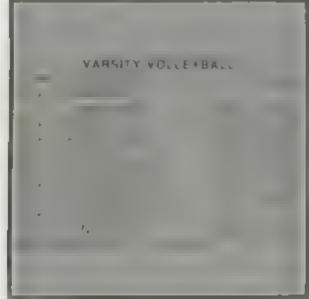

A epike by sophomore Margis Maloney set up the point which put the team in position to defeat non-conference foe Williambrook

High above the heads of her Willowbrook counterparts, Angela Czubak slams a spike to the floor York was able to dominate the net and defeat We owbrook

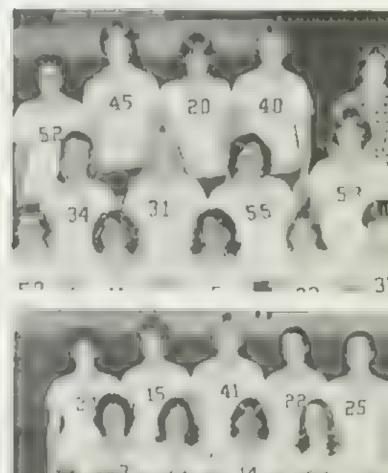

Outnumbered two to one, Cathy Cichelli fought a losing battle at the net. However, the one judge called a net violation on Hinsdale Central and York received the point

## Close, But No Cigar

The gymnastics season was characterized by improvement. Recovering from the effects of a rebuilding year and the loss of several of their top performers, the varsity finished 10th in state. The sophomores repeated as conference champs, while the freshmen finished .500

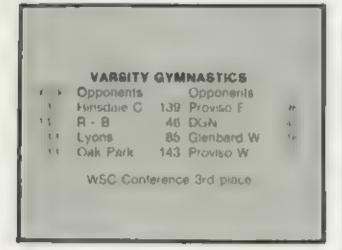

When two of the top six teams in the state are in your conference, it presents a challenge which can be a motivating force or a reason to let down. The varsity team responded by qualifying five gymnasts for the state meet and finishing tenth overall

Prior to the state meet, John Baluff was ranked second in the pommel horse competition. However his performance in the meet was good for an 8 65 score and 4th place. Joe Leo also competed on the horse, but missed the finals by .05 of a point and finished 11th. In floor exercise, Mike Cavasos finished in 7th, just missing scoring a point. Cavasos was the only gymnast who took first place in the conference meet. Also taking the trip to state were Steve Vrany in Alf-Around and sophomore Dave Moskovitz on the long horse

The sophomore team lost their first meet of the season to Hinsdale Central but they regrouped and concluded the season without another loss. Led by Dave Moskovitz, who won five events, and Ray Schwinig, who captured first on the still rings, the Barons score beat Hinsdale in the conference meet, scoring 106 to Hinsdale's 93. That championship combined with a 7-1 record gave the sophomores the conference crown

The freshmen squad was not quite so successful, but coach Dave Wetta insists, "They abound with talent." He contends their lack of stature and background were the reasons for their 3-3 conference record. In each of their three losses the margin of defeat was minimal, In some cases only tenths of a point. The team was paced by Brad Santucce and Tim Schulters, both working All-Around Schultels also competed as on the sophomore squad in the conference meet

At all three levels the gymnastics team experienced a surge of talent. From Tim Schulters of the frosh squad to State finalist John Balluff, every one played a part in the teams success. As coach Wetta stated, "Every member contributed to the team's overall performance."

Winner of the district and sectional growns on the pommel horse, senior John Ballutt performs a difficult maneuver in his routine which aided in send ing him to state. Balluff was considered a contender for the state title, but finished a disappointing fourth.

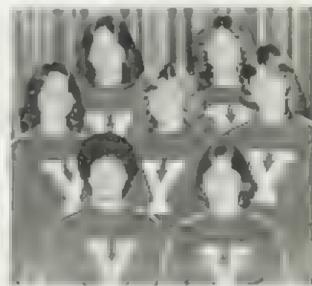

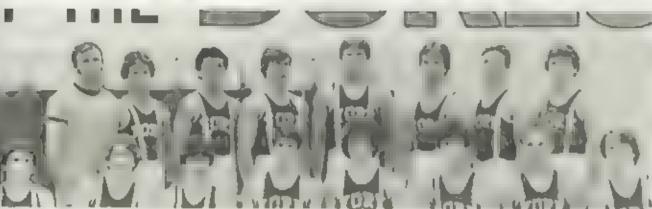

Though the handstand on paraller bars is primarily a power move, it also requires perfect form and intense concentration

Pre-meet encouragement from teammates helps to put Bill Ferguson, Dave Moskovitz, Steve Vrany and Marty Larsen at ease before the sectional meet The team finished a distant second to Addison Trax in the meet and just missed qualifying for state at large by two points

#### Lack Of Depth Slows **Swimmers**

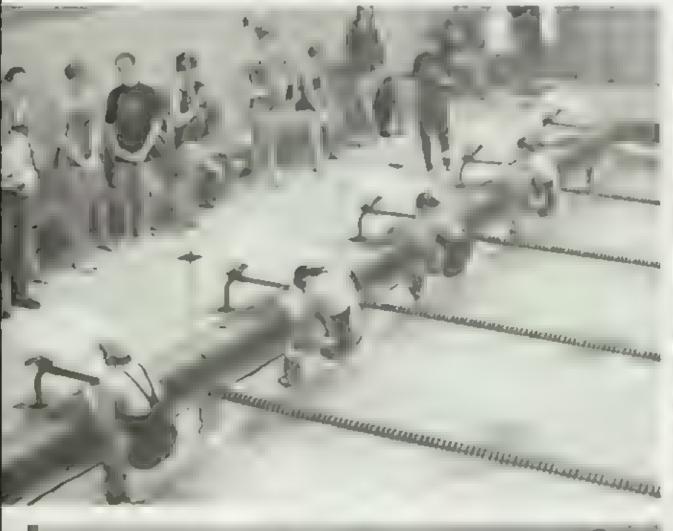

"A good front line but a tack of depth" was the description Coach Balcerak used for the Girl's Swim team. "We had four outstanding swimmers who went down state; they could hold their own with any team," commented the rookie coach The four swimmers who carried the team and represented them down state were Sheila and Rosanne Cronin, Mary Rusnik and Ellen Oswald Rosanne Cronin fared the best out of the bunch, finishing 8th in the backstroke and 7th in the 100 yd butterfly. All four girls swam in the free style relay and placed a very respectable 13th

Swimming practice takes up a majority of the girl's time as they all work themselves to the limit. It is Coach Balcerak's

job to find this limit

The coach runs practice employing "Interval training," which consists of swimming laps with shorter and shorter rest periods. This kind of training is really grueling according to Coach Balcerak "Some times a few tempers flare but most of the time they really help each other."

Diving improved Immensely this year along with the rest of the team mainly because of Star Bertelle, the premier diver in Yorks short swimming history. She was the only diver ever to take 1st place in a meet. Obviously York has the talent to become a major swimming power; their record proves this. It's just a matter of getting the girls to try out

The reverse dive is one of Star Berteile's special ties. Hitting it on the button enabled her to take a I ist place finish the first time II had been done in York a diving history

Anticipation hange heavily over the pool as the gun is about to sound for the start of the 100 yard backstroke. York did not win this race but made a respectable showing against Hinsdale Central

## Winning

The standing room only crowd filed into the York gymnasium on January 6th. They were there to wilness the hattling of a muck improved York team Versus Proviso East, a team consistently ranked in the top three in state. The game was dominated by the Dukes, at one point in the fourth querier they had no 6 point lead. But in the last remaining seconds Proviso was only trailing by one and during a fierce battle under the boards, they managed to tip the ball in Final score: York 56, Provise 57./

"It was heartbreaking, but we didn't linger en k." said soach Dick Campbell, "We bounced off that loss und continued en eur winning ways.

## And No Relief In Sight

And winning is esselly what the Variety Dukes did all season. Loning only three games in conference play (Iwien to French East and once to Lyone) the Dukes ended their season: 20-4 over-sil and second in the conference.

Abandoning their outside shooting Olirabegy of a year ago, the vacuity concentrated on their inside men. meinly there Paul Schultz, a junior, and senoir Jay "Bird" Jordan.

\*Those two complimented each other well as fer as talent goos," remarked Compbell, Behaltz was the second leading scorer in the contenenes, everaging just under 20 points per yames. His shooting and tordan's

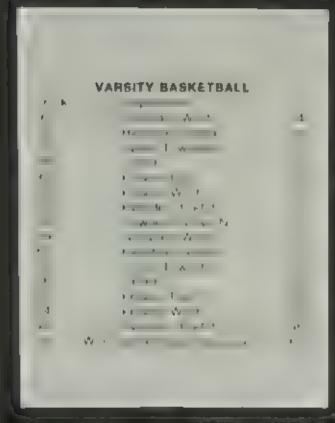

outstanding passing and rebounding won both of them all-conference honors.

Backing up Schultz and Jordan were forwards Henry Steizner and Jeff Davis as well as Scott Theims, the team leader and star guard.

As the Dukes piled up their wine thin musen, a tittle known fact emerged from the record beaks. Only three times in York's history had the basketball leam won twenty games or more. This year was the fourth, o

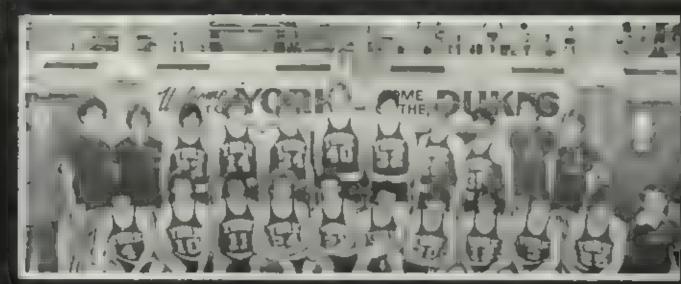

"Winning the twenty gemes is what pleases me most this year," conterroid Campbell," We expect to repeut this next year and in the years to follow."

The first time York and Provice East met was all irus heartbreaker. With seconds remaining Provise East teek a victory from the grasp of the Dukes and ellenced the cheering fanc.

Bahauman, J. America, S. Thèpma, J. Aureira, K. Bert, P. Prespert, J. Levin, K. Gotdeennot, M. Hunke, Birch Pice Y. Henrushoon, J. Barrell, J. Rodgers, C. Sanders, S. Wright, E. Whisi, J. Basin, M. Johnson, H. Steizner, P. Schutts, W. Cleeton, Gaeets Gampbell.

in basketball, it's important to wait for the right-whot. Finding an opening, Kon Schlemmen-drives up the middle for an easy layup.

Shadowed by a Provinc East defender, guard' Scott Thiems drives down the lane for a backet and a feel shot which he sank.

SOPPOMONE MARKETBALL TEAM From June M. Bragar, B. Poplerson, L. Bleitmar, P. Fringane, T. Vanatis, L. Beargelon, M. Bracker, Bock Pure Gasph B. Thempson, A. France, M. Leone, K. Otto, B. Johnson, B. Brissomolette, E.C. Hensen, R. Stitsen.

Sood movement on the floor by the entire teams produite in the brookdown of the defence, and sephemore Steve Johnson is left with an easy.

#### Winning And No Relief In Sight

The samily's success cour the sushemore learn in the term of two outstanding players. Mike Wyllie and Booth Wright were moved up to strongthen the warnity bonch and then Barons suffered the loss, But coach! Dave Thempson insisted "We mally the play well, even though the record was a bit disappointing."

There were some bright spots and close games for the Sarons in a helly contested panie against Province East, they came within two free throws of winning.

"We played so hard all the time, but we failed to get some big breaks," commented Thompson.

Chris Hansen and Brain Briesenmeister less the team in scorino white Britis Johnson was their top rebounder. "These guys will aid the varsity next year," praised Triemps tem: "There is some real talent among them."

A hasketball player must get a start

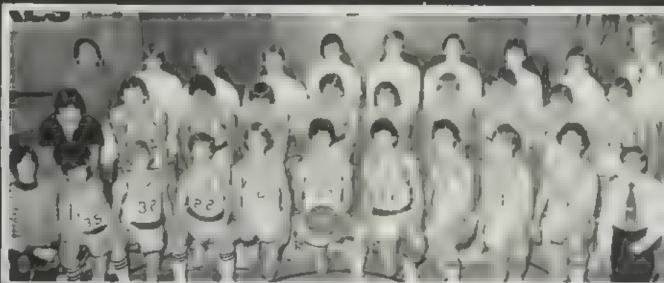

The surrivy's success cost the somewhere and in this case it's with chemore feam in the form of two two ovistanding freshmen feams.

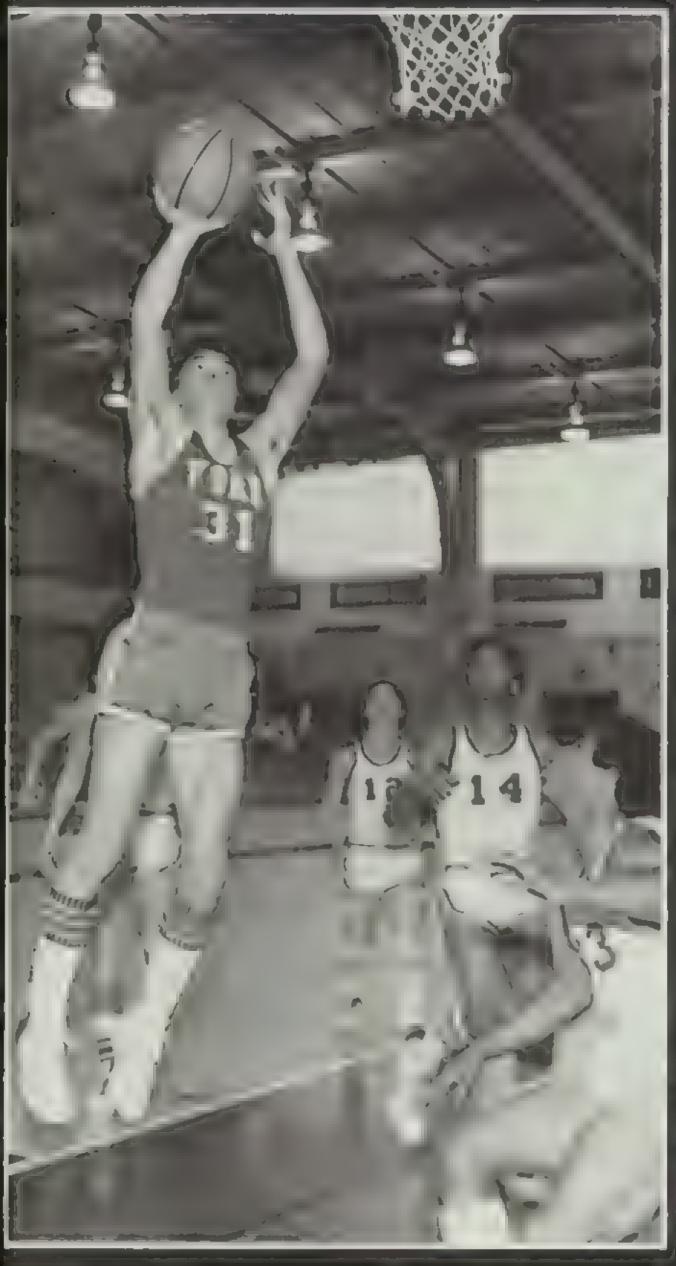

According to their coach. Mark Sibley, the Ateam has funtastic talent and the players compliment each other particulty

"They are all for each other and are unselfine about grabbing glery," registed Sibley. "And they have unbelieveable confidence."

Led by Steve Johnson, Tom Beinker, and John Strange, the serie had a very competitive team and a strong bench to back up the starters. "Their sheeting was superb," prolead Bibs ley. "They were able to put points an the board."

The big wins for the team were over Provise East and Hinadale Central at they compiled huge quantities of points against their eppenents. The only one who stopped them with Downers Grove who won the conference.

springs in his logs enable freshmen Jeff Zec to grain a lob pass and make the easy turn pround jump shot from the lane.

the Bert effensive attack. Freshman Mike Lynch was one of the top fresh forwards on the squad.

#### Winning

#### And No Relief In Sight

The freshmen 5 team, under the coaching of Hill Sir, continued the nil around success of the backetball team this year. "This freshmen team: is the best York has had in my many years," said Sir.

The club was led by guarda Paul Finesh, Mark Peterson and forwards Morty Kesin and Jell Milker, Coach Sir felt that having these players as well as the rost of the team stay healthy was a big factor in the club's Buccees,

The fresh played tough too, winning two games, Addison frail and Hinadale Central, in overtime, "Winding in overtime showed what shape acter we had," commented Sir.: "We never choked in the clutch."

The winning fever caught the girls teams this year too. Despite the young varsity team, four startors are

in the conference. "We're a real aggressive club," Goach Gothern pold. "Walro an "up" team:

After easily winning the West Chizago Tournament, they began their assault on the conference. Their harwat victory was a ene-point win ever Lyons Township but the Hilltoppers of Glenbard West proved too much for them to handle.

The squad was lad by all-conference stare Karen Kinselia and Laura illertinek, averaging to and it's points per game respectively. Aiding them was Eileen Cronin and Christine Gorman, who had the unitelleventle hick of chedowing the apparents top: **guard.** "They're a together group and they will get better," reflected Coth-**OFFI** 

The junior-varsity had a great sea-

underclassmen, the team took fourth//son under the direction of Coach Cochran, "We were unified, one big family," he said. The piric, who wen their conference, were led by Shand non Luke, the star woorer and rebounder, and guards Kelly Spaulding and Lise Hoelsher. Hoelsher and Luke beth secred over-100 points during the season.

> The team played tenacious defense and because of their lask of size, refind an appeal for success. The 2.V's victory over Lyons Township to a physical pame was the highlight of their season, as well as winning their own York JV Tournament,

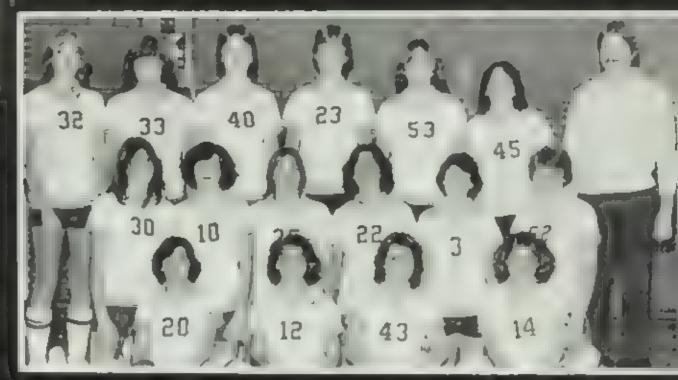

> "The girls adapted well to the game", Coach Cochran commented. "Girls baskethall is up and coming in high achool."

> And it seems that basketbati on all levels is a grewing power at York.

# **Holding Their Own**

Strike one up for the freshment While the varsity's record was dismal and the sophomore's only fairly respectable, the freshmen wrestling team compiled a 7-1 record and took second place in the conference. Commenting on their success, Coach Grider remarked, "They were the best group I ever had."

The varsity grappier's season was the antithesis of the freshmen's. But despite their 1-7 record, they had several bright spots. "The highlight of our season had to be taking 5th place out of 16 teams in the Rich-East tournament," commented Coach Kapheim, "Some of the best teams in the state wrestle there."

The strong performances of three individuals, Carl Palmer, Tom Kiatt, and Jim Matson, were another bright spot for the varsity. Each of them won 20 or more victories this year and Klatt and Matson both compiled over 50 victories in their

wrestling career. This feat places them among the top six on the all-time list for total victories at York

Aside from these three outstanding seniors, the varsity was a young team comprised of a lot of juniors and even some sophomores. "We hoped that they would come along faster than they did," reflected Kaphiem. However a big Improvement in their skills and confidence was seen as the season progressed

The sophomore wrestling squad didn't post a .500 season either but they did manage to win three of their conference meets. Edging Glenbard West by one point and knocking off Hinsdale Central were big achievements. "We weren't supposed to win either of those matches," commented Coach Power. "Our record team, and they worked hard and develreflected a lot of hard work."

Since several sophomores wrestled on the varsity level, there were only ten guys left on the squad at the end of the season Leading them were Mike Stevens and M.V. P. Tom Guenther; both compiled 11-4 records. Gasper Flores was the best lightweight and had the most pins

After losing two of their first three matches, the freshmen squad settled down and ended with a 15-4 record overall and a 7-1 conference record. They also won the Hillcrest-Hawk Tournament and the Conant Tournament

Mike Perrino became the first freshman ever to win 20 matches; he only lost twice all season. Other standouts on the team were Guy Handke, who was 19-4, and Mike Grave, who was 18-3. Commenting on his successful squad, Coach Grider remarked, "They really were an emotional oped very good technique."

# Pin Splitters

Only forty-four pins stood between the girl's bowling team and a district championship - forty-four pins and Aurora

In the conference meet it was Proviso West who kept the bowlers from a championship. Even with two bowlers, Colleen Madigan and Pat Wisvader on the all-conference team and two others. Heidi Luloh and Mary Mitacek named honorable mention, the Dukes were not able to top the Panthers. "All our conference matches were close," commented Coach Vine, "but Proviso was just a little better."

Aurora West was just a little better also, despite Madigan's 531 series in the district showdown. Winning districts would have meant a state meet berth to the York "A" team bowlers

But Miss Vine was not one to put down her team for the missed opportunity "The great thing about this team was

their continually strong and consistent play," she praised

216 pins in ten frames was the top score posted by the "B" league; It was proudly bowled by York's Kathy Hutchison against Lyon's Township. Unfortunately, her effort was not repeated against Proviso West so the same downfall which struck the "A" team plagued the "B" - they finished second in the conference to Proviso

The "A" and "B" teams rosters are constantly changing with players switching back and forth between teams. This is done to strengthen a team which has been faltering. Although there are two teams, there is no competition between them. Coach Vine remarked, "The girls help each other as much as they help themselves; that's what makes this team so close."

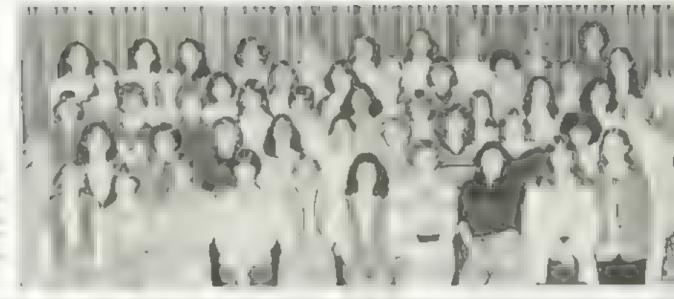

YORK	OPPONENT	
0	Lyons Township	- 4
0	Proviso West	- 4
4	Downers Grove North	Ď
3	Hinsdale Central	- 1
I	Lyons Township	3
2	Proviso West	2
3	Downers Grove North	- 1
4	Hinsdale Central	0

The top score in the league for "B" team bowlers was held by York is Cathy Hutchison. Her 2.16 was 4 pins better than her nearest competitor.

A victory over Lyon's Township assured York a second place finish in the conference. Senior Beth Maloney was one of the factors contributing to the defeat of Lyons at the Hirside Bowling Alley.

#### **Sports Of All Sorts**

Extracurricular activities are not always synonymous with SEX, they can also indicate school-sponsored clubs. A majority of the student body enjoy participating in these organizations for exercise and competition. These clubs range from Lettermans Club, a promoter of good sportmanship, to the Hockey Club, a member of a highly competitive league

Three \$300 scholarships are awarded to deserving senior athletes by the Lettermans Club each year. The money is raised by contributions from local businessmen and from profits of the pop machine situated near the boy's locker room. Besides allotting scholarships, Lettermans Club gives meaning to wearing a

Hard work isn't always paid off by scholarships. Such is the case with York Intramurals, Intramural Basketball, despite being on an Informal basis, is highly competitive, Every Wednesday night, boys of all ages meet to play basketball for blood. The goal set by each team is to win the class championship, a highly regarded honor

The girls version of intramurals is presided over by the Girl's Athletic Association. Some sports which fall under their jurisdiction include basketball, badminton, bowling, and tennis. A major problem. GAA has encountered is declining membership due to increased involvement in interscholastic sports. This trend is expected to continue because of a new rule recently enacted which awards girls letters based on merit rather than participation, Junior Judy Cwiklinski, a member of the executive board, feels that although

membership is declining, GAA will continee to be an important factor in the girls P.E. department.

A select group of hard working members form the core of an outstanding modern dance production performed by the Orchesis Club. Without the dedication of advisor Mrs. Schmit who spends many hours after school supervising practices, such a high quality show would not be possible. Members choreograph their own dances which are always creative and interesting.

One club in which attendence is increasing immensely is Skl Club. Thirtytwo students and two chaperones found Park City and Snowbird, Utah, to be a skier's paradise. Twelve inches of powder and a solid base made the trip a total success, 422 dollars was the cost for seven days of skiing. Seniors Todd Porter and Doug Roberts organized the whole affair, and lessons were offered to all participants; as a result, injuries were kept to a minimum.

Winter sports are very popular at York and the most successful is the Hockey Club. Year after year York produces an excellent hockey team without being subsidized by the school Last season under the leadership of Captain Rory Real, the team dominated their division, won the playoffs and took 4th place in the state

Each of these activities play an important role in the development of sports at York. Separately they may not seem too important, but together they more than equal the regular curriculum of girls and boys sports

SKI CLUB Front Row: M. Kucera, T. Champagne Second Row; J. Prafet, D. Flemming, T. Porter

A steep incline offers John Kula exclement and challenge. The Ski Club's trip to Park City, Utah is the main event of the year for members

#### Crowd **Pleasers**

The roar of the crowd at a sports event can mean one of two things. Either the game is very close and exciting or the cheerleaders, with their chanting and cheering, and the pom-pon girls, with their high kicking dance routines at halftime, are rousing the fans

Being a cheerleader isn't always very easy, however, owing to the sometimes murderous task of keeping the crowds spirits up throughout the game

"It gets pretty discouraging when the team is doing bad," commented Paula Pilolla. "During football we had a heck of a time trying to keep the crowd going strong. At basketball games the job is easier and the crowds are more alive."

As Parn Toliver explained, "The higher up the squad is the higher up the crowd is, which in turn has an effect on the team that we're cheering for," Henry Stelzner, a member of the basketball team, agreed "It sure teels good when you've got the crowd behind you. We feel at ease as a team and in turn we play better."

At half-time of home football and basketball games the fans are treated to twenty-five talented young ladies known as the pom-pon girls. They usually come out in a straight row like a chorus line and perform a routine to selected music Members of the squad meet first period every day to create and practice these original routines

Sue Carlson commented on the squad, "We've been getting along great this year. We've all been working hard together and the result is better routines."

Getting up and performing in front of so many people isn't as easy as the girls make it look. By the end of their routine, however, nerves usually have given way to relaxed smiles. The half time performance is easier for the girls who have been on the squad for two years. Sue Tarnawa explained, "I don't get nervous this year because it's my second year and I'm more confident."

All of the hard work and practice that go into perfecting a routine is evident when the squad executes another highlypolished, professional performance. Mary Kindelin said that the whole squad feels "a lot of satisfaction" after a successful routine. As Sue Carlson added, "the applause at the end is what convinces me that the two weeks of work and preparation were worth it."

An informission in play provided the cheerleaders with a chance to entertain the crowd and raise the audience's emotions to a higher pitch

The traditional kick line is always a real crowd pleaser. At the first precision high kick, the lans never lail to respond with enthusiastic cheers

The confidence and obvious enjoyment with which the Pom-pon girls do their routines make for a polished, exciting performance at half time

Enthusiasm at the State Cross Country meet is infectious when freshmen, sophomore, and varsity cheerleaders join forces to get the crowd cheering

At times when we wak down the halls, there seems to be so many unfamiliar faces. But during fire drills, freezing together in the cold; at plays, giving the Sound of Music a standing ovation; and at sporting events, making as much noise as possible during the York-Proviso East basketball game, we find ourselves with all kinds of people, sharing the same experiences.

A viritual timesting pot<sup>11</sup> for a first sporting as a first transfer at a first sport at a

#### It's a Bird, It's a Plane, It's

Everyone knows the faculty at York are a dedicated lot who spend all their time at school. Right? Wrong! Sure they're dedicated, but between classes and report cards, leachers occupy themselves with a lot of different things

Two of the more athletic faculty members are Mr. R. Warner Brown and Mr. Don Potter, who can be seen playing tennis together at the Courts, Mr. Tony Portincaso is a professional fisherman. Other professionals include Mr. Larry Urbaniak, a minister, and Mr. Paul Rainey, a musi-

Mrs. Helen Westlake has had books and magazine articles published. One of the more energetic staff members, Mr. Dominic Belmonte, is rumored to have tried four jobs last summer --- including those of taxi driver and paper boy

A favorite hobby of teachers appears to be flying. Mr. Harold Randol flies, and Mrs. Patricia Anderson is a private pilot

who has been flying for two years. Mr. Del Meitz enjoys navigating airplanes and searching for small islands in the Pacific Ocean. Mr. Meitz deserves special applause because he has been teaching here at York longer than anyone else -32 years

Two other teachers diversions include raising, training, and showing Doberman Pinschers, as Miss Joyce Walker does and being a Boy Scout leader, which both Mr. Owen Wrzeszcz and Mr. David Johnson are. Mrs. Lois Charleton and Mrs. Dolores Saunders participate in drama, as is evidenced by their fall appearances in The Sound of Music, and Mr. Mike Torney works with leaded and stained glass

It's obvious that these, and many other, teachers are very active outside of school. It just goes to show that It's not just a faculty here at York - it's SUPER FACULTY

#### The Teacher Test

How well do you know your teachers? Take the test below and find out. Each of the phrases on the left is said frequently, occasionally, or every now and then by one of the faculty on the right. Check your answers in the box and see how you rate.

- "This is **not** Great Americal" (Hint: Soup)
  - 2. "You are all a bunch of boobies."
  - 3. "You realize that."
  - 4. "Suspend disbelief."
  - 5. "Bits of lore."
  - 6. "Ta Da."
  - 7. "Break a leg."

    (Hint: Not the school
    - (Hint: Not the school nurse)
  - 8. "Even Babe Ruth swung and missed."
  - 9, "Mellow"
- 10. "Bug spray can be exciting!"
- H.
  - 1, "It's a piece of cake."
  - 2. "Grumble, grumble."
  - 3, "Right? Wrongl I'll tell you why."
  - 4. "Don't be your own worst enemy."
  - 5, "Chop-Chop"
    - (Hint: Not a Karate teacher)
  - 6, "I don't think we have the time!"
  - 7. "I did not go fishing last weekend."
  - 8, "Factoring is fun."
  - 9, "Neat" or "Trivial"
    - (Hint: Try to spell his name; just try.)
- 10. "That's more better."
- 111
- 1. "Oky Doky"
- 2. "You're gonna love this film!"
- 3. "This is not a Sunday School picnic."
- "OK Let's get going."
- "Small, humble test."
- 6. "When In doubt, throw it out."

  (Hint: Dr. Jekyll and Mr. . . . )
- 7. "There is no such animal."
- 8. "Excuuuse mel"
- 9. "You mental midgets!"
- 10 "I'll drop you right through the floor!"
- IV.
  - "We must transcend these minor difficulties."
  - 2. "Beesee ready."
  - 3 "No te preocupes."
    - (Hint: Its a Spanish teacher)
  - 4. "Un animal teroz que vive en Africa."
  - 5 "OK gang"
  - 6 "The pack is back"
  - 7 "Le soliel se leve "
  - 8 "Latin is fun."
  - 9 "Boys come back here. Give me your I.D."
- "I'm only doing this because I love you."

# Out On

What do you do when you're feeling rowdy and restless? Cruising offers an alternative to playing Yahtzee or watching Fantasy Island. Now for the big question Where? Around, everywhere, anywhere, and all over are some of the more specific answers.

For local excitement, there's downtown Elmhurst if you feel the need to get away from it all, there are neighboring suburbs or if you have a full tank of gas— Chicago. Rush Street, past all the night tile, and down Lake Shore Drive are popular routes to follow downtown

# The Prowl

In Elmhurst, If hunger or thirst strikes, Stone Cottage Pub, Oliver's Pub or Pizza Hut are close by. Perhaps you find yourself in a constructive mood. There are always houses to be TP'd and cars to be soaped. Some cruisers may prefer to venture out to Peabody's Tomb, a monastery in Oak Brook. Religion, however is far from the cruiser's minds. The challenge of escaping the monks and the scary surroundings is what makes Peabody's so popular. Fear is also provided on a dark night by a "Haunted" doll that stares blankly at passers by from the front window of a house

Romance also plays a big part in the choice of cruising destinations. Ken Dort prefers to go "where the surf is low and the chicks are high". However, womans lib is hitting even the cruising scene. Many girls like to pick up guys or circle a block where a certain someone just happens to live

If you are cruising on a Saturday night and find a pair of bright headlights illuminating the inside of your car, you're probably being followed. Following or being followed is one of the more popular and exciting of cruising activities. These cat and mouse chases can be found almost

anywhere on a weekend night. In the midst of a chase, drivers often ignore basic rules of the road. Cars careen around corners, dash through red lights, and go the wrong way down one way streets.

Whether it's following a car, T P -ing a house, or horking outside someone's house, cruising is a special kind of enter tainment. Some regard it as a weekend ritual and others think of it as a way of killing time. But whatever the reasons cruising is still widely practiced — and sometimes even enjoyed

## **Dressed To Kill**

York High School (AP) The fashion scene around York is a balanced blend of popular fashions from the past, plus some exciting new trends. The looks range from casual to ultra-classy, with a strong emphasis on a neat, put-together look

Jeans remain the staple of everyone's wardrobe, but the newest jeans around bear little resemblence to the sloppy bell-bottoms of a few years ago. Extra-slim "cigarette leg" jeans are the current fad among the girls. For a casual look, the jeans are rolled up and worn with earth shoes or clogs; high-heeled sandals or backless mules are worn for a dressier look, Boys' jeans, too, have gotten considerably slimmer; They are worn with

some form of an earth shoe or that old friend, the gym shoe. Girls top their jeans with anything from a t-shirt to a silky blouse, while boys stick to t-shirts and other less dressy shirts. The emphasis on slimness has also spread to other pants whether they are tweed, cotton, wool or cordurey.

Another new item that is currently en joying popularity is the vest Girls wear them with just about everything, from eans to skirts to dress pants. The vests come in all shapes, sizes, colors and fabrics. It looks as if vests are destined to join the ranks of the dependable old standbys, like blazers, cowls, wool skirts and boots. These are well-constructed

clothes that will still be around after other fads have faded

Gold and silver beits, classic goldtone jewelry, and clutch purses are accessones that gained even more popularity this year for girls. A few daring souls can be seen wearing anklets with sandles, but this look has not become widespread. One accessory relatively new this year is the blouse scarl that can either be tied up or knotted at the ends and hung loosely. Skinny little ties and bow lies are also seen worn with tuxedo shirts.

At least to some extent, students seem to be more clothes conscience than their counterparts of recent years. The result is a look that is neat, pul-together, and often highly stylish

### Friends From A-Far

For the first time in the history of York our school has been privileged to host not just two, but four foreign exchange students from countries around the world. Two of the exchange students, Jannette Aguitar from Mérida, Yucatán, México, and Chris Schäffer from Hamburg, Germany are involved with the AFS Exchange Program. Lena Nielsen from Vasteras, Sweden, is visiting York on behalf of the Sweden-American Exchange Program, and Ana Maria Miro is representing the Experiment in International Living Program Ana is from Caracas, the capital of Venezuera

All of the exchange students said that they were besieged with questions about the social life in their home country. Lena who is staying with the Merrian family commented that week-ends in Sweden are usually spent either horseback riding or at the beach, where the temperature is

warm all year round. Discos that feature American music are popular hang-outs for groups of friends in the Yucatan and Hamburg

Besides being a host school, York has a so sent three students abroad to learn of the people and customs of other countries. The three lucky students involved in the program were Craig Novak, who lived in Relabuhn Keiag, Malaysia for one summer, Julie Fabris, who experienced life in Sucre. Bolivia also for the summer months, and Judd Allen, who resided in Durazno, Uruguay for one year

Hosting exchange students at York has proved to be just as interesting an experience for York students as for the exchangees. Most students have discovered that although the exchange students are from all parts of the world, interests, goals, and concerns shared by teenagers are the same worldwide.

# "He's Everything To Me"

Imagine soaring down Colorado slopes at breakneck speed, participating in sports with other athletes in Hawaii, or horseback riding in the mountains of North Carolina. These dreams can be turned into reality through three organizations—Young Life, Campus Life, and the Fellowship of Christian Athletes

Young Life is a non-denominational Christian outreach to high school students. Leader of the Elimburst group, Tom Moucka, expressed "Young Life is a place for anyone to go and feel we comed, to have a good time and to discover an alternative way to really live through Jesus Christ

Young Life has established summer camps throughout the country. Most nights, skits and sing-a-longs are provided to help campers feel relaxed. At each camp the word of Jesus is given at night through a leader's talks. One of these camps is Windy Gap, nestled in the Blue Ridge Mountains of North Carolina. The camp offers horseback riding, honda trails, swimming, and even a 100 foot side heading into a take. The camps usually last about one week and are often considered to be, "the best week of my ite!"

Another religious orientated organization is Campus Life, a smaler group where personal feelings are shared with other kids around the same age. The meetings are held every week, on Tuesday nights in kids' homes, with games and group activities. Every other week the club holds "insight meetings" where Jesus' life and other topics are discussed. Laura Sutherland commented, "Campus Life is a great place to meet new people. I have a good time there, and I get a lot out of the discussions on Jesus Christ.

The Fellowship of Christian Athletes is yet another religious organization. It is in tended to supply Christian appreciation for athletes. Each meeting, held either at York or in kids' homes on Thursday evenings, consist of group discussions on to pics ranging from issues of today to hap penings in the Bible.

FCA also holds camps each summer At the camps there is competition in sports and nightly talks are given by ath letes such as Roger Staubach and Doug Plank, Senior basketball player Matt Schousen commented. "FCA gives ath letes a chance to discover there is more to life than basketball It gives us an opportunity to realize problems we have are

An atmosphere condusive is favored makes ECA

\* 164 d K to k

common with other athletes and we try to help each other

All three organizations are nation -wide though each group deals with people as individuals. The groups are set up to have students meet new friends and to acquire a more casual way to learning of Jesus life. In Young Life, Campus Life and The Fellowship of Christian Athletes, fun is had in a Christian atmosphere.

# Cream of the Crop

Word slowly filters throughout the school, Sooner or later, curiousity gets the best of almost everyone, and most students make their way to Room 160-Student Accounting Class rank is in. For probably the majority of students, class rank is a kind of joke, the big question being who will have the biggest number But for the top ten seniors, class rank carries a lot more meaning, showing the accumulation of years of hard work

How did they do it? For some, getting into the top ten was a result of hard work and a lot of studying. Betsy Krueger, with plans to major in Biology, commented, "I hope the transition to college work will be easier because I worked hard in school." Ken Dort agreed, saying, "Being in the top ten isn't due to luck. It's a result of hard work." In addition, he is an all sea-

son athlete on the soccer, basketball and track teams

Despite their good grades, all agree that there is a lot more to life than just studying. Mary Tripsas revealed, "A high class rank does not necessarily come from studying a lot but from studying efficiently I spend comparitively little time on homework." She spends much of her time with gymnastics, band, and debate

A few of the top ten work for themselves and not specifically for a high class rank. Phil Williams, a potential biology major stated, "I get a personal satisfaction out of knowing that I'm doing my best." He spends a large portion of his time on cross country and track and placed 14th in the State Cross Country meet. Linda Magnesen commented, "I am fortunate to be in the top of my class TOP TEN SENIORS (as of Dec. 20, 1978 in random order) Front Row: Linda Magnesun, Sharon Peshkin, Betsy Krueger, Laura Warner Back Row Mary Tripsas, Jim Elbovicz, Brian Fallon, Ken Dorf Phil Williams, Melodie Lisy

SENIORS RANKED 11-20 (in alphabetical order not pictured) Cheryl Coseglia, Jeffery Davis, Jeffery Deigl, Julia Fabris, Holly Maxon, Cart Paimer, Steven Park, Lyrin Stone, Sheryi Streder, Katherine White

but I don't feel that competition against my fellow classmates is as important as the learning itself." She is on Pom-Pons, in gymnastics and attends Young Life

On the other hand, there are those who feel that class ranking and grades are, in part, a game Laura Warner commented, "Getting good grades and a high class rank is a game where the factors involved are, in order of importance, luck, hard work, and intelligence."

Finally, there are those who attribute their success to other means. Jim Libovicz explained, "I am where I am today because of the S M B C." Both Jim and Phil Williams are active members of their own private group, the Saturday Morning Breakfast Club

Whether partying or studying, these ten students deserve recognition for the honor they hold. As of December 20, 1978 these ten are the academic leaders of the school

Knowledge in the methods of CPR is crucial in the event of a heart attack. Seniors watch as Cheryl Leonf, with the guidance of a paramedic, performs on Rescue Andy.

# **Heavy Breathing**

One and two and three and four and five, and one and two and three and four and ten, and one and two and three and four and fifteen ... two quick breaths. and one and two . . . Any person who has gone through senior health should recognize these few life saving words. They are the words that go along with cardiopulmonary resuscitation or CPR. When one enters the senior health room, he may, at first glance, be shocked to see a human form lying on the floor, apparently unconscious. But he'll soon realize that it is only Rescue Andy, the inflatable rescue doll Andy has a lifelike head, hands and feet and his body is blown up with air. Air can be blown into his lungs torso through his mouth to stimulate mouth to mouth breathing. A sternum, or chest bone, lies on top of him, which is pushed upon by those practicing CPR, included in the program are several paramedics, workers for Superior Ambulance, who Instruct the CPR Each day of the two week course, two paramedics are present to demonstrate and watch students as they perform on the dummies. Students are taught the Heimlich method for the choking victim and mouth to mouth resuscitation for the suffocating victim. CPR Involves saving someone when the heart has stopped beating. The methods of saving a baby are also taught, but with the Rescue Andrea doll, "It's very important for everyone to become aware of the heart attack problem," says Mrs. Feld, senior health teacher. "It is good for you to feel you can do something in the case of emergency." It is hoped that everyone in Elmhurst learns CPR because of the ever prevailing heart failure problem, and teaching senior health classes could provide a strong precedent for the rest of the community

# Helping Freshmen Adjust

Do you remember your first day at York? The school was so large and you telt you were just one of thousands. Unrecognizeable faces passed you in the hall and you may have felt lonely in this strange school. This year, York started a program to try to alleviate these problems for new students

Mr. Pasternock, a guidance counselor, formed a group of 22 upper classmen to act as peer counselors to freshmen. The students were selected for their leadership and their desire to help others. They were trained twice a week for seven weeks learning how to become good listeners as well as how to really care for people. Mr. Pasternock commented "The peer counselors are a tremendous enthusiastic group of people and are a joy to work with."

The group is concerned with freshman and how they can learn to deal with them-

selves and the people in their lives. The peer counselors work with topics such as how to be assertive without hurting another's feelings. The group also deals with careers, leadership, personal strengths test anxiety, and expressing one's self

Seniors and juniors are chosen to be the counselors because many of them have already been through the same experiences. "I know what it's like to be a freshman, I want to help other kids in the same situations that I was," commented Sharon Peshkin. The peer counselors meet with freshmen who are interested in the program twice a week during part of their lunch period. The other half meet in classrooms through a course entitled Personality Development, which meets once a week

Whether or not the program is continued in future years will be determined en tirely by freshmen turnout. This year the number of freshmen interested overwhelmed the counselors. Mark Carlson commented, "I hope it will be around for a while. Since the campus may be closed, the pressure on freshmen will be greater. As much as I'll be able to help others in later vears."

Leading discussions in such as as career assertiveness and leadership is senior Kris Professon, one of the peer counselors. The program offers inderclassmen a chance to bring their problems to someone besides an adult.

# Guidelines To Getting A Date

We have all heard that a high schoolers's favorite pastime is dating and the activities that go along with it. I'm sure no one could disagree. However, those who aren't "blessed" with a member of the opposite sex might benefit from guidelines to follow on how to get a date.

First of all, one must meet the member of the opposite sex, therefore, one must go to places where they congregate. (Remember: They won't always seek you out, you'll have to find them.)

For girls and guys, the best places to meet the date of your dreams are at school games, parties, college, beaches, the courts, ski lodges, and bars. There are several important restrictions to each of these

School games are almost the ideal place to "hook" a guy or gal. They provide a wide selection of dating age teenagers. Whether they're from the opposing school, or from York's very own, the selection is almost inexhaustable

Parties are a great place to find a date. They provide a casual atmosphere where you can really be yourself, or put on a good show. There's also the possibility of getting drunk and "not realizing" that you are making moves on the cutest girl or guy there. In this way, you can't be blamed for well-planned actions

Colleges are better places for girls to get guys than for guys to get girls because the York guys usually prefer girls their own age or younger. Friday and Saturday nights are perfect for getting a few female friends together and driving to U of I, Northern, Northwestern etc... to find an attractive and "mature" college man.

Beaches, tennis courts, and ski lodges all present certain problems. First of all, in order to "catch" somebody at a beach, it's best to be thoroughly tanned, look good in next to nothing, and know the basics of volleyball and Frisbee toss. Without these important qualities, you're going to be just one of the teaming masses

At the courts, the ability to act is important along with having a thorough tan and once again looking good in next to nothing. Girls can melt almost any tennis pro with a soft and sweet, "Oh, I love your back hand, can you show me how?", or a few cute pivots in a very short tennis skirt. Girls need not be good at the game to play the field, whereas, the men must show their athletic ability. They must have a masterful serve, a smashing backhand, and a winning smile

Ski lodges are an excellent source of new faces. The only problem is the short length of the skiing season. Guys can spend hours at a time helping the girls on with their skis, boots, jackets, mittens, etc, etc, etc. Girls will usually welcome the help

For those ski pros, the challenge of a downhill race may be just the thing to

spark a romance. Or, if skling doesn't come as easily, make sure you grab the tow rope just ahead of a prospective date so you can "slip" into his or her arms. Although this sometimes works, it has a tendency to cause multi-person pile-ups. You can also use your creativity on the chair lifts. Dropping your poles before you lift off leaves the guy or gal behind you the opportunity to pick up your poles and meet you at the top of the hill. The advantage to going to a ski lodge instead of a beach is that although you may look fatter with all those layers of clothing, if your lace looks like pizza, nobody sees It behind the scarfs, hats, and goggles, leaving your personality to flourish.

Bars present only one problem. Unless you look nineteen, or you know some-body, bars just aren't easily accessible. Another mark against the bars is that most of the inhabitants are older and wiser, and high school kids are looked down upon and often just don't fit in. Discos are a better place for high schoolers to meet and find romance as they are swept off their feet and on to the dance floor.

These guidelines have been complied through laborious research and organization. It should be remembered that they only provide a way to meet a member of the opposite sex, it's up to the individuals to make the date work.

# The Pick of the Flicks

From food fights and toga parties to hobbits and wizards, movies this year covered a wide range of topics and tastes. While some left you shaking beneath you covers at night, like "Magic" or "The Eyes of Laura Mars", others left you laughing for days, like Cheech and Chong's "Up in Smoke"

After the success of "Saturday Night Fever" several other musically-oriented films showed up. Dorothy and the Scarecrow sang and danced through "The Wiz", the 70's version of the "Wizard of Oz". And of course John Travolta and Olivia Newton-John fell in love in between their songs in the screen adaption of "Grease"

But perhaps the one film that above all captured everyone's attention was National Lampoon's "Animal House". The Delta House's antics were talked about, written about, and re-inacted at high schools and colleges across the country

A sampling of York students' favorite movies was taken from one Track 2 Track 1, and Honors English class in each year. The results of the poll, which asked the question, "What's your favorite movie?", were surprising in some instances

Although the most popular movies, "Animal House" and "Grease" were predicted, some other favorites were not. Some different answers were "The Maltese Falcon" "Bambl", and "Love of Benji"

The Delta Fraternity in "Animal House" is comprised of as rowdy a bunch of mishts as ever graced is college campus

As fall slowly fades into winter, the smokers savor one of the last puffs they can enjoy in mild weather

Neither ruin, sleet, snow, nor threat of cancer keeps students from making their daily trek to the sacred area. Despite the surgeon general's warning these students invest weekly allowances in the ciga ratte industry.

## The Sacred Acre

It might not bear the Surgeon General's stamp of approval, but York's smoking area continues to attract a steady flow of students coming and going nine periods a day

Only on bitterly cold mornings is "the area" deserted — and then just for short periods of time. What accounts for the popularity of this sacred area? As might be expected, many students use it to catch a quick smoke during a free period. Others seek refuge there when ditching a class or plotting some questionable activities. It's a place to sit and visit with

smoking and non-smoking friends. In extreme cases, a student who enjoys the quiet outdoors may even do a bit of homework — a chore faced occasionally by most of the populace

Rarely is the area ordered closed, but this year it happened on the day of the first substantial snowfall. A tossed snowball "accidentally" connected with a bus window

Back in September, rumors were flying that new rules would govern the use of the smoking area. For example, it might have been necessary to have a note from your parents to gain entrance, and only upperclassmen would be allowed there. Luckily for the smokers, they were only rumors School authorities are suggesting that Inthe next few years, when the student body becomes smaller and the daily schedule becomes shorter and more structured, some of these rumors just might turn into rules. Is the golden age of the smoking area nearing an end? Perhaps some future graduating class will erect a monument to the lasting contribution of "the area"

## Wining And Dining

After the magic and sparkle of the dance is over, couples drive off to a dark romantic restaurant to spend the remainder of the evening wining and dining. It is often the part of evening awaited with the greatest anticipation

There is an endless variety of fine restaurants in the Chicago area for high school students to choose from Some of the more popular after dance spots are The Pinnacle, Kon Tiki Ports, The Ninety-Fifth, Sharko's, The Terrace, Bennie Hannas, Hugo's and Stoutters. While several of these restaurants are a forty-five minute trip, some can be reached in a matter of minutes. Hugo's, Stouffer's, The Terrace, and Sharko's are all very close by, requiring a 15 minute drive

For a more exotic cuisine, Kon Tiki Ports and Benni Hannas offer unusual menus. Kon Tiki Ports is known for their Polynesian dishes and Benni Hannas

serves mainly Japanese tood

If you like a magnificent view while dining, The Pinnacle is the perfect place. The center of the restaurant slowly revolves, giving diners an eyeful of the city and the lake along with a wide selection of food Another posh restaurant featuring a view of the city is The Ninety-Fifth, so named because it is in the 95th floor of the John Hancock Center

All of these restaurants are very classy and tend to leave a big hole in the wallet But most York students find these restaurants worth the cost and they continue to be popular spots for wining and dining after dances

# MAGICAL MYSTERY TOUR

It hit Chicago June 24th, 1978 The 'Fab Four' were recreated at the Blackstone theater. Four tremendously talented actors sang their way past 800 other guys, rehearsed daily for 8 months and brought to swarms of Chicagoans.

BEATLEMAN A

The rustling of the anxious audience was suddenly interrupted by a voice over the foud speaker, "We ask for your comperation not to smoke anything of the theater." Then the Beatles were not duced by the familiar recorded voice of Ed Sull van

The live show was not about the Bea Les themselves, it was a visual experience of the events that occurred during the 60's when the Beatles were the greatest

"Yesterday", "Lucy In the Sky With Diamonds", and "Let It Be" were among the 29 songs performed by 4 look-alikes who sounded uncannily like the real thing. The slides of the most memorable event in the 60's, which created 4 600 color mages, caused the audience to swear they were watching a live Beatles' concert.

Beatlemania played to full houses at almost every performance. The phenomenal lighting effects drew people of all ages to the Blackstone theater up to November 26th when the show closed. The spirit of the 60's had returned to Chica and fonly for a short time.

#### **Just Hanging Around**

It's about 8 30 P M. on a Friday night. The setting is a quiet town with a population of about 48,000. The streets are quiet and empty as the evening sets in, but a small, brightly-lit food store on Spring Road is buzzing with activity. Teenagers fill the parking lot in their cars, on their care, and around their cars, a few kids are even in the store. What's the big attraction? Ask just any York student — the White Hen Pantry is one of the best-known and most popular hangouts in town.

Why is it so popular? It's really just a place to go to meet friends, find out about parties, buy munchies, or hang around until something interesting happens. White Hen Pantry is also close to school and it is easily accessible to a lot of kids.

The management puts up with a lot of stuff that just naturally happens when there are a lot of rowdy kids at one place on a Friday or Saturday night. Mr. Gose, the owner, doesn't seem to mind most of the socializing that goes on, just as long as the food sales increase

A food store is not a very classy hangout, but until something better comes along, it's about the only place in town to go if you're looking for a party or if you're just plain bored.

### **Right Down The Line**

Somedays life seems to be just one long line after another ... It's one part of life that most people would rather just forget about — standing around and waiting has to be the ultimate waste of time. When it comes to the fine art of standing in lines, no one is better informed than the York student.

After laying around all summer, the unsuspecting student is hit with the first and probably the worst line — Registration. Hours and hours are spent moving from one line to another; as depression grows, so does the pile of books and the bill

As the school year progresses, students become increasingly familiar with an un-godly number of other lines. Bookstore lines have been known to waste entire lunch periods. Lunch lines also take up valuable time, especially considering what the wait is for. There are lines to get into dances, sochops, plays, games, and of course the lines and lines of students who fill the halls at passing periods.

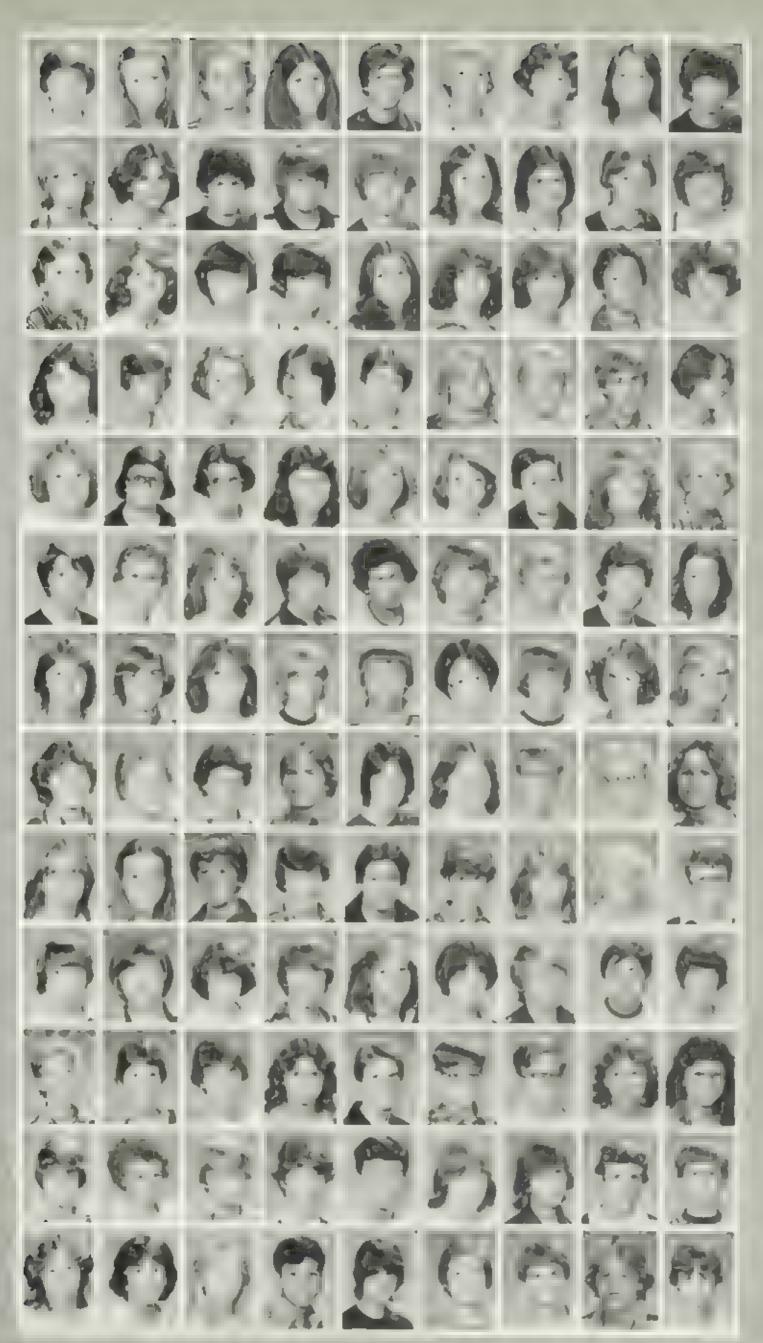

Don't be discouraged — this doesn't mean that all lines are boring. The annual Homecomming Parade is nothing but a line of spirit and insanity that rolls through town every October. Finally, there is York's "Long Green Line," a line of strength, stamina, and of course, victory

#### **Between the Bells**

The bell rang and the countdown began on five of the most sacred minutes of the day. I bolted out of the classroom and was immediately surrounded by a group of big, tough senior guys. We approached the corner and I realized that I could forget about turning. As the crowd surged onward, I took three quick steps to the right and flattened myself against the wall I made it! I closed my eyes and said a short prayer of thanks.

I made it to my locker in record time, grabbed my books and joined the crowd on once again. As I threw my pass/fail request at the secretary in the Guidance Office, and took a quick glance at my watch. Only one minute left.

Now I was in a dilema. The guy who sat behind me in my next class was very cute and I really wanted to go to the bathroom and comb my hair before he saw me. I ran into the bathroom, elbowed my way up to the mirror, and quickly combed my hair. Once out of the bathroom, I made my way down the now almost empty hall. An eerie silence filled the air, but was quickly broken by the ringing of the bell. I slid noiselessly into the room as my teacher gave me a piercing glance and made a deliberate mark in the gradebook. I sighed. My hair perfectly in place, I turned around slowly to face the desk behind me. He was absent

## Colophon

3300 copies of the 1979 Y's Tales were printed by Josten's/American Yearbook Company of Topeka, Kansas on 80 lb Dull Finish paper. Body copy type is 10 pt Helvetica, justified right and left except for the "Teacher Test" for which type is Souvenir, and for the current events pages for which the type is Paiatino, Caption type is 8 pt. Helvetica, group pictures identifications are In 6 pt type and headlines, except for features, are usually 30 pt. Helvetica. Most features. headlines are FORMATT. Sub-headlines are 18 pt, type and prose lead-ins and excerpts are 12 pt.

Endsheets are optic yellow. The cover is custom embossed. It is green river with art and lettering embossed in gold foil. The cover was designed by members of the Y's Tales Staff

Pictures on the division pages are direct lines in black with 60% brown overprinted on a 30% yellow background. Headlines on division pages are Prestype dry transfer lettering and copy is 14 pt. Helvetica. The cut-out of the bus on page 36 is a direct line in black with 100% yellow. Pictures on the Cross Country pages are take duotones in 30% Rich Green.

Faculty, underclassmen, senior portraits, and most group shots were taken by Leander/Gibson Studio of 202 S State Street, Chicago. Pictures for the rock concert spread were bought from Steve Pines. For sample and catalog, send \$1.00 to Steve Pines, Box 4313, Greenwich, Ct. 06830. Pictures for the "Glimpse of the 70's" were purchased from the Chicago Sun-Times, A.P., and U.P.I. The old pictures of the school building on the trivia page were located by Mrs. Ropke.

The '79 Y's Tales is a spring delivery book covering the year from March 1978 - March 1979. Y's Tales sells for \$5 00 and costs over \$20,000 to produce.

## A Year Of Experiences

Monitors are an inseparable part of Yak without them chaos we did not They disciply decided dents a friendly adult to talk to be for to be at a financial with

Whether it was singing as a nun in the Sound of Music, Joining a work program, or going out for the tennis team, we all had our own experiences this year. New jobs, new friends, different classes and teachers — 1978-79 was different for each of us.

The annual atudent Art Show in Yorkshire Halfgives exposure and recognition to an offer Logi Item yet extremely fatented section of the student budy.

A Russian dissident, Ivalievin far light speaks about his expendences with the KibB to Mr. Kiriar Mr. Cloud. Mrs. Kaptan, and MaryBeth Democrag. Mr. Levin was the featured speake, at an assembly attended by the social studies. English, and science classes in the spring of 1978.

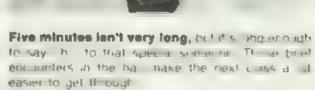

The students in Mr. Ditiman sic assistance ar unusual way of getting through collectives during leasers the Potty Pass. Dealing with the problem of getting around freely white maintaining quiet is something that all students and teachers must face and a sense of humor can really help.

A visitor may have mistaken this class to be a parochia school, however t was merely publicity for the fall musical. "The Sound of Music

**Dribbling ien't restricted** stroy to the court there sia so some action in the side ries during this trest man basketbac game.

## A Year Of Unity

Despite our diversity, there are many times that we shared: four days off school because of snow, a fire drill in 10 degree weather, the disruptions that renovations caused, the Homecoming victory of the football team. We laughed during "Second City", cried when the basketball team lost to Proviso East, cheered the Cross Country team, and complained about exams. Looking back on it al, we find that 1978-79 was a year of unity at York.

Duke power reigns as enthusiastic fans crowd the gym to cheer the basketball team on in the most tense game of the season against Proviso East.

As another day comes to a close, strain loss hurry to join the other riders on their bus route

Void of all people, the courtyard takes a brief but needed respite during the winter months when the bitter cold and the snow keep all but the bravest indoors.

An earle glow illuminates the sitent countyald as night envelops the school

Sharing the moments before the State Cross-Country meet gets underway are students from all grades, parents, and teachers. A leering of excitement spread throughout the lans as the starting time grew near.

A first place finish at the State Cross Country meet was enough to pull much of the school together for an eighth period pep raily. The excitement reached its peak as the Long Green Line in yellow fuxedos made its way into the gym-

School spirit was at its height during the trip to Peona for the state meet. Decorating one of the seven buses that made the trip. Doug Horn predicts the outcome of the meet

The crowd grows tense as the time to announce the 1978 Homecoming royalty grows nearer

Although some seniors have sworn to have never set foot in the library spending some free time there. is almost inevitable

When the bell rings, hundreds of students become one flowing mass, each one bent on getting to a different place. Locker stops are made, "hi's" are exchanged, and then there's just enough time to dash into class before the bell rings again
